

“Horst Auction Center” Summer Tool Sale

Saturday, August 13, 2022 – 9:00 AM
Preview Times: Friday, August 12, 1:00 PM till 5:00 PM

*Please note- all lots are photographed for viewing on our website www.horstauction.com.

1. 2 – Hand planes: Gage Tool Co., Vineland, NJ. #2-9 1/4” transitional bench plane, G+ w/ owner’s initials on handle; Consolidated Tool Works, NY (1890-1920) dbl.-end block plane, cracked rail (otherwise Vg), refinished
2. Asian traditional ink-line box w/ hardwood carved frame, resin cast string-wheel & small iron crank, Vg
3. Stanley Bailey, England, #6 bench fore plane, heavy cast deck w/ raised brace center brace rails, Vg+
4. Stanley Bailey #5 1/4-C bench jack, refinished G+
5. Tray lot assorted drilling devices: Millers Falls #5 hand drill w/ bits in wooden storage handle, G+-VG; Dunlap 10” ratchet brace, G+-VG; 13pc. assembled set of auger bits in canvas roll, G+-Vg
6. Tray lot assorted tools: 2 – Stanley block planes: #9 1/4, G-G+; England, #G12-102, Vg; 5 – assorted T-handle snail tip gimlets; Goodell Bros., pat. 7-22-1890, & 11-17-1891, spiral screwdriver, G; carpet layer’s hammer w/ flared octagon poll, G
7. Tray lot assorted drilling devices: wooden Shipwright’s bit-stock brace w/ wooden bit housing & original turned knurl, G+; graduated set of 5 – early center-bits, Vg; assembled group of 6 – various early form bits, G+-Vg
8. Tray lot assorted tools: 3 – various gouge carving chisels, G; 4 – assorted bearing or burnishing tools, F-G; wooden foundry forming tamper w/ round & tapered wedge heads, Vg
9. Homemade, wooden 22” panel marking gauge w/ scroll-cut tiger-maple fence & wooden stop-screw, G+
10. Assembled graduated set of 8 – wooden side-bead molding planes, various makers, G-Vg. Makers include: Sandusky; Lamb & Brownell, New Bedford; Edward Carter, Troy, NY; N. Spaulding & Co.; L. & T. White, Buffalo; T.J. McMaster
11. 6 – Assorted wooden hollow or round wooden molding planes, G-Vg. Makers include: J. Colton, Philadelphia; Darbey; A. Mathieson & Son, Glasgow & Edinburgh; etc.
12. 3 – Various handled smoothing planes: Thos. Appleton, 16” bench fore plane, G; Stanley Bailey #26 transitional bench fore plane, G; A. Howell & Co. NY. 10” handled block, secondary mounted sole plate, G
13. 4 – Wooden molding planes: unsigned 8 5/8” hardwood block plane, Vg; Cayuga, NY 7” block, G; Union Factory, H. Chapin, 9 1/2” X 1 5/8” rabbet, refinished, G+; A. Howland, NY, #187 rabbet, G+
14. 2 – Wooden raise-handle jointer planes: unsigned 20 3/4” w/ Baldwin Tool Co. 2 3/8” iron, restored Vg; E.C. Ring, Ringville, MS. 22”, G
15. 4 – Various wooden molding planes: E.W. Pennell, Phila. 2 1/2” gutter handled gutter plane, owner branded D. Bowers, G; G. W. Dennison, 2 1/4” round, G+; Phoenix Co., Hitchcockville, 1 5/8” round, G+; R.A. Parrish, Phila. 3/8” dado, G
16. P. Chapin, Baltimore, lg. 5” wooden “field/panel” raising plane w/ 3 1/2” skew set W. Butcher iron. Plane has adjustable sole fence & side depth-stop fence (replaced knick-knife & wedge), G+-Vg
17. Homemade, wooden handled wedge arm panel grooving plane. Plane is signed E. Smith & dated 1848, and has inlaid bone sole runner plates, G-Vg (missing plane iron)
18. *Restorer Lot - A. Howland & Co., NY. wooden 4” “field/panel” raising plane, F+-G
19. 3 – H.B. – Eric Sloane books w/ dust covers, Vg: Sketches of the Past, 1986, publication; America, 1982, publication; The Seasons of America Past, 1988, publication
20. 2 – Tool references: 1st H.B. The Art of Fine Tools, by Sandor Nagyszalanczy; 2nd S.B. Collecting Antique Tools, by H. Kean & E. Pollak
21. 5 – S.B. series of editions 1-4 & supplement A Guide to Makers of American Wooden Planes
22. Tray lot of 6 – References: H.B.: W.L. Goodman British Planemakers from 1700, 1978, 2nd edition, Arnold & Walker; 2 Vol. Set – Tage Frid Teaches Woodworking, 1979 & 1981; S.B.: Dictionary of Woodworking Tools, revised edition, R.A. Salaman; Tool Shed Treasury, 1978-1995, Hank Allen editor

23. 24" Brass 6 – spoke "Ship's Wheel" w/ 14" brass frame & lg. turned 5" brass capped wooden grips. Wheel is parts number JMC6-858W, overpainted w/ black paint, G+
24. 20" Chrome plated 6 – spoke "Ship's Wheel" w/ 12" metal frame & 4" metal capped wooden knobs, F-G
25. 2 – Stanley T&G joiner's planes: #49 "flip-bottom", G+-Vg; #148- 7/8" two-way, Vg
26. 2 – Stanley Bedrock bench planes: R&L early model #605 1/2-C, rounded shoulder, fully embossed strike on lever lock, early arch strike circa 1910-12, G+; #605 bench jack square shoulder, restorer lot, G (good handle & knob)
27. 3 – Various hand planes: 2 – variants, Stanley Bailey #5 1/4 "Junior jack" planes: sweetheart" no number on frame, G; & later model, G+-Vg, possible mid-restoration (wood unfinished); late model #60 low angle block w/ blue paint & nickel-plated cap, F-G
28. *Restorer Stanley planes lot: pre-1900, #113 adjustable circular/compass plane, extensive rust, but complete; "sweetheart" #5-C bench jack, extensive rust/complete; 2 – "two-tone" block planes
29. 3 – Various hand planes: 2 – Keen Kutter: #K130 dbl.-end block, cracked left rail (great parts); #K5-C bench jack, G (good restorer); Sargent #217 block, Vg
30. 3 – Various Stanley block planes: #140 rabbet block, complete G+; #75 bullnose block, Vg; #130 dbl.-end G+
31. 2 – Stanley Bailey bench fore planes: #6 smooth, early model w/ "sweetheart" blade, G; #6-C, old model, G-G+
32. *Restorer lot: Stanley #45 combination w/ 2 – racks of cutters, missing long rods, F+-G
33. 3 – Stanley edge tools: #99 left side rabbet (missing depth stop), G+; #79 "two-way" side rabbet, missing fence, G-G+; #67 universal spoke shave, G
34. Stanley #140 rabbet/block removable fence is pat. Nov.6, 1894, Vg
35. 2 – Stanley edge tools: #79 "two way" side rabbet, Vg.; #118 pressed-steel/ "gun metal" block, Vg
36. Stanley #248 "weather stripping" plane w/ extra cutters & parts, G+ (circa 1936-1943)
37. 2 – Variants: Stanley: #4 1/2 "wide" bench jacks: "sweetheart" smooth bottom, replaced lever jack, & tote F; "sweetheart" corrugated, G+ (good restorer)
38. 2 – Winchester trademarked bench jack planes: #3005, restored (repaired handle); #3004, G-G+
39. Stanley Bailey #2 smooth small bench jack, as found, V-strike circa 1912-20, complete G (great restoration project)
40. 3 – Various hand planes: Keen Kutter #K4-C bench jack, cracked tote otherwise Vg; Stanley "Four-square" #1120 block, G+; Stanley #192 improved rabbet, missing depth stop, F
41. 3 – Stanley planes: #4-C bench jack, left rail marked HH otherwise Vg; "sweetheart" #5 1/4 "junior jack", used on painted surface (good cleaning needed); "two-tone" block, G
42. Restorer lot: Sargent: #81 dbl.-edge side rabbet, G; #414 bench jack, missing 1-tote screw, G+; "no name" #130 dbl.-end, F-G
43. 3 – Various edge tool/planes: Stanley #95 edge trimming block, G-G+; Stanley (?) dbl.-edge side rabbet, G; Millers Falls (#75 type) bullnose block, Vg
44. 2 – Tools: Belknap "Bluegrass" #BG47-16oz. claw hammer, Vg+; Marbles #6 "Safety" hatchet w/ fold-away edge cover, G
45. 3 – Embossed Keen Kutter hatchets: 2 – shingling half hatchets, F& G+; "boys" or belt hatchet, approx. 16oz., Vg
46. 3 – Various Cheney claw hammers, F-G: 20oz (?) adze poll "framer's"; 2 – variants 16oz. w/ ball-bearing nail holder
47. 4 – Assorted claw hammers, G-Vg. Makers include: Plumb; Philadelphia Tool Co.; (?)
48. 2 – Plumb hatchets: "Fayette Plumb" anchor strike, "left hand" hewing hatchet, G+; "Genuine" "Boy Scout", Rockaway model, restored, Vg
49. 2 – Broad hatchets, G: C. Hammond, hewing; Wm. Beatty & Son w/ Steer strike, wedge cut
50. 3 – Specialty tools: unsigned, hand wrought Orchard grower's grafting froe w/ wooden grip, Vg; 2 – various commercial made Timberman's race knives: Marples & Sons, Sheffield, G; Wm. Greaves & Son, "Sheafworks", G
51. 3 – Various early hatchets: J.B. Stohler X-brand (John B., Schaefferstown, Pa.) kitchen hand axe, G; 2 – Beatty & Son: small kitchen axe, G; "left hand" full hewing hatchet, G
52. 3 – Hatchets: Plumb, 20oz. full hatchet, G; 2 – Fulton Tool: 18oz. "left hand" hewing hatchet, Vg; shingling half hatchet, g.
53. Tray of drilling tools: Wooden brace w/ Slater, brass "push-button" chuck & brass inlay bracing, cracked frame, G; 13pc. Jennings auger bits set in canvas roll, Vg (roll F)
54. Tray assorted tools & primitives: hand crank, bench mounted honing wheel, patent Dec. 14, 1886, G; Pr. U.S. Club #28 shoe-mount skates, G+; Shakespeare "Jupiter" #2213 reel, F-G; cast iron bill holder, pat. 10-13-03, Vg; brass front spring scales, G

55. 4 – Measuring devices: 2 – wooden marking gauges: Disston & Sons, rosewood mortise, G; unsigned, Stamm (?) slitting gauge, F-G; 2 – various string winders (1 – w/ bentwood hoop-top carriage), G
56. Tray assorted drilling tools: Merit 10” ratchet brace, Vg; 2 – canvassed rolled auger bit set, G (1 – Jennings)
57. Assembled group of 10 – various firmer & bench chisels (most socket handled), G-Vg. Makers include: Stanley; Winchester trademark; Greaves & Sons. Buck Bros.; etc.
58. Tray lot: hickory “firmer/joiner’s” ring braced round mallet, G+; 6 – assorted firmer chisels (need help), various makers
59. 4 – Assorted measuring devices: 2 – Marking gauges: Disston #89 1/2 boxwood mortise, Vg; Disston & Morss (?) rosewood & brass mortise, owner name embellished, G+; 2 – string winders (1 – bentwood hoop top carriage), G
60. 5 – Various transitional bench planes, G-G+: Gage, Vineland, #4; Winchester trademark #17A (?); Stanley: #29 jointer; #26 fore; “liberty bell” capped block
61. Tray lot assorted tools: Craftsman “clear case” push drill, Vg; Stanley: #04-059 doweling jig, NIB; 3 – various “Yankee” spiral screwdrivers, Vg
62. 3 – Early wooden measuring devices: 2 – various models- J. Stamm, Mt. Joy, Pa. marking gauges, F-Vg (1 – cut-down); string winder w/ mortise & tenon constructed bent-hoop carriage, G+
63. Rare, Keen Kutter oak cased tool set w/ brace used as handle, G: oak hinged case w/ claw hammer; block plane, brace, saw, & 2 – chisels
64. 2 – E.W. Carpenter, Lancaster, Pa. patented double-wedge bench planes w/ same owner name, G-G+: 16” Fore, repaired tote; 22 3/4” jointer. *note – both have nose marked owner strikes & dings to nose
65. 3 – Fairly rare, wooden molding planes: H. Niles (Hezekiah Niles, worked 1764, in Philadelphia), handled 1 1/2” Grecian ogee, G. (4-star rated rarity); E.W. Carpenter, Lancaster, block w/ steel face sole, F. varnished; Stamm, Mt. Joy, block, screw repair near nose, G
66. Tray assorted tools: 5 – assorted Stanley carpenter’s chisels w/ neoprene handles, F-G+; 2 – various combination tool handles w/ parts, G-Vg; Federal #3 screwdriver, G
67. 4 – Assorted Philadelphia wooden molding planes, various cuts, F-G. Makers: Parrish; John Bell; T. Poh(???)hey & Son
68. 4 – Lancaster Co. wooden molding planes: E.W. Carpenter: ovolo w/ bevel, F+; 1/4” bead, Vg; grooving plane, G; D. Heiss (Dietrich Heiss, 1769-82, & 1786-1814) quarter-round, Vg;
69. 2 – Lg. wooden bench jointers: unsigned odd 3-ply 23” handled jointer, G (delaminating); signed (?) 30” w/ odd peg fore-grip, G
70. 4 – Assorted scrapers or shaves: Stanley: #80 box scraper, Vg; 2 - #82 adjustable, G-Vg (1-early model); Starrett, “Universal”, Vg
71. 3 – Drawknives: G. Hewes (George Hewes, Peach Bottom, Lancaster Co.) 9 3/4” G; unsigned, 4 1/2”, Vg; Brady (late era, Mt. Joy) 9 1/2” sag-back, G
72. 3 – Various drawknives: Hargraves (?) 2 1/2” cooper’s head shave, G; Oak Leaf, 8” fold-in “safety handle”, G; James Swan, 8” “safety handle”, replaced bolts
73. 2 – Lancaster Co., hand wrought drawknives: Brady (possibly strike of David Brady, earlier generation) 10” stop-chamfer, G+; J. Shertz, Lancaster (John Shertz, Lancaster City, mid-late 19th century)
74. Early 12” unsigned, hand wrought cooper’s bench axe, nice form, G+
75. Fine, Wm. Brady & Son (Lancaster or Mt. Joy, Pa.) 2 1/2” socket handle slick w/ walnut turned knob-handle, Vg
76. Rare form, H.H. Stricker (Henry H. Stricker, Reinholds Station & Vinemont, Lancaster & Berks Co.) Rockaway pattern felling axe, nice form that not typical for Stricker
77. Wm. Brady (Lancaster or Mt. Joy), 8 1/2” butcher’s cleaver, G+ (handle crack)
78. Rare, J. Shonk (attributed to John Shonk, Mastersonville & Mt. Joy) center-poll posthole mortise axe, G
79. 2 – J.B. Stohler (John B. Stohler, Schaefferstown) X-brand felling axes, G
80. Early C. Silvius (Conrad Silvius, 1850’s , Lancaster City) 9” off-set side axe, G. Possible earlier maker & re-edged by Silvius
81. Lg. Wm. Beatty & Son, Chester, #4 -11” butcher’s cleaver, Vg.
82. Wm. Beatty & Son, 11 1/2” side broad axe, left hand, G
83. Dbl.-struck Lancaster Co., broad axe, Vg. Axe was made by G. Hewes (George Hewes, Peach Bottom area) & re-edged by J. Shertz (John Shertz, Mastersonville)
84. C. Silvius, Lancaster (Conrad Silvius, working 1850, Lancaster City) felling axe, G

85. Dbl.-struck early side broad axe “right hand” w/ 10 1/4” edge, Vg. Marks: 1st Thomas (embossed, unknown Possibly James Thomas, who worked in 1817 in Lancaster Boro) 2nd re-edged by G. Sener (Gottlieb Sener, working 1841, N. Prince St. Lancaster, Pa.)
86. Brady (possible David or William) center-poll posthole mortise axe, Vg
87. Dbl.-struck carpenter’s square poll adze, Vg: C. Silvius (Conrad, working 1857, Lancaster City); J. Shertz (John Shertz, Lancaster City, mid-late 19th century)
88. W. Brady (William, Mt. Joy or Lancaster City) broad axe, G. (replaced handle)
89. 2 – Felling axes: J.B. Stohler X-brand (John B., Schaefferstown, Pa.), G.; H.H. Stricker (Henry H. Stricker, Reinholds Station & Vinemont, Lancaster & Berks Co.) Rockaway pattern, Vg
90. Huge, Sauers & Co., Mt. Joy, 12” Butcher’s “splitting” cleaver, Vg
91. 2 – Lancaster Co. hand wrought butcher cleavers, G-Vg; Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.) sag back; Brady (William, Lancaster or Mt. Joy.) 7”
92. 3 – Jenoye Mfg. Co., Buffalo, NY. millstone picks, G-G+
93. 4 – Shingling half hatchets: 2 – Keen Kutter (embossed strike), G-G+; Kelly “Vanadium”, shield strike, G+; Estwing (?) leather grip, F-G
94. 3 – Edge tools: C. Silvius (Conrad Silvius, mid-19th century, Lancaster City), cooper’s adze, Vg; unsigned, full lathing hatchet, new handle, G; Wm. Brady (William, Mt. Joy or Lancaster City) 8 1/2” stop chamfer drawknife, G+-Vg
95. “Eagle Strike” Wm. Beatty & Son, Media, butcher’s 9 3/4”: butcher’s cleaver, (shielded Eagle strike was used 1861-1872), Vg
96. 4 – Various Plumb hatchets, F-G: 2 – Fayette Plumb, “Anchor Brand” broad hatchet “New England” pattern; right hand hewing hatchet, chipped butt edge; shingling half hatchet; late shingling/rock-lathe hatchet,
97. Group of millstone picks: matched set Brady, Lancaster w/ 2 – pick heads & screw-tight pick handle, G+; 2 – unsigned picks (1 – w/ handle)
98. 3 – Various, Beatty family butcher’s cleavers: Beatty Edge Tool Co. #2-9”, G+; 2 – W. Beatty & Son w/ Steer strike: #00-6 1/2”, restored tip; #2G-6 1/4”, Vg
99. 2 – Lancaster Co. hand wrought drawknives: Wm. Brady (above noted) 9 1/4” head shave, G+; G. Sener 7 1/2” head shave, (Gottlieb Sener, working 1841, N. Prince St. Lancaster, Pa.), G+
100. J.L. Williams (James L. Williams, Philadelphia Tool maker, circa 1839-1861) 12” mask makers drawknife, G+-VG
101. 3 – Various drawknives, G. Makers include: J. Beatty (light strike); W. Butcher, 9” Wm. Brady, 8”
102. 5 – General Mfg. Co., Lancaster, pat. 7-4-16, “Bowman” aluminum-alloy cast handled bread saws, G-Vg
103. Unknown set of hand wrought lock-down nuts (??) signed; E. Duck (Emanuel Duck, working in Earl Twp., near Brownstown, Pa., circa 1850). The set has wedge-top “Lock-down” threaded bolts w/ large ram’s horn nuts. Use is unknown.
104. 5 – Assorted primitive tools: 2 – various hand wrought “Dengelstock”/field scythe or sickle anvils, G; 2 – unsigned millstone picks, G. Disston & Bro., Phila. combination saw-knife, G
105. Tray lot assorted hand wrought tools: B. Swiley (attributed to Benjamin Swiley/Swillely, working 1850 in Ephrata Twp., Lancaster Co.) trammel point/compass w/ slide-bar upper & threaded screw lower. The pin bars have raised strike-point for use w/ hammer. Possibly used as drift pins on furniture joinery (??); rough crafted orchard man’s grafting froe, G; pr. of boot crampons, G
106. Hand wrought D-handled barking peeling slick w/ 4” edge on arched flattened area that is spear mounted to octagon shaft, G
107. Rare, B. Swiley (attributed to Benjamin Swiley/Swillely, working 1850 in Ephrata Twp., Lancaster Co.) boxing/posthole axe, G
108. Disston & Sons, Phila. 21 1/2” combination square/handsaw w/ original marking awl, G
109. Disston & Sons, dbl.-sided pruning handsaw, missing one original bolt, G+
110. 2 – Early English handsaws: Hague, Glegg & Barton, Sheffield 26” panel saw w/ flat-head brass split-nuts, G+; W. Butcher, Sheffield, 24” riveted fasteners, F
111. Rare, Henry Disston & Son (approximately 1yr.), Phila. #7-27 1/2”-5pt. w/ brass split-nuts & assayer scale button G+
112. 2 – Early, Henry Disston, Phila. handsaws: 24 3/4”10pt. (arch strike) w/ brass split-nuts & “Shielded Eagle” grasping arrows & peace balm, G+-Vg; 25 3/4” (Serpentine strike) w/ brass split-nuts & “Shielded Eagle” grasping arrows w/ head raised, G+

113. 3 – Disston & Sons, handsaws: #16-26”-9pt. w/ boxwood handle, G+; #D23-26”-8pt., G.; 26” w/ rosewood handle, F-G
114. 2 – Early, Henry Disston, arch strike handsaws w/ “Eagle” button: 26” w/ brass split-nuts , G; 26” w/ brass split-nuts, G+
115. 2 – Simmons, Keen Kutter handsaws: early strike, 20”-12 pt., refinished; late strike, 20”9pt. Sway-back
116. 3 – Various E.C. Atkins, 26” panel handsaws, F.-G
117. 2 – Handsaws: Sandvik 1711, #277 9T/10P w/ sea dragon impressed on handle, Vg; E.C. Atkins 26 1/4”-5 1/2” w/ floral carved fruitwood handle, G-G+
118. 2 – Spear & Jackson, Sheffield, handsaws: 20”-11pt. w/ brass split-nuts, cracked handle, G+; 28 1/2”-4 1/2pt. nib back w/ raised lugs, G+
119. 2 – Henry Disston, Phila. backsaws: 10” brass back w/ “Eagles & Arch” strike , brass split-nuts & “Shielded Eagle” button on closed handle (1 – crack), G+-Vg; 10” steel back w/ “Eagles & arch” strike, brass split-nuts on open grip handle (some cracks), F-G
120. 3 –Modern backsaws, Vg.: Durall Precision Tools, West Germany, 12” steel back; Japan 10” dovetail w/ turned handle; Spear & Jackson “Cockerill” w/ running chicken #22-12”
121. Tray lot of drilling devices: John Fray & Co. 10” rosewood handled “Spofford” split-jaw brace, G+; Stanley-Jennings #32 1/2 auger bit set in 3-tier wooden case, G+
122. 2 – Stanley “specialty block” planes: early R&L model #140 rabbet-block w/ 5-hole adjuster wheel, Vg; #95 edge trimming block, Vg:
123. 2 – Drilling devices: uncommon, Grand Rapids Sash Pulley Co. 3-bit sash plunge mortise cutter, Vg; A.A. Woods & Co. adjustable hollow auger, G.
124. Tray lot drilling devices: Stanley #923-12” ratchet-brace, G+; partial set - Irwin Auger Bit Co., Wilmington, OH. auger bit set in 2-tier wooden case, G+
125. 2 – Hand routers: Millers Falls #77, w/ sole mount fence & extra bits, G+; Stanley #71, missing depth stop, otherwise, G+
126. Stanley #45 combination plane w/ single box of cutters & small arms only, G
127. 3 – Various braces: wooden brace w/ brass knurl, P-F; unknown maker 12” “Scotch” brace, G; Fray & Co. #114-14” “Spofford” split-jaw brace, G
128. Lg. tray assorted brace bits: partial James Swan in wood case, F; adjustable gasket cutter; Craftsman complete set of 9-bits in slide-over case, G; 5 pc. Graduated socket/nut drivers; etc.
129. 2 – Modern (Chinese made) wooden cased sets of 16 – Forstner bits sets, Vg
130. Tray lot assorted modern tools: AMT, wooden cased 9pc. carving chisel set, Vg; unknown maker of small brass framed router, Vg
131. Tray lot 3 – Various edge tools: Millers Falls #67 router, missing depth adjuster screw, G; Stanley #66 hand beader w/ nickel-plating, G+; Stanley #9 1/4 block plane, blue painted, G+-Vg
132. 2 – Various bench planes: Keen Kutter #KK 3-C bench jack, G+; Fulton Tool Co. 13 1/2”-C bench jack, G
133. Stanley R&L Bailey #2 small bench jack, Arch strike circa 1902-10, w/ un-numbered frame, Vg.
134. Early, Stanley Bailey #5 bench jack w/ arch strike, un-numbered frame, patented L. Bailey chip guard, G+-Vg (light rust)
135. *Restorer lot: 3 – Various hand planes, F-G: Stanley Bailey: V-strike #5-C bench jack, owner paint on nose & knob; V-strike #130 dbl.-end block; Sargent VBM #409-C jack, G
136. 3 – Stanley planes: #3 smooth bench jack, post WWII, G-G+; 2 – Block planes: #220, arch strike, G+; #130 dbl.-end block, pre-1900 arch strike, G+-Vg
137. Stanley Bailey #2 small bench jack plane w/ number frame, “L. Bailey patent...” marked chip guard, F+ (cracked tote,
138. Stanley “sweetheart” Bailey #8-C bench jointer, G (drilled hanger hole in tail), w/ a little TLC great user
139. Early, Stanley R&L “Bedrock” #608 jointer, G
140. 5 – Stanley “Two-tone” series planes, G: 2 – jacks & 3 – blocks
141. 4 – Assorted measuring devices: 17” winged divider/compass, G; 15” winged divider/compass, G; dbl.-end index caliper, Vg; schoolhouse wooden compass/divider, G
142. 4 – Various shaves: Jennings & Griffin 4” “Gent’s” shave, Vg; unsigned early model Millers Falls #2 curved shave, G+; Stanley #51 raise handle spoke shave, G
143. 3 – Stanley shaves: R&L “arch strike” #65 chamfer shave, Vg; “V-strike” #60 duplex, F+; #151 adjustable, G+-Vg

144. 5 – Stanley measuring devices: unmarked #77 rosewood marking gauge, G+; #94 butt marking gauge, Vg; #98 dbl.-stem roller marking gauge, G+; 2 – “Four-Square” 6” mitre-squares, G
145. Tray lot assorted drilling devices: unsigned #128-8” “toggle-switch” ratchet brace, G; Morss Twist Drill & Machine Co. 3-tier round-cased index of bits, G+; 13pc. Russell-Jennings set of auger bits in homemade wooden tool case, Vg
146. Tray lot of specialty clamps: Marples Tools, 68810 #2 corner clamp, NIB (early slide-over box); pr. Stanley #203 bench stop/clamps, Vg
147. Unsigned, wooden “Bench Jack”/ bench mitre clamp w/ 9 1/2” opening, Vg
148. Unsigned, Rosewood & brass, 18” panel marking gauge, Vg.
149. 2 – Wooden tools: unsigned 22” panel marking gauge, w/ slide-through dovetail mounted marking tip & fence w/ wedge & stop-screw, G+; R. Schaeffer (branded, maker???) thread-screw Instrument maker’s clamp, Vg
150. 2 – Early wooden measuring devices: unsigned 24” “wedge & stop screw” panel slitting gauge, G+ (knife included, small wedge missing); 24” mortise & tenon pinned constructed framing square, G+
151. Stanley “Sweetheart” #1193-24” brass framed mahogany level, Vg
152. 2 – Wooden levels: Disston & Morss, 30 1/4” brass capped rosewood level, horizontal vial damaged; Stanley R&L 30 1/4” cherry wood adjustable level, G
153. 3 – Various Stanley wooden levels, F-G+: #23-24” three-lens; “sweetheart” #3-24” brass capped cherry wood, G; R&L #00-20” cherry wood
154. *Restorer lot: 3 – Iron frame levels, need cleaning: 2 – L.S. Starrett Co.: 18” open-frame, good paint; 10” pitch-grade level, G+-Vg (lite rust); Stanley #36-24”, F
155. Tray lot assorted measuring devices: Starrett 15” iron “pitch-grade” level w/ wooden case, G+; 2 – pr. stair-layout clamps; Disston & Sons #1-8” try square, Vg; unknown maker 6” mitre square, G; Disston & Sons #1-10” try square, G+
156. 3 – Tools: dated 1820, 12” homemade wooden bevel, Vg; North Bros., Phila. “Yankee” #75 “pump” spiral driver, G; Reed, patented 1882, spiral driver, G
157. 4 – Assorted tools: Rusby Patent, gear operated hand crank drill, G; Boker, German ball brace, G; signed (??) T-handled “snail” bit auger, G; Irwin lg. screwdriver, G+
158. *Restorer lot, F-G: 5 – Assorted firmer chisels: Underhill, 3” socket handle slick; Scott (*??) socket handle corner chisel; Swan, 2” chamfer top; etc.
159. Tray lot assorted lathe knives: sizing tool w/ hand wrought sizing gauge; 3 – various knives
160. 5 – Assorted socket handle firmer chisels, G-G+: T.H. Witherby, 1” corner; others 1 1/2”-2”. Makers: Keen Kutter; Pexto; etc.
161. *Restorer lot: matched pr. Auburn Tool Co., wooden screw-arm panel T&G plane set, G
162. 2 – E.W. Carpenter, Lancaster, wooden molding planes: 2” flat ovolo w/ quarter-round/bead, G+-Vg; screw-arm sash molding, F (needs extensive work)
163. 3 – Wooden two-way T&G molding planes, G+-Vg. Makers include: Union Factory, H. Chapin, w/ owner brand G.W. Ruth; Auburn Tool Co., marked “For Steinman & Co., Lancaster”; Sandusky
164. 4 – Various, E.W. Carpenter, Lancaster, wooden bead or side bead molding planes, G+-VG
165. 5 – Various wooden joinery molding planes, F-Vg: 3 – rabbets. Makers: Union Factory, Chapin-Stephens; Auburn Tool Co.; Sandusky #146; 7/8” dado molding plane, unknown maker; unsigned 7/8” dado
166. Very Rare, Kieffer & Auxer, Lancaster, Pa. (circa 1863-69) wooden bit-stock brace. The chair maker’s sweep-stock has chamfer-edged shoulders & lg. turned “Mushroom Cap” knurl. The bit-stock has single spoon-tip bit. The frame has crack, but a very rare find for “Lancaster Shop” made tools.
167. 5 - Various wooden molding planes, various cuts, G-Vg. Makers: Ohio Tool Co. E. Baldwin (New York state); C.P. Owens; Thos. Appleton, Boston; Union Factory, H. Chapin
168. 2 – Lg. Bench jointer planes: Stanley R&L “Eagle strike” #32-26” transitional, refinished (varnished); unsigned 22” raise-handle
169. 4 – “Lancaster Shop” wooden molding planes, G-Vg: 3 – E.W. Carpenter, Lancaster: 3/4” Grecian ogee w/ bevel; 1/2” table hollow; 1/2” tongue molding; Kieffer & Auxer, Lancaster 1 5/8” rabbit
170. *Restorer lot: E.W. Carpenter, Lancaster wooden screw-arm adjustable sash molding plane w/ rosewood threads & boxwood (?) wafer-stops, & full inlay boxing. Looks like it would finish out to be great display piece w/ a little TLC
171. *Restorer lot: earlier form, E.W. Carpenter, Lancaster, screw-arm sash molding w/ hardwood mushroom cap threads & round knob stops

172. Rare, I. Schauer (attributed to John Schauer/Shower, East Petersburg, Pa., circa 182-34), wooden wedge arm plow plane, G+ (rear arm has slight crack)
173. Greenfield Tool Co. #510 wooden screw arm plow plane w/ 7 various size cutters, G+
174. Matched pr. John Veit, Phila. wooden panel screw arm T&G plane set, both owner marked T.L. Vanderslice (Was an Attorney in Delaware Co., Pa., but possible connection to H. Vanderslice a wagon maker in Trappe, Pa.), restored, Vg
175. 3 – Various camp hatchet/hand axes: Plumb “Anchor-Brand” w/ sheath, G; 2 – embossed, Keen Cutter, G-Vg
176. 5 – Assorted measuring devices: L.S. Starrett, trammel point set w/ 15” wooden rail, Vg; 3- Starrett #87 (various weights) cylinder shaped plumb bobs, G-Vg; Brown & Sharpe, #790 cylinder shaped plumb bob, Vg
177. 2 – Early, hand wrought broad hatchets: Brady #3(possible strike of David Brady, circa 1824, Mt. Joy) hand axe, Vg; multi-struck “left-hand” hewing hatchet, P-F. Maker H. Mann (Center Co. or Mifflin Co.) & other illegible strike
178. 3 – Various hatchets: W. Brady & Son, Mt. Joy, kitchen or hand axe, G; 2 – embossed, Keen Cutter, shingling half hatchets, G+-Vg
179. 3 – Stanley edge tools: #95 edge block, G; #71 router, complete, G-G+; #65 chamfer shave, G-G+
180. 3 – Lathe tools: Buck Bros. sizing tool, missing handle; 2 – new, Sorby long handle knives: straight edge parting tool & sizing wedge chisel
181. Homemade Oak plywood tool chest w/ oak mold trimmed baseboard & oak trimmed hinged lid on iron butt hinges. The interior has divided lift-out tray. Chest has chest lock & is dark stained finished, Vg
182. 6 – Assorted wrenches: New Holland “Feed Mill” dbl.-end wrench, F-G; Billings, patent 9-29-1896, adj. bicycle wrench, G+; Ford & I.H. adjustable wrenches; Philips-Getman Co. “Universal” carriage wrench, G+
183. 2 – Stanley “sweetheart” cherry wood levels, F+-G (hanger holes drilled near ends): #14-12” w/ original label; #0-24”
184. 2 – Hand planes: Stanley R&L #140 rabbet/block w/ removable right rail, G+-VG; Sears-Craftsman #37054-9 1/2” bench jack, NIB
185. 4 – Various Stanley edge tools, G+-Vg: #52 spoke shave; #9 1/2 block, Vg; 2 – English made block planes, G=VG
186. Assembled set of 7 – heavy open-end wrenches, 7/8” – 1 5/8” (various makers), Vg
187. Tray lot assorted tools & primitives: copper handles print block (wallpaper??); 3 – spiral screwdrivers; 2 – push drills; Disston key-hole saw; etc.
188. Foster Bros. 9” butcher’s cleaver, G+
189. 3 – Various drawknives, G-VG: F. Gassat (*) 5 1/2” copper chamfer knife, Staller, Wien, cooper’s staved-round shave; coach builder’s 1 3/4” boxing router, Vg
190. 3 – Various cooper’s drilling devices: 2 – tap-ream augers, G; 1 – bung recess cutter, F
191. Peg-framed display of 4 – vintage claw hammers, G
192. Beatty & Son, Chester, Pa. 11” side broad axe w/ well made off-set hickory handle, G+
193. Primitive hoop-frame bucksaw w/ 26” saw blade on bent sapling wooden frame, G+
194. 2 – Handsaws in canvas sleeve, G-VG: Remco 10” steel backsaw w/ open handle; Disston & Sons, 26 1/4” swayback 10pt.
195. 2 – Disston & Sons #D8-26”-10pt. handsaws, G-Vg.
196. Millers Falls #610A spiral screwdriver, NIB
197. 2 – Wooden levels: unsigned, mahogany 25 1/4” w/ 2 - adjustable brass vials, F-G; Stanley R&L #35-42” mason’s level w/ plumb line mark & window, G
198. American Woodworking Machine Co., Williamsport, Pa. #94 guillotine mitre cutter, G+
199. 7 – Assorted measuring devices: wooden marking gauges, G-Vg: 3 – common & 1 – mortise; 2 – four-fold 2ft. rules: C.S. Co #61 square joint, Vg; Stanley R&L #84, F
200. Tray lot assorted measuring devices & tools: 9pc. 1/4” numbering punch set, G; General #800-6oz. brass plumb bob in tube, Vg; 2 – bevels; Universal Angle Level; etc.
201. 6 – Assorted coopers head raising vises, assorted forms, G-VG
202. 2 – Early hand wrought cooper’s tools: T-handle cooper’s vise w/ arched brace/stop, Vg; head raising iron, spade shaped, Vg
203. C. Frost, 4” heavy siding maker’s slick w “J”-handle on octagon handle, G
204. 3 – Unsigned, hand wrought siding makers’ slicks w/ “L”-handles, 3 1/2”-3 3/4”, F-G
205. 2 – Lg. iron calipers: unsigned, 22” winged divider/compass, G; turners’ 14” dbl.-leg outside caliper, F-G

206. European, cooper's nailing adze w/ extended square poll & 5 3/8" edge on tight radius tail. The adze has round socket, F+
207. Tray lot assorted tools & primitives: Farrier's butteris w/ odd removable blade & split housing, G; 10" broad head mincing knife converted for use in cigar making, G; 2 – various spiral drills, G; unknown turned walnut wood stopper (??)
208. Tray lot 4 - assorted German ball braces, F-VG: 1 – signed Boker; 1 – signed Horstmann (?); etc.
209. 5 – Assorted "What's it" tools: Justine Garcin, Marseille, "La DeBondeuse" French cast iron wine barrel bung extractor/hammer, G; Grocer's combination crate hammer/hooked knife, G; 3 – assorted grid-pattern punches, G+
210. 3 – Assorted edge tools: Talbot #48 trimming axe heads, w/ square back oval eye, Vg; U.S.A. "True Temper" polless adze, new-old stock, no handle; small drop-forged square poll adze w/ rectangular eye, G
211. Tray lot assorted tools: Philadelphia Valve Co. 2" Pat. #2907 wrench; pr. hand wrought shears; unsigned flat-wedge pulling pliers; unknown maker, saw setting tool w/ adjustable pitch gauge, G; 2 – Brass cylinder shaped plumb bobs (1 – Lufkin #590-G)
212. 3 – Various primitive braces: hand wrought blacksmith's brace; unsigned, 10" w/ thread-screw socket, unsigned 9" "gas fitter's?" socket w/ off-set socket, G
213. *Restorer lot: 2 – wooden & brass braces, P-F: Marples, Ultimatum brass cased wooden infill brace parts, lever-socket removed & extensive cracking to wood; T. Tillitson, Sheffield, w/ push-button chuck
214. 3 – Lg. engineer's screwdrivers: F. Walters & Co., Sheffield, 17" overall length w/ pad handle, G+; 2 – blacksmith made (21" & 25" long)
215. 4 – Early T-handled drilling devices: 1 – Chairmaker's "duck-bill" or spoon bit; 1 – shell bit auger; 1 – signed (?) twist-bit auger; 1 – Bobbin-hole bit (?)
216. 3 – Measuring devices: W. Arris, 8" dbl.-leg outside caliper, G; unsigned, 14" winged divider/compass, T. & J. Dixon, 6" winged divider/compass w/ race knife cutter, G
217. 5 – Assorted early calipers & dividers, various forms & type, G+
218. 3 – Assorted primitive tools, G-VG: smith made tin shears; Wm. Greaves & Sons, #1 cooper's adze, G; Asian wooden "ink-line" box w/ 3 1/2" wheel
219. Tray lot assorted measuring devices: 8" wood & brass machine level, G+; 2 – Stanley bit-gauges, G; 5 – assorted dividers & calipers
220. 2 – Wooden measuring sticks: Lufkin #3-30" hickory 6-tier lumber rule, G+; Lufkin(?) 5ft. freight-yard stock w/ iron bracket tip, G
221. 4 – Assorted edge tools: new-stock, 14 1/2" splitting froe, Vg (no handle); unsigned, 3 3/4" socket handle gouge chisel, G; Powell & Co. 7/8" socket handle corner chisel, F.; N.P. James, socket handle firmer chisel w/ "shielded eagle" strike,
222. 4 – Assorted early tools: wrought iron frame hack saw, G+ (no blade); Bertson (*?) 3" coach-makers' boxing router, F-G; 2 – early iron frame braces: 12" square chuck brace, G-G+; 8" turn-screw chuck brace, G
223. 4 – Assorted hand planes: Stanley "Handyman" #H1204 jack plane, G+; 3 – wooden planes: signed (??) round block, P-F; Dennison (over-struck) 3/8" dado, F-G; Bewley 1 7/8" rabbet, G
224. Tray lot assorted measuring devices: brass octagon, 8oz. plumb bob, F-G; 3 – various wooden marking gauges, F-G; 2 – adjustable bevels, F-G; Disston & Sons 6" try square, G+; Eberhard Faber, 18" brass edged straight rule, G+; unsigned folding wooden tailors' folding square, G
225. Assembled group of bow drill related tools: 2 – metal bar bows, G; rosewood spiral pump drill or bow drill, missing knurl
226. 4 – Various shaves: 2 – wood: Green Street, Boston, coach-makers 1" boxing/router w/ iron face-plate; unsigned, maple oar maker's hollow shave w/ brass sole plate & turned peg-handles, G+-VG; Flour City, 2 1/2" iron keg shave, F; Barton 2 1/2" iron keg shave, G
227. 3 – Various iron framed shaves: United Shoe Machine Co. block shave, early model, G; unknown maker, block shave, G; unknown maker, rabbet shave, F-G.
228. 5 – Various shaves: J. Jonas, London, hollow shave, Stearns chamfer top handle; unsigned Preston straight handle shave, G; etc
229. 4 – Assorted iron handled cooper's keg shaves: 2 - unsigned 2" cutter w/ 13 1/2" handle; Barton (?) 16" handle w/ Stanley cutter; unsigned 15 3/4" handle w/ 2" cutter
230. Tray lot assorted drilling devices: Stanley #965N-10" ratchet brace, G+; early iron frame hand drill, G; Millers Fall #5A hand drill, G; Stanley "Yankee" #130A spiral driver, Vg; Klein & Son. Inc., push drill, G
231. 2 – Iron frame "Scotch" 9" braces w/ lever jaw chuck, G-G+

232. 3 – Transitional bench planes: Gage Tool Co., Vineland, NJ. #14-18” jointer, G+; Stanley 15” fore plane, G; Stanley R&L #35 handled block, G
233. 3 – Various wooden molding planes: homemade burlled walnut wood fenced fillister plane w/ saw-grip handle, 18” overall length, some chips to back of fence, G; European, two-handle draw-plane w/ chip carved decoration on sides & wedge, Sheneman, Phila. 15 1/2” long rabbet plane, G-Vg
234. Unsigned, early cast iron frame breast drill w/ 4 1/2” dia. wheel & round chuck w/ bolt stop, G+
235. 5 – Assorted hand tools: 3 – braces: Wilson, New London, Ct. 8” lever-jaw; German ball brace w/ push-button chuck, G; Stanley #916-9”, parts missing from chuck; 2 – ball-peen hammers, G+
236. 4 – Assorted edge tools: Ohio Tool (??) #05-C bench jack, missing blade; 2 – iron handled keg shaves; box or paint scraper, marked Pat. Feb. 2, 1900 (?), G
237. 4 – Metal hand planes: Union #43 rabbet-fillister, missing fence otherwise Vg; Stanley R&L #130 dbl.-end block (unmarked deck), G-G+; Stanley #9 1/2 block, G-G+; Craftsman #...3704 block, G+
238. 2 – Stanley Bailey bench planes: “sweetheart” #3 smooth jack w/ embossed cap, restored, Vg; “sweetheart” #5-C jack plane, cracked left rail, good wood & other parts
239. 2 – Bench planes: Stanley Bailey “sweetheart” #6-C fore plane w/ nickel plated sole & rails, needs some cleaning, but good solid plane; Sargent #414 jack plane, G.
240. 3 – Stanley edge tools: #95 edge block, G-G+; R&L #66 chamfer shave, G-G+; #51 spoke shave, F-G
241. Stanley #45 combination plane, in oak case. Plane has embossed floral cast frame, and appears nearly complete, F+-G
242. 3 – Stanley edge tools: R&L #140 rabbet-block, G; #130 dbl.-end block G; #65 chamfer shave, complete, Vg
243. Stanley Bailey #2 small bench jack w/ V-strike, circa 1912-20, G+-Vg.
244. 3 – Various block planes: Keen Kutter #K130 dbl.-end, Vg; Millers Falls (#75) bullnose block, Vg; “no name” dbl.-end block, Vg
245. Stanley Bailey “sweetheart” #2 small bench smooth jack, w/ embossed lever jack, refinished Vg
246. 2 – Stanley Bailey bench planes: “V-strike” #6 fore plane, circa 1912-20, great restoration project, G-G+; #3 smooth jack w/ partial label, G-G+
247. 3 – Stanley block planes: #130 dbl.-end block, G; #130 skew rabbet-block, needs extensive cleaning, F; “Four-Square”, G+ (small chip to cap, otherwise Vg.)
248. *Restorer lot: Stanley #55 combination molding plane, some minor parts missing, needs extensive restoration. Real projects plane for you “gung-ho” restorers, but I am sure someone will say, “Should have sent that to the garage”. Prove them wrong.
249. Stanley Bailey “sweetheart” #7-C bench jointer, G-G+
250. Stanley Bailey #45 combination molding plane, circa 1942, in original slide-over box, E.(box has some damage)
251. Slate roofer’s 3pc. tool set: leather-gripped zaxe, T-break, & ripper
252. “Giant” enforcer mallet/stake driver’s mallet w/ 6 1/4” diameter iron banded round turned head (replaced handle). *note it is very heavy
253. Lg. hand wrought freight or armory carriage rough lock w/ 5 1/4” long links, mounted on display board, G
254. 2 – Early hand wrought tools: ice tongs w/ closed ring handles, G; 12” froe w/ round eye, G+
255. 2 – La. Measuring devices: Goodell-Pratt, 24” divider/compass w/ mounted pencil tip, Vg; L.S. Starrett 24” outside caliper w/ micro-adjuster, Vg
256. 2 – Lufkin, hickory lumberman’s board-foot rules: 30” 6-tier w/ square foot, G; 30” 8-tier w/ torpedo shaped foot, G
257. Slater roofer’s 3pc. tool set: Belden Machine Co., leather-grip zaxe, Vg; Pexto, T-break; ripper
258. Rare, Henry Disston & “Son” (marked w/ single son approx. 1 yr.) #7-26”-5pt. rip saw w/ nib-back, lg. Eagle button & brass split-nuts, Vg
259. 2 – Unsigned, reversible/two-sided pruning saws (1 – w/ brass split-nuts), G=Vg
260. Browne, 28”-4 1/2pt. nib-back panel saw w/ “Warranted Superior” Eagle button & brass split-nuts, G+-VG
261. Henry Disston “Arch strike” 30”-5 1/2pt. nib-back notch-tip handsaw, G+-Vg
262. 2 – Unmarked, primitive wooden framed saws: Disston (?) posthole saw w/ quick-release sawtooth-latch lever, G; homemade buck saw w/ odd tension rod wooden spring assembly
263. Oak & hickory frame 16” bow saw w/ turned peg handles, G-G+
264. Pexto, 2 1/2” socket handle slick, G-Vg
265. 2 – Various wood framed posthole saws w/ quick-release design: 24” “brake-handle” design w/ ring holder, G; 18” “brake-handle” design tension rod, G

266. 2 – Fire axes: Mann, Lewistown, Pa., small size “safety cabinet” axe w/ red paint, G-G+; unsigned, Collins or Mann fireman’s axe, G
267. H. Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.), 11 3/8” butcher’s splitting cleaver, G+
268. Rare form, W. Brady (William, Mt. Joy or Lancaster City) stone mason’s stone sledge/maul, G
269. D. Hagen (Davis Hagen, Mt. Nebo, Lancaster Co., Pa.) dbl.-bit center-poll posthole axe, G+-VG
270. Rare form, Wm. Brady, Mount Joy, Pa. cooper’s bench axe w/ chamfer filed shoulders, flat back triangular socket & off-set handle, Vg
271. Buck Bros. 3” socket handle slick G+
272. P. Shonk (attributed to Peter Shonk, working 1860 in Rapho Twp. & 1880 in Penn Twp., Lancaster Co.) center-poll posthole mortise axe, Vg
273. Fine, embossed Plumb “Champion Axe, Quality Seal” felling axe w/ axe-man standing on log graphics, VG (original hickory “Champion Axe” handle)
274. 2 – Signed, felling axes: H.H. Stricker (Henry H. Stricker, Reinholds Station & Vinemont, Lancaster & Berks Co.) “rockaway” type, Vg; J.B. Stohler (John B. Stohler, Schaefferstown), F-G
275. Initial “PJB” right-hand Goosewing axe w/ tapered arch-bottom socket, raised butt-plate, raised weld “chip-deflector”. The axe has “the Trinity”, three-star tool decoration & “Cross” tool decoration, G+
276. C. Silvius (Conrad Silvius, 1850’s , Lancaster City) square poll carpenter’s adze, excellent replacement handle, Vg
277. 2 – Signed, forged axes, P-F: G. Sener (Gottlieb Sener, working 1841, N. Prince St. Lancaster, Pa.) heavy spitting axe; 2nd dbl.-struck, partial strike of J. Reed (Stouchsburg, Lebanon Co.) & secondary J. Moyer (Jacob Moyer, working 1830’s, Chester Co.) felling axe
278. Beatty & Son, Phila. extended poll, left hand side broad axe, G+-Vg
279. Hagen & Bros. (Mt. Nebo, Lancaster Co.) center-poll dbl.-bit posthole mortise axe, G
280. Signed (?), Pennsylvania “Twibil” posthole mortise chisel axe w/ deep tapered oval socket eye, G+
281. Embossed, Keen Kutter #5 felling axe, G+
282. C. Silvius (Conrad Silvius, 1850’s , Lancaster City) broad Kent pattern felling axe, replaced handle, G+-Vg
283. Signed, Brady, Lancaster, Pa. (William Brady) center-poll posthole mortise axe, G+-VG
284. Rare, H.S. Hersh (Henry S. Hersh, working mid-late 19th century, Schultz Rd., New Danville, Lancaster Co.) hand wrought felling axe, F+-G+
285. Rare, H.S. Hersh (Henry S. Hersh, working mid-late 19th century, Schultz Rd., New Danville, Lancaster Co.) carpenter’s square-poll adze w/ chamfered corner poll, Vg
286. J. Snyder (John Snyder, working 1850, Mt. Joy. Pa.) upper poll posthole mortise axe, G-G+
287. G.H. Hewes (George H. Hewes, working 1830-1870’s, near Peach Bottom, Lancaster Co.) square poll carpenter’s adze, VG
288. Double-struck upper poll posthole axe: marks include: I. Brady (probably James Brady, working 1825, in Mt. Joy.) & second W. Glass (?) (possible William Glass, working 1814, in Strasburg Twp., Lancaster Co.) G
289. 2 – Butcher’s cleavers: Wm. Beatty & Son, Chester, Pa. #3-9 3/4” w/ steer strike, G; Hoffman, Phila. 6 1/4” w/ N. in “Liberty Bell” strike, Vg
290. H. Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.) right hand full hewing hatchet, G+-Vg
291. Wm. Beatty, Chester, Penna. #10-10” butcher cleaver w/ steer strike & solid handle w/ chamfered edge wood, Vg
292. Beatty & Son, Chester, Pa. square poll carpenter’s adze, G-Vg
293. 2 – Felling Axes: Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.) refinished Vg. (weak strike); H.H. Stricker (Henry H. Stricker, Reinholds Station & Vinemont, Lancaster & Berks Co.), G+
294. Brady (Davis or William Brady, Mt. Joy, Pa.) right hand side broad axe, Vg.
295. 2 – Felling axes, F-G: Winchester trademark; embossed Keen Kutter
296. Slate roofer’s 3pc. tool set: Belden Machine Co. “DEN” Zaxe, Vg; Pexto ripper; unsigned hand wrought T-brake
297. Assembled 3pc. set of slate roofer’s tools: Belden Machine Co. “DEN” Zaxe, G; unsigned slate ripper; T-brake, G+
298. Arrowmammatt Works, Middletown, CT. wooden screw arm plow plane w/ boxwood threads, knobs, & stops, G+-Vg;
299. 3 – Lancaster, Pa. wooden molding planes, Vg: E.W. Carpenter, #12 hollow plane w/ owner strike Joseph D. Frehn; Samuel Auxer, 7/8” skew rabbit; Kieffer & Auxer, 1 3/8” side hollow,
300. 4 – E.W. Carpenter, Lancaster, Pa. wooden round molding planes, G-G+ (3 – appear to have smoke damage)

301. 4 – Rare, Wooden molding planes: D. Heiss, Lancaster (Dietrich Heiss, working in Lancaster 1769-1782, & again 1786-1814) rabbet, F; M. Herner (attributed to Schuylkill Co) quarter round, P-F; C.H. Heinike (attributed to Eastern Pa.) side bevel, F-G; I. Schauer (attributed to John Schauer, working 1820-1843, in East Petersburg, Pa.) rabbet plane, G+-Vg
302. 4 – Wooden molding planes (3 – Lancaster Co. makers): E.W. Carpenter, Lancaster side bead, F; D. Heiss (Dietrich Heiss, working in Lancaster 1769-1782, & again 1786-1814), moving fillister, missing depth stop, G; J. Stamm (John Stamm, was a preacher/wooden plane maker that worked first in Hinkletown, Pa. & later Mt. Joy, Pa.) round, G; Moss (over stuck) cove & astragal bead complex molding, G
303. Unsigned, 22” wooden plank style bench jointer plane, G
304. 5 – Wooden molding planes: unsigned 1” homemade handled sash molding plane, Vg; 7” long wooden rabbet/chariot plane, Vg; horned tub rounder/smoothen w/ convex bottom, G; unsigned, circular block w/ copper nose-sole plate, VG; I. Ames, 1 7/8” skew rabbet, G+
305. 4 – Various wooden molding planes: Eaglesham & Fotheringham, Edinburgh, side bead, Vg; James Reid & Son, Aberdeen, side bead, G+; unsigned quarter-round, Vg; (?), Edinburgh hollow, G
306. 4 – Wooden molding planes, F-G+: unsigned screw-adjust sash molding; C. Donat, Po’kepsie grooving, missing blade; Casey Kitchel & Co. tongue plane, Vg; Sandusky, side rabbet, G
307. 3 – Various drawknives: Barton, Rochester, 7” cooper’s stave shave, G; Skelton & Co., 10” straight-back shave, G+; unsigned 7” sag back stop chamfer
308. D.R. Barton, Rochester, square poll carpenter’s adze, G+
309. 2 – C.F. Close, Rochester, iron frame coopers planes, G+-VG: top chamfer, pat. dated 5-27-1913; “O.K.” croze
310. 2 – Pin-poll adze, G-G+ (1 – signed C. Smith, Boston)
311. 3 – Large size calipers: Browne & Sharpe, 7-8” w/ wooden case, Vg; Browne & Sharpe, 6-7” w/ wooden case, Vg; Lufkin #1918V-7-8” w/ slide lid case, Vg
312. 3 – Wooden trammel points on rails, various forms, Vg (2 – wedge stop & 1 – side screw stop)
313. 3 – Various handsaws, G-G+: The Henly Co., Phila. 24”-10pt. sway-back; unsigned 25”-10pt.; Fulton Tool Co. 26”-5 1/2pt.
314. Machinist’s 8-drawer metal cased tool chest w/ oak drawers, missing front closure-door, G
315. 3 – Assorted measuring devices: small draftsman’s trammel point set (parts missing); electronic “Graphotest” tool in wooden case, missing parts; unknown precision tool, parts missing
316. 3 – Metal hand planes: Sargent #198 improved rabbet, G+; Stanley #102 block, G+; Record (?) #101 small block, G-G+
317. 2 – Stanley edge tools: “sweetheart” #20 adjustable circular plane, repaired nose guard, otherwise Vg; #80 box scraper, Vg
318. 2 – Tools: Stanley #90 transitional skew rabbet plane, G+; Stearns & Co. plane angle gauge, G+
319. 2 – Lg. measuring devices: L.S. Starrett & Co. 24” outside caliper, G+ (owner’s name impressed on 1-arm); Browne & Sharpe combination micrometer w/ original wooden case, complete, G+-Vg
320. Disston #D-100-26”-8pt. aluminum handled handsaw w/ sleeve, G+-VG
321. Tray lot: White, Buffalo, 6” stave shave, G.; homemade wooden wedge arm cooper’s croze, G+
322. Tray lot: 4 – Various steel tipped brass plumb bob, G; long handle screwdriver w/ rosewood knob handle, G+; Mahogany slide-lid pencil box, G+
323. Union Factory, H. Chapin, wooden screw-arm adjustable sash molding plane w/ fruitwood threads & turned knobs, Vg
324. 2 – Greenfield Tool Co. wooden molding planes: #368 wedge arm panel tongue plane, Vg; #686-2 1/2” field-panel raising plane, G (some bug holes)
325. 2 – Disston & Sons, handsaws, G+-VG: #D7-26”-8pt. w/ cherry wood handle, #D8-26”-8pt..
326. 3 – Disston & Sons #D8 handsaws: 26”-10pt. cherry handle, G+; 24”-9pt., G; 26”-10pt., G
327. Signed, Wm. Miller (?*) hand wrought 11” dbl.-leg outside caliper, Vg
328. Tray lot assorted implement & adjustable wrenches, F-G: Nappanee Lumber & Mfg. Co.; W.E. Rosel; Indian Motorcycle; & many unsigned
329. 7 – Assorted tang handle bent shank gouge firmer chisels, F-G+. (most Buck Bros.)
330. 3 – Stanley folding rules: rare, A. Stanley (faint strike) 24”two-fold slide-rule, F-G; 2 - #68-2ft. 4-fold, Vg
331. Tray lot assorted primitives: homemade hardwood slitting gauge w/ adjustable lower fence, Vg; Disston School felt pennant, G+; marking punch “Leathers Patent March 29th, 1904,” (patent for leather splitting machine), Vg.; etc.
332. 10 – Assorted gouge firmer & bench chisels, F-Vg. (6 – tang handled). Makers: Buck Bros.; Sabot; Sargent, etc.

333. 15 – Socket handle firmer/bench chisels (some missing handles), G-Vg. Makers include: Craftsman; Union; “You Money’s worth”; Pexto; Germany; etc.
334. Assembled group 12 – assorted tang handled carving chisels, F.-G. Makers include: Lindner; Buck Bros.; D. Maier’s; etc.
335. 3 – H.B. Tool references: The Hand Plane Book, Garrett Hack, 1997; The History of Woodworking Tools, W.L. Goodman, 1964; The Tools that Built America, Alex Bealer, 1976
336. 4 – Historical references: 2 – H.B.: The Ways of Working Wood, Alex Bealer, 1972; Popular Tools and Materials, Johnson and Fenn, 1944; 2 – P.B.: The Gentleman & Cabinet-Maker’s Director, reprint of 3rd edition; The Cabinet Maker and Upholsterer’s Drawing-Book, Thomas Sheridan, reprint 1972
337. 4 – Vintage machinist tool catalogs, G+-Vg: 1916, Browne & Sharpe Mfg. Co. #27; Wells Bros., “Little Giant” #22 (date??); 2 – Starrett Tools: 1913, #21 (red cover); 1938, #26 (brown cover)
338. Box lot assorted vintage tool catalogs: H.B. 1942, Union Twist Drill Co.; 1912, Lukens Iron & Steel.; S.B.: 6 – Various Starrett Tools: 1930, “50th Anniversary” #25; 1 – “brown cover” #25; 2 – “brown cover” #26; etc.
339. Lg. tray lot vintage tool literature & “how to” guide booklets: 12 – issues, Delta; 8 – 1930’s era, Delta published tool use guides; etc.
340. Tray lot assorted Stanley literature & tool guides: 1934, Stanley Electric Tools #61M; 1930, Stanley Electric Tools #63; 1947, Stanley Carter #80; 1934, Stanley Electric Tools #64; etc.
341. Lg. Tray lot assorted re-printed tool catalogs & guides
342. Bag lot assorted vintage saw related literature & ephemera: March 1918, Disston Crucible, Vg; Taintor Mfg. Co. The Care of Saws; 2 – Atkins & Co. Saw Sense; Martin, Kyle & Co., Eclipse Keystone Saw Works; etc.
343. Tray lot 8 – assorted hardbound & cloth bound trade related books: 3 – vol. set: I.C.S. Handbook; Handbook of Cast Iron Pipe; 1912, Hartness Flat Turret Lathe Manual; Practical Course in Mechanical Drawing; etc.
344. Large tray lot assorted Stanley Tool related literature & trade advertising items (1940’s-1970’s)
345. Tray lot Stanley Tools related literature & promotional posters: 1958, Stanley Hardware No.81; 1964 (?) Routers & Router Bits, Specification Chart; 1996, Distinctive Merchandise Catalog; 6 – “150 Years” Proud of Our Past posters
346. Box lot assorted tool related literature, “how-to” guides, & unrelated histories. *please look at photo (S)
347. Bridge City Tool Works, #AM-1 angle master, NIB
348. 2 – Bridge City Tool Works tools, NIB: “Van Denk” #BL-9 hardwood & brass level; #TS-1.5 try square, G+-Vg
349. 3 – Bridge City Tool Work tools Vg in original boxes: CT-1102-100 #5 hand vise; 2 - #SUG-1 set-up gauges
350. Tray lot assorted Bridge City Tool Works tools: Guide block set, NIB; #SD-6 sectional divider, Vg; #BP-18 bevel protractor
351. Stanley #45 combination molding plane, Vg in original box (appears mostly complete) w/ 2 – racks of blades
352. Collins & Co. core-box plane, Vg
353. Stanley #55bcombination molding plane in homemade wooden case, mostly complete, G-G+
354. 4 – Assorted “Race” or marking knives, G: 2 – fixed blade timber marking knives; Vom Cleff & Co., Germany, brass handled folding knife; unsigned wooden handled folding knife,
355. 4 – Signed, edge tools: 2 - W. Brady (above noted) firmer chisels, F-G: corner chisel & 1”; W. Greaves & Sons, 9 1/4” straight-back drawknife, G; James Cam 8 3/4” drawknife, Vg
356. 2 – Wooden cased rubber-stamp print block sets, G-Vg
357. Tray lot 4 – Various firmer chisels & wooden joiner’s mallet, F+-G+; Witherby, socket handle corner chisel, 2 – socket handle & 1 – tang handled chisels
358. 5 – Assorted drilling devices: North Bros. “Yankee” #1545 reversible hand drill, G; T-handle tap reamer-auger; Miller Falls #94 hand drill, VG; Keen Kutter hand drill, G+; unsigned hand drill, G
359. 2 – Drilling devices: Stanley #993 “right angle” brace, G-G+; Millers Falls beam chain drill, G
360. North Bros. “Yankee” #555 ratchet breast drill, G+
361. Goodell-Pratt, bench-mount hand crank drill press, G
362. Ajax (?) adjustable beam boring machine, F-G
363. 2 – Millers Falls #12 breast drills w/ small level, G+-VG
364. 2 – Sheffield handsaws: Spear & Jackson 28”-5pt. nib-back panel saw w/ brass split-nuts, G+; signed (?) 20”-9pt. G
365. Tray lot modern backsaws & folding mitre box: 2 – Disston, Danville, Va. #K-1, mitre saws, Vg; Disston, Danville, Va. #68-10” dovetail sail, G+-Vg; “no name” 14” miter saw, Vg; Alaska Freezer Co. folding mitre box, G+
366. 3 – Disston & Sons closed handled steel backsaws: 12” mitre, Vg; 12” F+; 14” mitre box, G
367. 2 – Early tenon backsaws w/ brass split-nuts: signed (?), Glasgow, 9” brass back w/ open grip handle, F-F+; Disston & Sons, 10” steel back w/ closed grip, G+

368. Tray lot assorted saws & related tools: jeweler's adjustable steel frame up-to 4"; Woodrough & McParlin, 14" steel back mitre, G+; Jackson 14" steel back mitre, F-G; Millers Falls & Co., saw set, Vg+
369. 3 – Handsaws: Disston & Sons ##D15 "Victory" model, over sharpened, G+; Simonds Saw, 26"-8[t. F-G; unknown, 27 1/2"-5pt., F.
370. 3 – Disston & Sons, resin handled handsaws: 2 – #D95-26" (8pt. & 10pt.), G-VG; #81-26"-8ppt, G
371. Pennsylvania Railroad marked two-man log/tie tongs, G+-Vg
372. 5 – Various blocks planes: Millers Falls #078 skew rabbet block, G+; 2 – Keen Kutter: #110; #220, G-VG; 2 – Stanley, G
373. Tray lot assorted tools: 2 – oversized iron plumb bobs, G-Vg; Acorn capped 16oz. plumb bob w/ steel tip; Starrett #87 spool capped 16oz. plumb bob, Vg; unknown maker, brass 12oz. plumb bob, G+; etc.
374. Stanley #45 combination plane parts, F-G
375. 3 – Stanley #140 skew set rabbet-block planes, F-G (1 – has crafted make-do side fence)
376. *Restorer lot: 2 – Stanley Bailey bench planes: "sweetheart" #2 small smooth jack, cracked handle & needs cleaning; "sweetheart" #3 smooth jack, G+
377. *Restorer lot: 3 – Stanley #140 skew set rabbet-blocks, F-G (2 – have parts missing); spoke shave, F
378. Triple-struck upper poll posthole mortise axe, F: signed L. Fink on right side, left check struck W. Addams (light strike); & G. Miller (Peach Bottom)
379. 2 – H. Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.) axes, F.-G.: upper poll posthole mortise; felling axe
380. Unsigned, hand wrought "twibil"/mortise axe w/ modern replacement handle, F-G
381. Colonial era, extended poll side broad axe w/ upper & lower lugs, 12 3/4" edge, G. The axe is unsigned, but has geometric pattern sunburst punch strikes, G
382. J. Shertz (John Shertz, 1850's era, Lancaster City, Pa.) carpenter's square poll adze, overpainted, G. (owner strike C.P. Flick)
383. H. Mellinger (attributed to Henry H. Mellinger, working Washington Boro, Lancaster, Co.) dbl.-bit posthole axe, overpainted, G+-Vg (modern replaced handle)
384. Wardsock (??) dbl. bit-posthole or Pulaski axe, G. (new wood)
385. Brady (possible David or William Brady, Mt. Joy, Pa.) broad squaring axe, G (replace wood)
386. W. Brady (William Brady, Lancaster or Mt. Joy, Pa.) dbl.-bit posthole mortise axe w/ rare arched "Cast Steel" strike, Vg
387. 3 – Assorted Slate roofer's zaxe, Horstman & Seabold, Bangor, Pa. w/ claw on left cheek, leather grips, weld repaired; Belden Machine Co. w/ claw on left cheek, F; unsigned w/ good leather grips, Vg
388. Brady (possible David or William Brady, Mt. Joy, Pa.) broad squaring axe, F-G (mushroomed butt plate)
389. 3 – Slate roofer's pick-hammers: rare form, Brady, Lancaster, Pa. (William Brady) leather grip needs repair otherwise, Vg; unsigned w/ wooden grip; unsigned w/ leather grip, G+
390. Rare, J. Shonk (attributed to John Shonk, Mastersonville & Mt. Joy) center poll posthole mortise axe, G
391. 30" Wooden four-frame fellow-saw w/ mortise & tenon construction, G+
392. F.B. Smith, pat. Sept. 18th, 1888, Canton, Ohio, tin bilge pump w/ two angular tip extensions, G. Pump retains some original blue paint
393. 2 – Wooden framed saws: posthole saw w/ quick-release lever & tension rod, F-G; odd-construction bucksaw w/ cross-over center brace, F
394. Beatty & Son, Chester, Pa. carpenter's square poll adze w/ steer strike, G+
395. 3 – Various hand planes: Stanley Bailey #5-C bench jack, G-G+; Stanley "Handyman" #H1248 block plane, Vg; Corsair #C-4-9" bench jack, in original box, VG
396. 12 – Assorted chisels: 4 – various gouges; assorted socket mortise & bench chisels (all socket handled), G
397. 12 – Assorted firmer & bench chisels, various types & makers, F-G (6 – gouge)
398. 12 – Assorted firmer & bench chisels, various types & makers, F-G.
399. 3 – Various planes: Sargent VBM #409 bench jack, repaired handle, G+; Stanley Bailey #4 jack plane, G-G+; Stanley #15 block (parts missing)
400. 3 – Edge tools: Stanley #57 core box, nickel-plated frame, G+-Vg; L. Bailey spoke shave, G-G+; Stanley Bailey #4 bench jack, G.
401. Stanley "Traut's Patent" #46 skew-cut combination plane, w/ 4 – various cutters, G+
402. 6 – Assorted measuring devices: Stanley (unsigned) #2 angle try square, Vg; unsigned mitre square, G; unsigned, 8" iron handled combination iron handled bevel/tray square, G; 3 – assorted 2ft, 4-fold wooden rules, G(most Stanley)

403. 2 – Butcher’s cleaver: 8 3/4” unsigned, F; W. Gilpin, Wedge Mills, 10 1/2” F
404. 2 – Bench planes: Sargent VBM #408-C, G+; Chaplin Patent, Towers & Lyons, 18” bench jointer, F-G
405. 2 – Edge tools: wooden handled coach builder’s router w/ adjustable sole fence, G+; homemade, 6 3/4” wide center-slot 1 1/2 dado plane (?). A real “odd-ball” plane possibly for cased drawer slide (?)
406. Tray lot assorted tools: W. Greensland, Bristol, 22” wooden plank jointer, G+; Constantine, 12” brass back saw w/ open grip, brass split-nuts, F-G; Disston & Sons 12” steel backsaw, closed grip, G-G+; hinge-joint “knock-down” framing square, pat. 07-24-1894, & 09-12-1899, G+
407. Tray lot assorted tools & primitives: “Gunter’s” chain for use by surveyor or farmer, F-G; 2 – machinist’s depth micrometers (1 w/ wooden case), G; trade advertising “Osborne Farm Implement” wooden tapered shaft walking stick, G
408. 2 – Transitional bench jointer planes, G-G+: Stanley #129-20” w/ “Liberty Bell” screw cap (hairline cracks to tote); Stanley Bailey #22-18 1/4”, cracked tote
409. Stanley Bailey “sweetheart” #7-C bench jointer, Vg
410. Novell-Sharpleigh Hardware, “Diamond Edge” 21 1/2”-C bench jointer, crack tote, G
411. Pine dovetailed construction lift-lid tool chest, 20 1/2”X 13 3/4” 10 1/4”
412. Pexto #926 tinsmith’s “Stakeless” blow-horn forming tool. The tool was part of a set to be mounted into mounted stake-stand
413. Traditional tinsmith’s “blow-horn” stake, 29”across top X 10 1/4” H
414. Box lot assorted Hardbound & softbound architectural & construction related books, most hardbound are vintage. Including: 1917, Practical Carpentry; 1914, Carpentry for Boys; 1915, Steel Square and its Uses; 1938, Jigs & Fixtures; 1906, Inspector’s Pocket Book, Materials and Workmanship in Construction; etc.
415. Fine, W. Addams (descendant of the founder of Adamstown, moved to Berks Co.) right hand Pennsylvania German “Goosewing” axe w/ Tombstone shaped beard-key, bevel topped tapered off-set socket. The beard-key has file work chamfered edge, overall Vg. (hairline crack extends 1” down blade from key).
416. Fine, W. Addams (descendant of the founder of Adamstown, moved to Berks Co.) left hand Pennsylvania German “Goosewing” axe w/ Tombstone shaped beard-key, bevel topped tapered off-set socket. The beard-key has file work chamfered edge, 13 1/4” edge, overall G+-Vg (poor replacement handle)
417. Early, A. Miller (attributed to one of the Miller family in Mohnton area of Berks Co., due to the star or pellet strikes, circa 1830); left hand side broad axe w/ replacement off-set handle, F-G (substantial pitting)
418. 2 – Axe heads: Wiser (* possible Berks Co?) embossed strike, primitive form left hand Pennsylvania German “goosewing” axe w/ tapered off-set chamfer topped socket, relic condition w/ “blow-out” in lower portion of socket; J.B. Stohler (John B. Stohler, late 19th century Schaefferstown, Pa.)
419. 2 – Edge tools: Samuel Auxer, Lancaster, Pa. (Lancaster Shop owner, circa 1869-70) reed molding plane w/ blue paint, F-G; unsigned coach builder’s L-stock “Pistol” router, w/ adjustable fence, Vg
420. 4 – Various tools: F.C. Leyboldt Patent 12-18-1860 & 07-26-65, #2 button-hole cutter, G; H.F. Osborne, “pistol grip” leather slitting gauge, refinished G+-VG; signed (?) rosewood handle adjustable spoke shave, G+; Adams #2 leather-working “Witchet”, G
421. Signed (???) extended poll side broad axe, w/ upper & lower lug eye socket that is set below center of edge. The edge is 12 3/4” w/ flared upper & rounded lower. Axe has replaced handle, G
422. Cross Bros. Warranted, “Metallic Frame, Patented Brace” brass frame brace w/ rosewood infill & rosewood knurl, Vg. Owner strike of J.C. Walker
423. Tray lot assorted leather related tools: Barnett, iron “Pistol Grip” adjustable slitting gauge, G; DeBorner & Co. 6” divider/compass, G; stitch marking wheel; tack puller; assorted edge mold-working tools
424. Double-struck left-hand Pennsylvania German “Goosewing” axe. Makers dbl.-strike of Rohrbach (faint strike, Berks Co.), and secondary chisel strike of “Fischer”. The axe has raised “center-bead” weld & tombstone key. Axe has extensive pitting, possible poor iron quality or relic find
425. 2 – John Veit, Phila. wooden screw arm molding planes, G+-Vg: handled plow plane w/ long threads & owner strike of J.B. Grosh (some damage to threads); Center-reed molding plane repaired threads
426. B. Sheneman, Phila. #297 screw-arm sash fillister molding plane w/ fruitwood threads, G+-Vg
427. Uncommon, Grocer’s “Orange Chest Hammer” w/ strap-braced handle, square poll & chisel tail, G. (*note – fig. 350, pg. 227 Dictionary of Woodworking Tools)
428. Traveling butcher’s tool kit w/ round tubular leather tote, 4 – various knives & sharpening steel, G
429. Miller, Dubrul & Peters Mfg. Co., #1 iron cigar mold press painted green w/ T-handle turn-screw, 3 – wooden cigar molds, G.

430. Griswold #746-9" cast iron griddle, Vg
431. Matched hand wrought 3pc. butcher utensils set w/ matched flatwork & hanging top handles, Vg; two-prong fork; ladle & skimmer ladle
432. Early 18th century hand wrought tool decorated spatula w/ diamond accented flat blade & rattail topped twisted shank handle, G.
433. Heavy hand wrought butcher's "splitting" cleaver w/ 13 1/4" edge & hook topped solid iron shaft handle, Vg.
434. 6 – Various hearth/kitchen utensils: wrought iron ladle w/ hook-topped flatwork handle, G; brass & iron oyster ladle, G+; 2 – wrought iron two-prong forks, G; 2 – twisted wire three-prong forks, G+
435. Tray lot assorted utensils & primitives: unsigned #1 ice tongs, Vg; lg. two-prong hanging meat hook; small iron lead ladle; bale hook; etc.
436. Tray lot assorted kitchen primitives: Griswold 9" iron fry pan, painted (possible crack??); unsigned, #3 small beam scales, complete G+; late two-prong wrought iron fork
437. Disston (?) 4ft. T-handle ice saw w/ pin & wedge mounted shaft, 65" overall length, G
438. Rare, 18th Century wrought iron hearth basket/andiron (possible traveler's broiler rack) w/ ball faceted front legs that have lg. bun faceted tops & rear legs w/ off-set ball bun faceted accents. The basket has mortise & pin construction five front rails & four side rails, G. (one side rail replaced), 24"X13"X21 1/2" H
439. Arts & Crafts era hammered copper faced fire fender w/ "Diamond & spindle tip" center embellishment & rope twist upper embellishment, G. (unfortunately owner polished/rubbed original surface bare on right rail.) 54" overall width
440. Rare, A. Buch & Sons Co., Elizabethtown, Pa. cast iron corner feeder trough, marked 16-16-10 -188, G
441. A. Buch's Sons Co., Elizabethtown, 22 1/2" cast iron feeder trough, G
442. Lg. tray lot assorted wrought iron Conestoga wagon hardware: 2 – "king pin" hasps: 1st signed G. Horn (faint strike, George Horn, working 1833, in York Co.), 2nd "sunburst" embellishment; heavy rough lock chain; 2 - matched pairs of "stay-chain" hooks; 1 – unmatched pr. of "stay-chain" hooks; "Ram's Horn" tailgate brace; & "king-pin" hammer
443. J. Hall (attributed to John Hall, 1825, Bellefonte, Pa. *Note this is where William & Henry Mann of Mann axes learned their trade.) early Kent type side broad axe w/ 11" edge, G
444. Unsigned, double-cheek Shipwright's axe, G+
445. Marked "B" & faint Beatty & Son, Chester, broad squaring axe, F-G (chemically cleaned)
446. Fine, Wm. Beatty & Son, Chester Pa. carpenter's square poll adze w/ steer strike & hickory chamfered edge handle, Vg.
447. 2 – Hand wrought primitive tools: 18th or early 19th century "Pike-poll" topper, G; J. Beatty, broad squaring axe, crack along side of socket, F
448. Primitive hand wrought "bog iron" blocking axe w/ 12" edge & center mount housing, unsigned G.
449. 2 – Edge tools: Hurd's "Razor-Blade" polless carpenter's adze, G; combination dbl.-bit axe w/ felling & posthole mortise heads, G
450. Matched set of 5 – hand wrought "rattail" shutter dogs, F-G.
451. Sargent "Hercules Golden Cutter" #1409 bench jack, Vg. in original box
452. Tray lot: "MWA" embossed aluminum parade axe head of "The Modern Woodsman of America" association. Axe head only, no handle, Vg; Ideal "Shinola" hatchet. This grocer's hatchet has claw face head, F-G
453. Lumberman's 2ft. square 5-tier board foot stick w/ brass capped ends, G+
454. R.W. Maccubbin, Baltimore, (1840-1870's) screw-arm plow plane w/ fruitwood threads, turned knobs & stops, Vg.
455. Fine bench crafted 6" lignum-vitae block plane w/ 1 1/8" cutter & bone "dot" inlayed rosewood wedge, Vg
456. 2 – Brass bound four-fold wooden rules, G-VG: Lufkin #3881-3ft. w/ oxbow joint; Stanley R&L #76-2ft. w/ arch joint
457. 3 – Square-joint four-fold wooden rules, Vg: Stanley: #66 1/2-3ft; #61-2ft.; Lufkin #751B-2ft.
458. 3 – Stanley brass bound 2ft. four-fold wooden rules, G-Vg: 2 - R&L #54 (1 – marked "Special"); "sweetheart" #32 1/2
459. 4 – Various wooden rules or caliper-rules: Stanley: #63 1/2-2ft. square-joint, Vg; #136-4" caliper, Vg; Lufkin #016-6" caliper, G; Craftsman 12" four-fold caliper rule, G+
460. 4 – Wooden two-fold 1ft. caliper rules, F+-G+: 2 – Stanley #36 1/2; Upson Nut #36 1/2; Lufkin #372
461. Stanley R&L #78 1/2-2ft. four-fold rule w/ brass dbl.-arch joint, hairline crack, G+
462. 2 – English four-fold wooden rules, Vg: Lufkin #3851-yard stick; Rabone-Chesterman #1162-1 meter & 3ft.w/ conversion table

463. 4 – Wooden 3ft. four-fold rules, F-G: Stanley #66 1/2 w/ oxbow joint; Upson Nut #66 1/2; The American Rule Mfg. Co. #226 1/2; Lufkin #3881 brass bound
464. 3 – Wooden four-fold rules: Stanley “sweetheart” #84-2ft brass edge & square joint; Stanley (?) “Damaged” factory second #32-1ft. caliper-rule, Vg; Standard Rule #65 1/2-12” brass bound, G
465. 5 – Assorted Stanley measuring devices, F+-G+: 4 – four-fold 2ft.: #72 w/ edge markings, “sweetheart” #61; #68; #27; #6386 steel tape
466. Tray lot assorted measuring devices: Leonhard’s Level, pat. 2-27-1906, adjustable “boat” gauge-level w/ brass sole plate; Starrett #11H-12-4R combination square, NIB; 3 – Lufkin 6ft. “Zig-Zag” rules, G+
467. Tray lot assorted try & mitre-squares (several Stanley), F-Vg
468. Tray lot assorted tools: 5 – assorted Stanley block planes, P-G+: #130 dbl.-end; #60 1/2 low angle; #110 “Handyman”; etc.; 2 – wooden handle screwdrivers; & saw-set tool
469. Tray lot 11 – assorted wooden folding rules & small pocket tape measures, F-G
470. Tray lot 10 – Various carving chisels: 6pc. modern “Chaselle” beginner set; 4pc. assembled antique set w/ walnut wood handles, Vg
471. 8 – Assorted bench, butt, carving chisels. G-G+ (various makers)
472. Tray lot assorted collectibles & ephemera: H.B., William Dixon, 1928, tool catalog, G; 8 – P.B. Sargent Planes Identification & Value Guide, by David E. Heckel; Stanley Tool coffee mug
473. Tray lot assorted T-handle drilling gimlets & corkscrews, G-Vg
474. Tray lot assorted primitives & tools: cooper’s 7 1/2” dia. Wheel traveler, G+; Rabone #1012 zig-zag rule (missing one rail); farmer’s leather seed sewing pouch, G; unsigned 12oz. claw hammer, G+; cobbler’s round hammer, G
475. Tray lot assorted vintage & modern carving tools: 2 – whittling knives (1 – W. Germany & 1 – Russell “Green River”); Spain, 5pc. “beginner’s” chisel set, NIB; round turned mallet; 8 – assorted unmatched vintage chisels, G+
476. 7 – Assorted drawknife/shaves, F-G: odd, flat-blade two handle scorp, F; traditional cooper’s two handle scorp, 2 – wooden spoke shaves (1 – w/ bone throat plate); 3 – shoe maker’s heel shaves
477. 5 – Assorted measuring devices: Mathieson, 9” ornate brass & rosewood pocket level (damage to wood), restorer project; Machinist made, heavy duty slide-rule caliper w/ Lufkin metal rule; Stanley #88 siding marking gauge, Vg; J & T. Bradburg (?) “shoe salesman’s” folding wooden “foot size” rule, excellent patina (possible owner name); “no Name” #68-2ft. wooden folding rule, G
478. 3 – Common wooden braces w/ brass push-button chucks, & hardwood knurls, P-G
479. Tray lot assorted firmer & bench chisels (3 – gouges), F-G; Burr, flat trowel w/ off-set shank
480. 2 – “Boxed” Stanley block planes, Vg: #110, blue painted bed & nickel plated cap; #220, maroon painted bed & cap
481. 3 – Bench jack planes, G-Vg: Shelton “Indian Chief iron” 14”; “no name” 9”, Stanley “Handyman” 9 1/4”
482. 5 – Assorted block planes, F-Vg: Stanley: #118 “Break Proof”; late, #220; #9 1/4 (?); #60 low angle (parts missing); AMT (#100) squirrel-tail block, Vg
483. Lg. tray lot assorted foundry forming tools: spoons; trowel; right-angle floats; etc.
484. 3 – Wooden braces w/ brass push-button chucks & hardwood knurls, some cracks F-G.
485. Tray lot assorted primitives & collectibles: tin “lipped cup” handled dipper, Vg; wrought iron three-prong fork; early initialed W.D tool decorated two-prong, F-G; Solingen, Germany sheath knife, G; brass saw-buck & saw
486. 4 – Assorted drilling devices: Japan “Royal” ratchet brace, Vg; 8” “slip-jaw” chuck brace, F; Amidon & Bastedo, right-angle brace, F; hand drill, P
487. Tray lot assorted primitive tools: clock makers “spring-jaw” bench vise w/. shielded threads, G; homemade 3” infilled-brass bullnose block, G+; radiator key; ice cleat; etc.
488. Tray lot assorted tools: wooden T-handle vise screw, G+; blacksmith made turn-screw driver, Vg; 12” throat jig/scroll saw, G+; W. German, steel backed dovetail saw, G; “The Master” steel backsaw (missing interchangeable blades), Vg
489. Tray lot drilling devices: 2 – Busby Patent hand crank drills (jaw problems); Wells Bros., Greenfield, pat. 2-3-1885, hollow-threading die in original box w/ interchangeable thread cutters, G+
490. 2 – Breast drills: “8-Toolsmiths” chest/breast drill, damaged cranks grip, G; Millers Falls, pat. 1-21-1880, w/ side-level, missing side grip-knob, G
491. 3 – Wooden braces w/ brass chucks & turned hardwood knurls, F-G (1 – missing button)
492. Baldwin, Tuthill & Bolton, Grand Rapids, Mich. Saw-smith’s bench mounted self-feed band saw setting tool, G+
493. Tray lot assorted tools: Stanley #400 mitre-vise, G; Primitive, 1 3/4” wooden thread screw cutting block, Vg; 1 1/2” wooden thread screw cutting set, T-handle tap & razor-edge homemade die, G

494. Tray lot assorted H.B. & S.B. tool & hardware catalogs, F-G: 1920, Condensed Catalogues of Mechanical Equipment; 1953, C.W. Marwedel, "Everything for the Shop"; Jones & Orth Cutter Head Co. Greyhound Cutter Heads & Knives; etc.
495. Tray lot assorted references & catalogs: 1934, Hardwick Stove Co., Cleveland, Tenn.; 1931, Southern Stove Works, Cat. No. 26, Richmond, Va.; 1976, From Hearth to Cookstove..., Linda Campbell Franklin; etc.
496. W. Brady (William Brady, Mount Joy or Lancaster City, mid-late 19th century) Western Pattern broad squaring axe w/ 9 3/4" edge, G (original handle)
497. W. Brady (William Brady, Mount Joy or Lancaster City, mid-late 19th century) right hand side broad axe, chip & mushrooming to butt plate, 11 1/2" edge, G-G+
498. 2 – Edge tools: W. Butcher, Sheffield, square poll carpenter's adze, G; J. Snyder (John, circa 1850, Mt. Joy, Pa.) odd posthole axe, "Ugly" possible re-edge by Snyder, cracked along socket
499. D. Hagen (Davis Hagen, Mt. Nebo, Lancaster Co., Pa) center poll posthole axe, G+
500. Brady (strike possible David or William Brady, Mt. Joy, Pa.) lugged single poll felling axe, Vg
501. Plumb "Anchor-brand", pat. 6-12, 1877, left hand side broad axe, G (edge is flattened & needs extensive honing)
502. W. Brady (William Brady, Mount Joy or Lancaster City, mid-late 19th century) center-poll posthole axe, poor iron & rust pitting, G
503. 4 – Slate roofing tools: 2 – Zaxe-hammers: Belden Machine Co. w/ left face mounted claw; hand wrought w/ right face mounted claw; hand wrought long T-break stake; hand wrought slate ripper w/ rivet faceted flat blade
504. W. Brady (William Brady, Mount Joy or Lancaster City, mid-late 19th century), right hand goosewing axe w/ chamfer-topped tapered off-set socket & tapered butt-plate, G-G+. The axe has 12": pointed tip edge, arch top key. Crack below socket
505. 3 – Wooden measuring devices: homemade 26" panel marking gauge w/ early screw stop, G+; 16" panel marking gauge w/ wooden stop-screw, missing pencil holder, F-G; 36" square rod w/ wooden trammel-points, primitive form
506. 2 – Wooden primitive tools: 20" homemade softwood panel slitting gauge w/ lg. wrought iron thumb-screw stop, missing stop-plate; Hickory shipwright's caulking mallet (missing one face ring), G
507. Stanley #57 core-box plane w/ 4 extension plates & extension rods in homemade wooden hinge-lid box, Vg
508. Stanley #140 skew-blade rabbit/block w/ pat. Nov. 6, 1894, removable side plate, G+-Vg
509. Stanley #45 combination plane, F. Includes frame, long rods, fence & skate (no extra blades)
510. Tray lot assorted tools: wooden hinge-lid box w/ Forstner, paddle & twist drill bits; "swan's head" cobbler's hammer, F; 6 – Various Delta, NIB drill bits: 2 – plug cutters & 4 – graduated size "Machine Spur Bits"
511. 2 – Stanley #140 skew-blade rabbit/block plane, F+-G
512. Brady, Lancaster (William Brady, Lancaster City for a short period) Broad squaring axe w/ 9 3/8" edge, F-G
513. H.H. Stricker (Henry H. Stricker, Reinholds Station & Vinemont, Lancaster & Berks Co.) lugged felling axe, G
514. Wagon "round disc" axe holder display on board w/ unsigned felling axe, F-G
515. Signed, G. Yard (???), continental form timber framer's Twibil mortise axe w/ 45" total length over head, oval tapered socket, 5 1/2" shielded handle/socket, 2" flat edge paring head & 5/8" socket chisel head, G
516. J.P. Lutteinghaus (* German??) right hand "Goosewing" axe w/ "flat-back" tapered off-set socket w/ chamfered top, small raised butt plate, & raised weld deflector, G+. Axe has 14" pointed tip edge, G+
517. E.W. Carpenter, Lancaster (possible wooden thread-screw & vise only) 90" Antique joiner's workbench w/ single side-screw vise. The bench has heavy mortise& tenon construction stretcher base, thick bread board framing on left side. The bench has been cut-down & is missing tail-screw vise, also missing most of the shaving tray. F. The bench is 90"L X 32"W (41"over thread-screw) X 32 1/4" H. *Note – Internet bidders must pick-up or arrange for moving due to size
518. Stanley R&L Bailey #4 smooth bench jack plane, G+-Vg
519. Sargent #414 bench jack plane, Vg
520. 2 – Stanley hand planes: #110 block, NIB; Stanley Bailey #4 1/2 wide smooth bench jack, embossed lever cap, G+-Vg
521. 2 – Stanley Bailey bench planes, G+-Vg: #5 smooth bench jack, post WWII; #6-C fore plane, last pat. date 8-19-1902
522. 2 – Stanley planes: "Victor" #20 adjustable circular/compass plane, poorly repaired crack to "frog" adjustment; #190 improved rabbit, G+-Vg
523. 3 – Various edge tools: machinist made 6 1/2" shoulder rabbit, G-G+; Clifton #400-3 1/4" shoulder rabbit w/ original box, Vg; "no name" small plate router, G

524. Tray lot assorted specialty tools: Greenlee No. 735 “Knockout Punch” kit, Vg; Meldum Engineering Co. “Burner’s Aid” kit (some parts missing); 6 – Pc. graduated cork stopper cutter set, G-Vg; cellarman’s cork knife, G+
525. 2 – Boxed, graduated chisel sets: 4pc. Stanley #60 wood chisel set w/ neoprene handles, roll & original box; 5pc Winsted socket handle “Pocket” chisels, NIB
526. Tray lot assorted NIB (New old stock) tools: Stanley “Handyman” #H1220 hand drill; Irwin 18/16 auger bit; Irwin expansion bit; 9 – various Stanley #110R auger bits
527. 4 – Original boxed measuring devices: 2 – Starrett micrometers in wood cases; Brown & Sharp Mfg. micrometer in wood case; Starrett #563 Hermaphrodite divider/caliper
528. 4 – Various tools: 2 – Asian wooden draw planes, G-Vg; Estwing: rubber grip claw hammer, G; #1 leather grip hatchet, Vg
529. 4 – Various Stanley hammers, G-Vg: 3 – claw hammers (1 – rubber grip, metal shaft); #311B 20oz. ball-peen
530. Assembled graduated set of 8 Stanley wood chisels: 8 – “Professional” #16- series & 1 - #60 in plastic case, Vg
531. Homemade, wheelwright’s hermaphrodite divider/caliper, 38” legs w/ two screw-set stops, Vg.
532. 40” Oak & maple wood trammel-point & rail w/ mortise & tenon construction w/ wedge stop, Vg
533. Millers Falls #210 “bench mount” hand crank drill press w/ adjustable drill plate & heavy iron frame
534. Berger & Sons #DPC-95-1314 “Vultee” 17 1/2” engineer’s “Dumpy” sight level W/ oak case & wooden tripod, G+
535. 6 – Pc. graduated set of Craftsman socket handle firmer chisels, G-Vg
536. 4 – Stanley hand planes, G+-VG: #4 bench jack, #9 1/4 block plane; #60 low angle block; #220 block
537. 3 – Iron frame levels: Starrett #98-8” machinist level, NIB; Goodell-Pratt, 12”, G; Stanley #36-12”, Vg
538. Tray lot assorted tools: 2 – Speedball #15/4140 - 5pc. carving chisel sets, NIB; Pacific Lumber Company, wooden grain reference set, in original box, VG
539. Tray lot assorted measuring devices, G-G+: Keen Kutter 10” try square; 4 – assorted sliding-T bevels (various types & makers); 3 – pr. Stanley #4 trammel point sets
540. Tray lot assorted tools: Osborne: iron pistol grip slitting gauge (missing blade); #149 Arch punch, NIB; Stanley saw set, Vg; 2 – various saw pad/handles; unknown maker, tool handle, G
541. Tray lot assorted tools: Sargent #81 dbl.-edge rabbet plane (damage to nose mount); 8 – assorted owner name punches; G. unknown maker, traveling merchants’ hanging scales in mahogany case, G (some possible damage to parts)
542. Tray lot 4 – assorted measuring devices: Stanley #49 bit gauge, NIB; Craftsman #3944 butt gauge, w/ original box, G+; Brown & Sharp #1 micrometer in wooden case, G+; Stanley #95 butt marking gauge, G+
543. 4 – Assorted drilling devices: Goodell-Pratt, right-angle hand crank drill, G; unsigned T-auger handle, G; North Bros. “Yankee” chain drill, Vg; Stearns & Co. adjustable hollow-auger, F-G
544. Tray lot assorted tools: Buck Bros. 8” carpenter’s drawknife, G+; Stanley #66 hand beader (no blades); Stanley “sweetheart” scraper, Vg+; General #810 blade honing gauge, Vg in original box
545. 2 – Hand planes: Fulton 8 3/4” raise-handle transitional block plane, G+-Vg; machinist made, aluminum core-box plane w/ 2 – wings, G+
546. 12 – Assorted bench & firmer chisels (4 – gouge chisels)
547. Stanley R&L #13 adjustable compass-circular plane, G-G+
548. Stanley “sweetheart” #130 dbl.-end block plane, G+-Vg
549. E.W. Carpenter, Lancaster, 22” wooden bench jointer plane, G
550. Union Factory, H. Chapin, #245 rosewood & fruitwood screw arm plow plane w/ rosewood plane body & fence, fruitwood threads, knobs & stops. The plane has brass nose plate that is marked w/ owners’ E. Steffy, & E.E. Myers (unknown origin, possible Elijah E. Myers, a Pennsylvania born Civil War Veteran that began in construction & eventually became an eminent architect in Detroit Mich.) G+-Vg
551. “No Name” #114-4” wooden panel field raising plane (unknown maker), possible replacement handle (?), Vg
552. 4 – Wooden edge tools: matched pr. J. Kellogg, Amherst, MS. handled T&G planes; early unsigned, wedge arm plow plane w/ brass stop-screw on wooden depth gauge, G-G+; lg. homemade oak D-router, G+
553. Tray assorted measuring devices: Starrett, 14-20P micrometer in wood case; Scherr-Tumico Inc. 0-1” micrometer (deep throat) in wood case; surgical saw in slide-lid case; #1801 German made drafting set (complete), VG
554. Wm. Greaves & Sons, “Sheaf Works” cooper’s bench axe, G
555. Disston #D15-8pt. “Victory” model handsaw w/ Eagle on Liberty Bell graphics, G+
556. 2 – Disston handsaws: “Keystone” #K-3-8pt. “Pacemaker” model w/ track race graphics, G+; #D7-26”-7pt. Vg
557. 3 – Disston & Sons handsaws: #D-95-10pt. w/ two-tone brown resin handle, Vg; #D23-8pt, G+; #D95-8 w/ green & red resin handle, G

558. *Restorer Lot: 3 – Disston handsaws F+-G: 2 – early Henry Disston #7 w/ brass split-nuts; later “The Great American Special”
559. 3 – Disston & Sons handsaws, G+: “Nineteen-Forty Special” 8pt. w/ transportation graphics; #D23-5 1/2pt.; D8-8pt.
560. 2 – Early “Nib-back” panel saws, F-G: Hill & Davenport (acquired by Disston in 1868) 28”-5pt. w/ brass split-nuts; Lake (?) 28 1/2”-5pt. replaced handle
561. 3 – Wooden levels: 2 – Disston: #19-26” cherry, G+; pat. 10-29-1912, dbl.-side brass capped cherry wood, G+; Stanley #18-28” brass capped ends, G+
562. 2 – Stanley wooden levels: “sweetheart” #3-24 w/ “Seasoned Cherry...” full label, Vg; #257N-24” drilled hanger hole, F
563. 2 – Belknap “Bluegrass” octagon poll claw hammers, Vg. (20oz & 12oz.)
564. 5 – Assorted marking gauges: unsigned “stair-type” wooden siding marking gauge, Vg; Stanley #88 adjustable siding marking gauge, G+; 3 – Disston wooden marking gauges, F-Vg
565. 2 – Belknap “Bluegrass” octagon poll claw hammers, G-Vg (16oz. & 12oz.)
566. 4 – Various tools: Initialed “J.M.” square poll flat tail hand adze, G+; “Hammer-Plus” magnetic-nail poll claw hammer w/ rubber grip metal handle, Vg; Vaughn 16oz. claw hammer, Vg; Osborne upholsterer’s tack hammer, Vg
567. 5 – Assorted Stanley tools: #49 bit gauge, NIB; “sweetheart” #138 level sight set, Vg. partial #138 level sight set, G (w/ box); 2 - #251A ratchet tap wrench (1 – NIB), Vg
568. 3 – Hand planes: Stanley: “Handyman” 9” bench jack, Vg (in original box); #220 block G+; Fulton 7” block, G+
569. 4 – Handsaws, G+-Vg: Disston & Sons: flooring saw, G; 2 – 12” small handsaws, G-G+; Craftsman #9-3514-AL dovetail saw, Vg
570. 2 – Drilling devices: unsigned, pat. 3-23-1880, combination brace hand drill, F; General Hardware Mfg. Co #10 adjustable washer cutter, Vg
571. Tray lot assorted “New in Box or Package” tools: 3 – Lufkin #C253-50ft. steel tape measures, 10 – General 6” tempered steel rules; Stanley brad set; Stanley “Strip-Driver”; Stanley 1/2” “Powerbore” bit
572. 8 – Assorted measuring devices, F-G: 6 – various try squares (3 – metal handled); Bailey 6” flush-T bevel; Chas. Maryl, Phila. sliding-T bevel, G
573. 8 – Assorted spiral drive screwdriver/drills: A.H. Reid, Phila., Pat. 12-12-1882, w/ rosewood knurl, Vg; Yankee #130A, Vg; Goodell-Pratt, pat. 5-12-1903; etc.
574. 11 – Assorted wooden hollow & round molding planes, F-Vg. Makers: Scioto Works; Varvill & Son; Auburn Tool; John Denison; etc.
575. 5 – Assorted wooden frame carriage maker’s routers (most missing blades & wedge, G
576. 5 – Assorted wooden molding planes: European unsigned, screw arm reed molding (missing blade & fence plate altered); 2 – handled panel grooving planes: W. Richmond, adjustable sole fence, G+; J.T. Jones, Phila. G; Auss. 7 3/4” horned smoothing block, Vg; 7 1/4” sash fillister (?), Vg
577. Tray lot assorted tools: decorative chrome plated hatchet, G+; 7 – assorted wood threading taps, G-Vg; Wright Machine Co. jeweler’s planishing hammer, Vg; 8 – assorted tang handled chisel, G-Vg
578. Tray lot assorted measuring devices: 6 – assorted small tape measures (various makers), F-Vg; Port Austin, replacement level vials in original box, G; partial K.& E, drafting set, G (1 – part missing)
579. 8 – Assorted hollow & round wooden molding planes, G. Makers: Union Factory, H. Chapin; J. Kellogg; Owasco Tool Co.; etc.
580. 7 – Assorted wooden bead molding planes, F-G. Makers: Sandusky; Union Factory, H. Chapin; H. Wilson, New York; D. Colton & B. Sheneman, Phila.; etc.
581. 17 – Assorted wooden hollow & round molding planes, F+-Vg. Makers: J. Denison; H. Chapin; J.M. Faber; etc.
582. Tray lot assorted tools: matched set of unknown chisels (possibly plane makers or for pocket lock mortise??); 5 – assorted scratch-stock scrapers, G
583. 11 – Assorted wooden hollow & round molding planes, G-Vg. Makers: Sandusky; J. Killam; Auburn Tool Co; I. Mundy; W. Boyd; etc.
584. 17 – Assorted wooden hollow & round molding planes. Makers: Randall & Cook, Albany; Union Factory, Chapin-Stephens; Mathieson; etc.
585. Tray lot assorted tools: Ace tap & die set w/ oak case, Vg; Starrett #656-441 dial micrometer; Jaeger speed indicator gauge, G; small hand held microscope, F; Stanley Handyman #H1297-18” aluminum level, Vg; etc.

586. 6 – Assorted wooden molding planes, F-G+: B. Dyson, small side bead; Barry & Way, N. York, tongue plane; Beacher & Addis, New Haven, tongue plane; unsigned, 3/4” tongue plane; unsigned pilaster groover or sash chord plane (?)
587. 10 – Assorted wooden hollow & round molding planes, G-G+. Makers: E. Baldwin; Greenfield Tool Co.; Auburn Tool Co.; J. & J. Gibson, Albany; etc.
588. 6 – Assorted wooden bead & side bead molding planes, F-G. Makers: M. Copeland; Greenfield Tool Co; etc.
589. 10 – Assorted wooden hollow & round molding planes, F+-G. Maker: Edward Carter, Tyron, NY.; D. Bensen, Albany; Way & Sherman, Albany; etc.
590. Tray lot wooden planes & assorted booklets: 11 – assorted hollow & round molding planes, assorted makers, G-G+; 1915, Thatcher Furnace Co.: 2 - Thatcher Ranges catalog; Pratt & Whitney Co., #7 Small Tools catalog; etc.
591. 3 – Disston & Sons, handsaws: #D8-20”-9pt., Vg; “Disston Junior”20”-9pt, Vg; 1950, 26”-8pt. “National Hardware Special” w/ brown resin handle, G+
592. 3 – Disston & Sons handsaws, G+-Vg: “The Great American Special” 26”-8pt. w/ factory graphics; #D8-26”-8pt; #7-28”-5pt.
593. 3 – Resin handled Disston & Sons handsaws, F-G+: 2 - #D95-25” w/ green & brown handle; #D-111-26”-8pt. w/ black resin handle
594. 3 – Various handsaws, G-VG: Disston & Sons, #D23-10pt; Moore Bros. “Empire Saw Works” 8pt; #D12-11pt.
595. Tray lot assorted tools & collectibles: “Western Line Yardsticks” salesman’s sample box, Vg; Stanley “Bell System” 6ft. zig-zag rule, Vg; “Goat-horn” novelty hammer, Vg; 2 – Upholsterer’s hammers (1 – Heller Bros.)
596. Lg. tray lot assorted “Trade” literature/ephemera: Atkins & Disston “Keystone” works
597. Tray lot assorted trade advertising & collectibles: Coca-Cola bottle opener; “Toffee” candy hatchet; McGill money changer, G; Society of Master Painters & Decorators, “Wet Paint” sign; metal “Caution, Keep Aisle Clear” sign
598. 3 – Metal measuring devices: T/D “Knock-down” framing square, pat. dated 2-27-1906, G; Lufkin: #1173-ME zig-zag rule, G+; “PDH” #1306D-6ft. zig-zag rule, G+
599. Tray lot assorted measuring devices: iron plumb bob, G+; 4 – small pocket tape measures, G; 7 – assorted zig-zag folding rules: 4 – Stanley (1- Victor “Engineers” #816); Klein Tools; Dunlap; Evans & Co; 2 – Interlox slide-by rules
600. 3 – Handsaws: 2 – Disston & Sons: “Nineteen-Forty Special” 8pt. w/ transportation graphics, G+-Vg; #D23-10pt. G; “no name” combination angle/square/handsaw w/ walnut handle, G
601. 3 – Disston & Sons handsaws, G-G+: #7-20”-9pt., nib back; 22” “sway-back” 11pt; 26”-8pt.
602. *Restorer lot: 3 – Early handsaws, F-G: Henry Disston, 4pt. w/ eagle button & brass split-nuts; Keystone #K-6 “Challenger” w/ speedboat graphics; 27 1/2”-5pt. “Warranted Superior”
603. Tray lot 7 – assorted handsaws: Disston: 8” iron back “meat packer” saw, G; #10 coping saw w/ original box; 2 – veneering saws, Vg; 3 – various backsaws, F-G: 2 - Henry Disston “Arch Strike” 12” tenon saws; Jackson 8” dovetail saw w/ open grip handle
604. Late, homemade oak treadle powered turning lathe w/ 40” deck & canvas belt driving wooden fly wheel. Vg

Catalogue Reference codes:

NIB	New in Box	Tool in original box with no noted use. Possible small rust to metal parts from storage in box. Overall mint condition.
E	Excellent condition	Nearly new condition with original finish and no noted damage.
VG	Very Good condition	Small cracks in wooden parts, no repairs. Has minor loss to original finish. Ideal for collector's or display purpose.
G	Good condition	Minor cracks in wood parts, repairs may be needed for use, has substantial paint or finish loss. Minor rust damage on iron planes & tools. Ideal for users or those wishing to refurbish for collection.
F	Fair condition	Substantial cracks to wooden or metal parts. Most parts still intact, but may have had substantial repair or replaced parts. Major rust damage. Needs attention or repair prior to use. Good for parts.
P	Poor condition	Major damage or altered pieces. Has deep pitted rusting to iron & metal pieces. Good for parts use only, or major repair work.

Cataloguer's note: This list is a guide that contains our description of each piece. We used several tool references, guides and years of experience handling these tools to create these descriptions. However, many pieces are hand wrought for a particular purpose and no reference to their use exists.

“Rarity” is a very difficult attribute to determine, but we considered how often these pieces have come across our auction block in the past several years to make that distinction. This may not always be in agreement with all price or collector guides.

The conditional reference was done in a fashion that we felt described the quality or condition of each piece. Please refer to the chart above.

Absentee bids: We strongly recommend that anyone wishing to place an absentee bid *examine the item in person first*. If you choose to place an absentee bid based on the description in the catalog alone, without examining the item personally, you do so at your own risk. The tools are described in an as found condition. You are the final judge. NO RETURNS WILL BE ACCEPTED.

Anyone wishing to place a bid with our auction firm must have either personally examined the tools during the preview times, or have made prior contact with our office staff at Horst Auction Center, (717) 738-3080.
