Gun Registration Information

All guns with an "R" before the number must be registered. Licensed dealers must have a **current copy of their FFL signed in ink** in our files. No modern long guns sold to anyone under the age of 18, nor modern hand guns to anyone under 21. No hand guns sold to out of state residents who are not dealers. Residents of states requiring a purchase permit to buy long guns (I.E. New Jersey, etc.) must furnish this permit. Persons of Curio & Relic License (except New Jersey) may only purchase firearms listed as such by the B.A.T.F. and must provide a signed copy of that license. The purchaser pays any and all registration fees.

Your interpretation of "excellent", "very good", "good", etc. may be very different than ours, when it comes to the description of the guns. **You** are the final judge of condition before you buy. Please examine any item you are interested in very carefully and decide, before you bid, if it is as you expected. **Always** have a gunsmith check a gun you purchased for possible defects. We **do not** warrant any gun to be in firing condition. If you see any glaring mistakes in the catalog description of the guns, please inform us of the error prior to the start of the sale. This will allow us to let other buyers know of the correction before any items are sold.

Federal law requires any firearm, made after 1898, to be registered. Even though the gun looks like an antique, we need proof it was made before 1898 before we can give it to you without registration. Since documentation of guns made by many obscure manufacturers is difficult and time consuming, we may, sometimes, incorrectly register a gun that may be an antique. We regret this error but in the case of a Federally licensed dealer, it's better safe than sorry.

Thanks for your consideration and enjoy the auction!
