# “Horst Auction Center”
# Fall 2026, Tool Sale

## Saturday, 2026, – 8:00 AM
**Preview Times: Friday, 2026, – 1:00 PM till 5:00 PM**

(Items in bold print are pictured on our web site – www.horstauction.com – and at the Auction Center.)
This sale all listed items will be photographed, please use our website to view photos of lots.

1. Large, Carpenter’s raise panel lidded tool chest. The chest appears to be limed mahogany wood with steel banded lift lid & collar-band. It has a wide base-band with brass corners & inset iron tote handles. The mahogany interior 4 – interior sliding drawers. It his has right & left side lift-lid tills with a front lift-out till drawer. 39” x 24” x 24 1/2” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
2. “Pexto” #982-30” tinsmith’s bench plate, Vg. 30” x 8” x 2” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
3. Unsigned, tinsmith’s “blow-horn” bench stake w/ 16” tapered spindle & 8” tapered horn, G-G+. 26 1/4” x 4” x 10” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
4. “P.S. & W.” #949-1, tinsmith’s combination “off-set” double-seaming stake-frame, w/ two heads: Fuller – 6” x 4” x 5 1/4”; Square – 5 1/2” x 4 1/2” x 5 5/8”, G+-Vg. 30 3/4” x 3 1/8” x 6 3/8” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
5. Unsigned, tinsmith’s “conductor” stake w/ 2 1/4” dia. x 15”L. head, possibly damaged secondary, F-G. 18” x 2 3/8” x 9 5/8” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
6. “Pexto” #925, tinsmith’s “blow-horn” stake, F-G. 28 1/2” x 4 3/4” x 11 1/8” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
7. Signed (?), Tarrytown, NY., tinsmith’s double seaming stake, painted blue, G-Vg. 25” x 3 1/4” x 16 3/4” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
8. “Pexto” #982-30” tinsmith’s bench plate, P-F. (2 – sockets damaged) 30” x 8” x 2” (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
9. 2 – Tinsmith’s bench stakes: Unsigned, (Pexto?) #965 round head stake – 3 1/4” dia. x 12 3/8”H; Unsigned, small “beak-horn” stake w/ 9 1/2”L tapered beak, both G+-Vg
10. 2 – Tinsmith’s bench “creasing” stakes, G+-Vg: 1st “Wilcox” 14 1/2” x 10 1/4”H , painted green; Unsigned, blue painted 14 1/2” x 10 3/4”H. (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
11. “Wilcox”, tinsmith’s “beak-horn” bench stake, 33 1/2” x 2 5/8” x 17 1/2” H. (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
12. 3 – Tinsmith’s green painted bench stakes, G-Vg: unsigned, 13” “hatchet” stake, 15 1/2”H.; unsigned, rectangular head stake, 5” x 2 1/2” x 15 1/4”H.; unsigned, “off-set” rectangular stake, 4 1/2” x 2 1/2” w/ 10” “off-set” x 11 1/2”H. (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
13. 2 – Sheet-metal working machines: “P.S. & W.” #541-1’ “burring” machine, F-G. (Bench stand sent to garage for on-line bidders); “Peck, Stow & Wilcox” setting-down machine w/ tension spring, painted green. The machine stand is included for this tool.
14. “Niagara M&T Works” sheet-metal combination “crimping & beading” roller machine with original bench stand, G. (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
15. 2 – Sheetmetal working machines: “Pexto” #5410-1 rotary cutter w/ bench stand, painted green, G+; “Pexto” #9900-A. “ferrule” roller, G. (stand will be sold in garage area, due to online bidding)
16. 2 – “Niagara, Anchor-brand” sheetmetal working machines, F-G, (Bench stands will be sold in garage area, due to online participation): “setting-down” machine w/ inclination rolls; “Elbow” roller machine, repaired (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
17. 2 – Sheetmetal working machines, G-G+: “Peck, Stowe & Wilcox” setting-down machine, with bench stand, painted green; marked, “Small Turning, patented Nov, 12, 1867” wiring machine, (bench stand will be sold in

garage area, due to online bidding) (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)

18. "American, St. Louis" #SCS – 340 combination (?) bench-top sheetmetal "slitting" machine w/ 12" throat, F-G. (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
19. 2 – Sheetmetal working machines, F-G., (bench stands will be sold in garage area, due to online participation): "Pexto" #581-1 bead-rolling machine; marked, "Large Turning" machine (extensive rust). (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
20. 3 – Large, sheetmetal working bench stake, painted green, G+-Vg: Unsigned, (Pexto?) #949-4, three-quarter round head w/ 6" dia. head (7"H.); Unsigned, (Pexto?) #949-2 "fuller" head, 8 1/2" x 2 5/8" x 5 1/2"; Unsigned, arch-top stake, 12" x 1 3/4" x 9 1/2"H (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
21. 2 – Sheetmetal working machines, F.-G., (bench stands will be sold in Garage Area, due to on-line participation): "Peck, Stowe & Wilcox" beading machine; "Peck, Stowe, & Wilcox" wiring machine, patent dated Nov. 12. 1867
22. 3 – Tinsmith's bench stakes, G-Vg: small "needle-case" stake, 16 1/4" tapered round head; "Pexto" #957 small candle-mold stake; Unsigned, "tombstone" shaped stake, 4 1/2" x 2 3/4" x 14" (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
23. 2 – Sheetmetal working machines, F-G., (bench stands will be sold in garage area, due to online participation): "Niagara" wiring machine; "Peck, Stowe, & Wilcox" burring machine (*Note – for on-line bidders this item is large, or heavy, shipping will be expensive)
24. Rare find, initialed "G.S." with "No. 1" and partial date believed to be "68" (possibly George Sides, a noted Lancaster Co., wagon maker), Lg. T-handled wheel-hub reamer w/ hooked end for hanging weight, The handle is hickory with hand wrought rivet braces as a "make-do" repair for an early split of the wood.
25. Continental (??) wrought iron left-hand "Goosewing" axe tapered off-set handle, raised beaded weld-point & tapered butt-strike. The "goosewing:" axe has a 12 1/2" edge & three drilled holes on heel of the beard. The axe is struck with "C" and a "shield" strike, G- (handle is modern era). The axe has a poor well reveal on reverse.
26. "C. Silvius" (Conrad Silvius, working circa 1850, in Lancaster City) lg. broad Kent-type felling axe, G+ (small chip to butt-plate)
27. Embossed signed, "A. Minc" (possible Mink. A noted family in Lancaster Co. unknown history) wrought iron T-handled reamer w/ hickory handle, G+
28. "J. Beatty, Cast Steel" (John Beatty, circa 1830-1886, Chester, Pa.) Kent-type broad axe, Vg.
29. "L. Potter, N. Marlboro, Cast Steel – Warranted" (unknown history) right-hand side broad axe w/ shaped & carved off-set handle, w/ 9 1/8" edge, G-G+
30. "C. Hammond, Philadelphia" left-hand side broad axe w/ 11" edge, shaped & carved off-set handle, G+. Provenance – ex-Tannehill collection
31. Unsigned, cooper's 46" wooden stave jointer plane w/ original splayed-leg stand (missing wedge & blade), G+
32. Unsigned, 24" oak four-frame "fellow" or "Donkey" saw. The frame is solid mortised & pinned constructed & blade has brass knob tension-screw., G+-Vg.
33. Fine primitive, 18" mortise saw w/ hickory "buck-type" frame, tension rod w/ "ram's-horn" tension nut & quick-release lever-assembly with keeper, G+
34. 2 – Pennsylvania hand wrought reaping sickles, F-G: "I. Christ" (attributed to Jacob Christ working 1792-1821, in Greenwich Twp., Berks Co.), replaced handle; "H. Long" (Henry/Heinrich Long working pre-1800, Drumore Twp., Lancaster Co.)
35. Rare strike, "M. Alden" (*???) hand wrought reaping sickle, F-G.
36. 2 – Signed, 19th century Pennsylvania hand axe / kitchen hatchets, G-Vg: "J.B. Stohler, X-brand " (John B. Stohler working later part 19th century in Schaefferstown, Lebanon Co., Pa.). The X-brand was believed to stand for an extra firing to steel edge.; "H.H. Stricker" (Henry H. Stricker, worked originally near Reinholds Station & later at Vinemont, Spring Twp., Berks Co.)
37. Rare form, "J.B. Stohler" (John B. Stohler working later part 19th century in Schaefferstown, Lebanon Co., Pa.) 2 3/4" socket handled slick w/ turned hickory wood handle (handle is possible 20th century replacement), F+. The socket is off-set w/ a poor weld. It possibly was struck by Stohler during a repair or re-construction to socket (?)
38. "O. Miller" (Oliver (??), Chester Co., Pa. or poor strike of George Miller, a Warwick Twp., Lancaster Co. smith) right-hand side broad axe head w/ 12" edge, no handle. Vg

39. 3 – Wrought iron T-handled drilling devices, circa 18th –early 19th century, G-G+: “Sem-Bur” (embossed strike, unknown location) tapered reamer, ex- Beitler & Tannehill collections; Unsigned, shell auger w/ twist bit tip; signed (**??) 3/4” shell-tip auger
40. 4 – Assorted hatchets, F.-G.: “J.F. Grosh” (John Grosh, circa 1825, Rapho Twp., ??) w/ arch lug, replacement handle; “Made in Germany”; unsigned; “J.B. Stohler” (above noted) kindling hatchet (head only)
41. “Wm. Brady, Mt. Joy, Pa.” right-hand side broad axe w/ 10” edge, upper & lower lugs, G-G+ (handle is a replacement & strike is a little weak)
42. “T. Witherby” & “Winsted Tool Works” mast-maker’s 13 3/4” drawknife w/ adjustable pitch gauge, G+-Vg.
43. Unsigned, “Bicycle handle” coach-builder’s boxing router. The fine arch top frame has octagon worked center, G
44. “Brady” (possible David Brady, working 1829, Mt. Joy. Or possibly his son – William working by 1850, in Mt. Joy) broad squaring axe w/ 11” edge Pennsylvania Pattern, G. (central crack to both sides, weak??)
45. “James Swan, Extra” 4” socket handled slick with chamfered top & hickory turned handle, G+-Vg.
46. 3 – Central Pennsylvania, wrought iron drawknives, F+-G+: “Hewes” 10 1/2” (attributed to George Hewes, working 1850, Peach Bottom, Lancaster Co. Pa.); “Brayd”10” (this strike was believed by John Tannehill to be of David Brady, circa, 1830’s-1850’s in Mt. Joy.); “C. Silvius” (Conrad Silvius, circa 1857 Lancaster City,)
47. *Restorer lot: 3 – Axes, F-G.: Unsigned, right-hand side broad axe w/ 10 3/4” edge; Signed, (?) felling axe (deep pitting); “C. Silvius” (Conrad Silvius, working circa 1850, in Lancaster City) single poll axe w/ thick butt plate
48. Tray lot assorted cooper’s tools: lg. 4 1/2” wide “hog” single-handle scorp with #605 handle weight, G. This tool was used in cleaning barrels for secondary use.; “Rochester” (White ??) 4 3/4” chamfer knife, G; “Wiley & Russell Mfg. Co.” 7 1/2” dia. wheel traveler w/ cast iron handle, G; unsigned, 16” winged divider/compass, F-G.
49. 2 – Bow saws, G.-G+: 16” oak frame “turning” saw oak brace & tension rod. Appears to be home crafted; 18” oak frame “posthole mortise” saw w/ quick-release “rack & lever” assembly (minor damage)
50. 3 – Stanley tools, G+-Vg: “Defiance” 8 3/4” smooth bottom, jack plane; Defiance (unmarked) 14” smooth bench fore plane; #104-12” cherry wood level
51. *Restorer lot: 2 – Stanley Bedrock #603-C bench jack planes w/ square shoulder rails: 1st damaged tote & knob, F-F+; 2nd early replaced tote, rusted knife & lever cap.
52. 2 – Stanley edged tools, G+-VG: #151 adjustable spoke shave; #99 left hand side-rabbet plane
53. 6 – Assorted brass frame spoke shaves (most machinist made): #52 straight handle w/ Stanley “sweetheart” blade; #53 rounded sole straight handle shave w/ Stanley “sweetheart” blade; 4 – “instrument maker’s” small shaves
54. Tray lot assorted planes & shaves, G-Vg: Stanley: #78 rabbet/fillister (missing parts); #81 nickel plated scraper w/ rosewood sole plate; #118 pressed-steel block plane; “no name” 7” block plane
55. *Restorer lot: Assorted edged tools: Stanley Bailey #5 smooth bench jack, damaged tote handle; Chaplin’s (??) 16” transitional bench jointer plane, missing wedge cap., P-F.; 7 – socket handle bench/firmer chisels, various makers, (most Buck Bros.), P-F. most ground heavy
56. Tray lot assorted tools, F+-Vg: Millers Falls #2 hand drill (replaced part); 2 – Stanley #77 rosewood & brass mortise gauge; Craftsman, 8” S.S. blade bevel-square; “L.S.S. Co.” 12” partial combination square,
57. 2 – Stanley hand planes w/ original slide-over boxes, Vg: Bailey #4 smooth bench jack, VG+; #78 rabbet/fillister plane, complete like-new
58. 3 – Hand planes, G,-Vg: Stanley Bailey #3 smooth bench jack, post 1938; Stanley Bailey #5 smooth bench jack, VG+ in Craftsman #3743 box; Craftsman #619-3732 low-angle block w/ knuckle-joint cap
59. Pratt’s (?) ratchet augers handle w/ 6- assorted long auger bits.
60. 2008, Stanley Works “sweetheart” #4 smooth bench jack “special issue” Stanley Tradition since 1843, NIB (made in Mexico)
61. “J. Mumford”, bench crafted 30” wooden handled plank-style bench jointer, G+
62. 2 – Bench jack planes, Vg: Craftsman, 14”-C bench jack; Siegley (Wilkes-Barre, Pa.) 14” smooth jack
63. Ohio Tool Co., #0112 cabinet maker’s scraper plane, Vg.
64. Rarer model, Stanley #11 Belt maker’s plane, Vg.
65. 4 – “John Bell, Phila.” wooden side-bead molding planes, various sizes, G-Vg.
66. 4 – Assorted bench jack planes, F+-Vg: “Union” #4 smooth jack (cracked handle/tote); Stanley: “Handyman” #H1204, smooth jack w/ blue frame & resin handles (solid user); #4 (12-004B), maroon frame (TLC project); Bailey #4 smooth jack, post WWII
67. 3 – Transitional bench planes, G-Vg: “B. Plane, Patented Oct. 22, 1889” 18” jointer plane; Stanley R&L #28 – 18” jointer, tail owner marked “W.D. Maynard”; “Sargent, VBM” #3415-15” fore plane

68. *Restorer lot: Stanley Bailey #7-C bench jointer, post WWII, G. (2 – holes drilled near nose for hanging, otherwise Vg.)
69. *Restorer lot: Stanley Bailey #6-C bench fore plane, post WWII, G. (hanger hole drilled near nose, otherwise Vg.)
70. 3 – Various bench planes, Vg: 2 – Stanley Bailey #5 smooth jacks, "Buck Bros." 13 3/4" smooth jack
71. *Restorer lot: "Siegley" (Wilkes-Barre, Pa.) #5-C bench jack, G
72. Tray lot assorted tools: Gage Tool Co., #G35 self-setting transitional jack, F-G; Stanley Bailey 15" transitional bench jack, refinished, F-G; early turn-screw driver, F-G; Continental type hand adze w/ stirrup ring mounted shaped & carved oak handle, G+
73. 13 – Assorted wooden hollow & round molding planes, most Taber Plane Co., New Bedford, Mass. G-Vg
74. 4 – Stanley tools w/ original boxes, Vg: #75 bullnose rabbet block, partial box; #110 block; #102 block; #49 bit gauge
75. 3 – Wooden edged tools, Vg: D-type wooden router with fine rounded ear handles, marked "G. Riley"; Unknown maker, adjustable circular/compass block plane w/ "Thos. Ibbotson & Co." iron; Unsigned, 2 1/2" wide hollow-bottom block plane
76. "Collins & Co., Hartford" spike poll lipped dubbing adze, G+
77. "J.B. Stohler - X" (John B. Stohler working later part 19th century in Schaefferstown, Lebanon Co., Pa.).single poll felling axe, G (some mushrooming to butt plate)
78. "Holland" (poor embossed strike) left-hand side broad axe w/ shaped & carved off-set handle, G. Attributed to Joseph or John Holland that worked in York Boro from circa 1830-1848.
79. Signed, (?) French, Deloire (European Goosewing) side smoothing axe w/ 14 3/8" edge, tapered round off-set socket & oak carved arching octagon handle, G (handle has some powder post beetle damage)
80. "J. Maugans" (Jacob T. Maugans (1827-1895) Maugansville, Washington Co., Maryland, working mid-late 19th century. He was a Plow maker & Axe maker, along with being a general "Town Smith") right-hand side broad axe w/ 11 3/4" edge. The axe has upper & lower lugs, thick butt-plate & early shaped & carved off-set hickory handle, Vg
81. Rarer form, "H.H. Stricker" (Henry H. Stricker, worked originally near Reinholds Station & later at Vinemont, Spring Twp., Berks Co.) left-hand side broad ax, G-G+ (later era handle). The axe is upper & lower lugged w/ flared butt-plate, and has 10" arched edge.
82. "Horton & Arnold" (New York City, circa 1853-1868) Ship Wright's axe owner punch-strikes of "J.S.", G. (handle has bug holes)
83. "B&O" (Baltimore & Ohio Railway) carpenter's square poll adze, G+. The adze is marked with Hubbard Co. "H. in a shield" strike
84. "J.B. Stohler" (John B. Stohler working later part 19th century in Schaefferstown, Lebanon Co., Pa.), hand or kitchen hatchet w/ original hickory handle, G+
85. "Robert Sickels" (unknown location) hand or kitchen hatchet, some mushrooming to the butt plate, Vg
86. 4 – Assorted hatchets, F-Vg: "C. Hammond, Phila.": #2 – right hand hewing hatchet; #2 – 20oz. octagon poll shingling hatchet; #3-16oz. octagon poll half hatchet (altered heavily ground); "Fulton Tool Co." left-hand hewing hatchet (heavily ground edge)
87. "Brady" (possible David Brady, working 1829, Mt. Joy. Or possibly his son – William working by 1850, in Mt. Joy) side broad axe w/ 11 1/2" edge (no handle), G-G+
88. Tray lot 4 – assorted signed, edged tools, F-G: "Donnelley & McClure, Cast Steel" (*?), socket handled 2" firmer chisel; "A.A. & T. Co., Glassport", hand axe; "C. Hammond, Phila." round poll 20oz. shingling hatchet; "Vaughn & Bushnell" 24oz. – full left-hand hewing hatchet
89. 2 – Edged tools (without handles), F-G: Double-signed shipwright's axe. Maker, "Emery" (?) & secondary strike of "S. Bielleson" (*??); American pattern, socket handle "twibil" (socket cracked). The twibil retains an illegible embossed strike & secondary strikes "M.B., IIIX" & "6-T". The socket is an oval socket that tapers to a round eye.
90. "Wm. Beatty & Son, Chester" (weak strike) side-broad axe w/ 12 3/4" edge, Vg.. The axe is a Wisconsin-type pattern.. (no handle)
91. 2 – Hand wrought edged tool heads: Continental-type "Slipper" or "Goosewing" wrought iron side hewing axe w/ 14 1/2" edge (no handle), F-G: The right hand side axe appears to have altered heel. It has a short 2 3/4" beard, tapered off-set socket w/ hardened steel butt plate & elongated pointed toe. The axe has maker's tool strike

"Shields" & various tool strikes. (Poor iron "blow-outs" noted; Signed (?) American-type twibil w/ chamfer-top tapered socket, relic condition

92. Uncommon, cast iron Cobbler's shoe last stand w/ 4-compartment nail cup. The stand is unsigned, but numbered, "No. 21" w/ "3703". The stand has 5 – various replaceable heads, G.
93. Tray lot assorted primitives & tools: Walnut spindle-type string winder w/ mortise & tenon constructed bentwood carriage; Uncommon, upholstery hammer w/ round poll & long tapered tail; 3 – assorted wood threading tap & block set. Makers include: "Hilger & Sohne, Germany"; "Henry Boker, Germany"
94. *Restorer lot – Tool heads & 2 – dengelstock/ field sickle anvil: "Wm. Mann, "Superior", Lewistown" side broad axe w/ 11 3/4" edge (owner strikes added), G.; "Buchanan, Cast Steel" (attributed to George Buchanan, working in York County, Pa.) upper poll mortise axe, G+; "W. Addams" (William Adams, descendant of founder of Adamstown, Pa., later working in Caernarvon Twp., Berks Co.) mortise axe
95. "J. Eby" (attributed by Tannehill research to John Eby, circa 1820, Hempfield Twp., Lancaster Co.) right-hand hewing hatchet w/ 6 1/2" flared edge & thick butt-plate, G (surface damage near handle socket)
96. Tray lot 3 – assorted tools: Millstone chisel-pick w/ turned hickory wood handle (handle crack); Uncommon form, carver's knife w/ 19" long serpentine hickory handle& brass ferule, G.; "P.S. & W. Co." firmer corner chisel
97. 18" – Wooden frame, "bow" or "turning" saw w/ maple wood frame & threaded tension rod
98. Belknapp – "Bluegrass, Trademark", left –hand full hewing hatchet, G+ (heavy ground edge & modern era handle)
99. 3 – Various, log or rail-tie "marking" mallets, G-Vg: "S.C.C." 3 1/4" dia. dbl.-face marking mallet w/ oval eye; "5-in circle" marking hammer w/ round poll, (possible keg marking); "H" bronze single-poll marking hammer
100. *Restorer lot: 3 – Assorted bench jack planes: Dunlap – 9 1/2" smooth jack; Penncraft #9533-9 3/4" smooth jack; Craftsman #4Cbb, smooth jack
101. *Restorer lot: 2 – signed, edged tools, F.-G: Kent-style broad axe, marked "M. Ballenger" & "Pagoley" (unknown region & maker); signed (??) square poll, carpenter's adze
102. "M. Less" (*??) single poll felling axe w/ modern hickory fitted handle, G. The axe is deeply struck on both sides.
103. "G. Hewes" (George Hewes, working Peach Bottom, Lancaster Co., Pa., circa 1835) broad Kent-style axe, G. (chemically cleaned & modern replacement handle)
104. "I. Cox, M. Cox, Cast Steel, Warranted" (attributed to M. Cox & Co., Muskingum Co,. Ohio.) 3 1/2" socket handled slick w/ odd replacement handle, G.
105. Continental-type, right-hand "goosewing" side smoothing axe, G+. The "Goosewing" axe has sealed tapered off-set socket, 12 1/4" edge, quarter-round accented heel, & arch-top key. The axe has upper-mount point and narrow butt-plate. It is initialed by 2 – various smiths: "A.H.D."; & "I.G.B." w/ 4 – floret strikes, G+-Vg
106. "Wm. Beatty & Son, Chester, Pa." left-hand side broad axe w/ 9 3/4" edge, G+
107. 2 – Edged tools, restored & F.: Signed (??) pin-poll adze, deep surface pitting w/ hickory handle; "Wm. Beatty & Son" (weak strike) left-hand side broad axe, cleaned, modern handle & black painted (some deep surface pitting)
108. 3 – Assorted edged tools, G+-Vg: "B. Brei" (unknown) oddity "canoe-bow" cleaver w/ 7" length, rounded edged nose w/ iron feruled turned cherry wood handle; Unsigned, right-hand full hewing hatchet (chemically cleaned); Unsigned, right-hand full hewing hatchet, G.
109. 6 – Assorted edged tools, F-G: 2 – "C. Hammond, Phila." #2 - octagon poll half shingling hatchets; 4 – Drawknives: "H.L.N. W."; "I. Heller" (possibly John Heller, Pike Co., Pa.); "Horton" (New York City), 9" stop chamfer; "D. Hofman" (Daniel Hoffman, circa 1830, Lancaster City)
110. 2 – Edged tools, F-G.: "Wm. Beatty & Son, Chester, Pa." w/ steer strike, square-poll carpenter's adze; Unsigned, broad squaring axe, some surface pitting & slight mushrooming to butt plate
111. 6pc. set – "A.M.T." bronze, graduated spoon shaves, Vg.
112. *Restorer lot: Rare, unsigned, Boston Metallic Plane Co., 15" "light body" bench jack plane. Designed & patented by Cyrus H. Hardy. The plane was patented September 24, 1872. The deck of the plane has an open-work casting design that was thought to help the plane be lighter. It has a post-set turned rosewood knob & rosewood tote-handle, simple adjuster mechanism & decorative "diamond design" on cast iron saddle-wedge, F-G. (As found), minor chip to ear of handle & minor cracking (fixable) to knob, otherwise undamaged.

113. 4 – Various edged tools, G.-G+: Stanley #66 Universal hand beader (1-blade) w/ fence; "no name" spoke shave; Stanley #82 adjustable scraper; Kunz, #80 box scraper
114. *Restorer lot: 3 – Assorted hand planes, F-G: Stanley Bailey #5 smooth jack w/ maroon painted deck (extensive rust); Stanley #9 1/4 block plane; Sargent #5307 block plane w/ knuckle-joint cap.
115. *Restorer lot: "Western Electric Co." model 17B mahogany case, Telephone lineman's "Test Set" (circa 1910-1940) w/ hand cranks ringer generator & speaker. The testing box originally had an external hand held receiver as well (missing). It was used in testing copper-paper wrapped wires encased in lead or open copper wire. As found, unknown if operating.
116. 2 – Tools, Vg: 1st Belknapp, "Bluegrass Trademark" 12oz. octagon poll claw hammer w/ original octagon grip handle; 2nd Labeled, "L.L. Bean" child's size "cruise" or "marking" hatchet w/ leather sheath (unknown maker), label is partially intact.
117. "Acme Level Co., Toledo, Ohio" #3-14" steel level w/ star accents, retains portions of original copper-wash finish, G+
118. Tray lot assorted tools: "Saynor, Cook & Ridal, Sheffield" #1 bill-hook machete (circa WWI), G; "Coe's Wrench Co." 6 1/2" adj. monkey wrench, G+; "Blue Grass" socket handle chisel; "Made in USA" wooden marking gauge, Vg; Stanley #036-1ft. combination bevel/rule, F.
119. 7 – Assorted wooden molding planes, G+-Vg: 3 – rabbets; 3 – side beads; 1 – dado. Makers: Casey Kitchell & Co.; James Mfg. Co; John Bell, Phila.; A. & D. Baldwin, N. York; etc.
120. Tray lot assorted tools: Stanley – Russell Jennings No. 100-13pc. auger bit set in three-tier wooden case; Millers Falls: #206-Steel block plane, w/ original box; #552-7/16" screw-bits in original box; #915 arbor cup-center, NIB; Saw set tool
121. Disston-Keystone #K-3-26"-5 1/2pt. "Pace Maker" handsaw w/ track-race graphics, G+-Vg.
122. 2 – 26" Handsaws: 1st – Pennsylvania Saw Corp., York, Pa., #A-4 "Penn State" w/ "Billy Penn" graphics, Vg.; 2nd Keystone Saw, "Brown's Patent Ground" w/ nib back, G..
123. "Stanley" #150 cast iron mitre box, Vg. w/ "Henry Disston & Sons, made for Stanley Rule & Level Co." 16" back saw, G+
124. 2 – Posthole mortise axes: 1st "W. Brady, Cast Steel" (William Brady, circa 1850-1880, Mt. Joy, Lancaster Co., Pa.) center-poll w/ original hickory handle, G+; Unsigned, upper-poll mortise axe w/ arched lug & heavy butt-plate, G
125. Signed, (??) #81 right-hand side broad axe w/ 10 1/2" edge, upper/lower lugs, & thick butt-plate (replaced handle), G+-Vg
126. "Wm. Beatty & Son" w/ steer strike (weak strike) broad Kent-style axe, replaced hickory handle, G.
127. Tray lot assorted drilling devices, G-Vg: 1st Miller Falls #770A-14" ratchet brace; 2nd Millers Falls, chain drill, G+-Vg; 3rd Irwin – 6pc. auger bit set in original oak hinged lidded box, Vg. w/ copyright dated 1961, guide booklet
128. Uncommon, combination cross-edged cooper's hatchet/adze. The hatchet has right-hand vertical tomahawk edge, and 2 3/4" wide adze edge, G+
129. 2 – Edged tools, G+-Vg: 1st "Wm. Beatty & Sons, Chester, Pa." (steer strike) right-hand broad hewing hatchet, Vg; 2nd Unsigned, Cooper's round adze w/ nail claw & round socket, Vg
130. 4 – Assorted edged tools, G.: "A. Gilbert, Cast Steel" full hewing hatchet (head only); "P.S&W. Co." #1FX-9" drawknife w/ fold-in safety handles; 2 – Socket handle firmer chisels
131. 5 – Assorted "Ford" trademarked wrenches (1 – adjustable wrench), F-G+.
132. 3 – Stanley Bailey bench planes, G-G+: 1st #4-C jack w/ circa 1912-20, V-strike (some surface pitting); 2nd - #4 1/2 smooth jack, circa 1912-20, V-strike (replaced resin tote that is damaged); #5 smooth jack, post WWII
133. Tray lot assorted measuring devices: "Brown & Sharp" #2, 0-1" micrometer in mahogany case, Vg; unsigned, duplex rod-marking gauge, Vg.; Stanley #97 roller marking gauge, Vg.; Stanley #49 auger bit gauge, Vg.; Craftsman #40161, (West Germany) vernier caliper w/ sheath, Vg
134. 4 – Assorted socket handle firmer chisels, F-G+. Makers includes: James Cam; W. Marples & Co.; unsigned
135. Tray lot assorted measuring devices: Stanley #370-12" iron level, Vg; 8" sliding-T bevel, Vg; unsigned rosewood & brass mortise gauge, 3 – winged compass/dividers; etc.
136. 3 – Wooden handled bench jointer planes, G+-Vg: "Ogontz Tool Co." 16"; Owner marked, "A. Brown" 17"; "Thos. Appleton", 16"

137. Fine, Embossed “American Beauty” octagon poll shingling half hatchet, Vg. The hatchet has a fine round “Rose Medallion” strike.
138. “Biddell of Crisfield” (The Crisfield, Maryland blacksmith shop was founded in 1895, by Charles Biddell. He was a general blacksmith, but grew his business among the busy seafood trades. The business during WWII made military knives, machetes, etc. After the war it’s production moved mainly to common dinner table flatware) 8 3/4” solid handled butchering cleaver, Vg. circa pre-WWII
139. Embossed, “Keen Kutter” 20oz. octagon poll half hatchet, G+
140. “W. Beatty & Son, Phila.” 6 3/4” butcher’s cleaver, G+-Vg
141. “Bridgeport Hardware Co.” Boy Scout hatchet w/ solid iron handle, G+
142. 4 – Assorted edged tools, G: 2 – Octagon poll half hatchets: “Plumb, Victory”; “Wm. Beatty & Sons, Chester, Pa.” (Steer strike); “K. Ice Co.” ice pick-hatchet; Unsigned, prospecting pick
143. 7 – Assorted unsigned sliding-T bevel squares, G+
144. 2 – Large wooden handled plank-style bench jointer planes, G+-VG: “Casey & Co., Auburn” 26”; Unsigned, 28”
145. 4– Stanley, brass tipped cherry wood levels, Vg.: “sweetheart” #3-24”; “sweetheart” #29-24” adjustable; “sweetheart” #3-24” partial label; R&L #104 (?)-24”
146. 4 – Stanley, “sweetheart” cherry wood 28” wooden levels, G+-Vg: #30 adjustable; #9 brass shielded side-view & tipped w/ partial label (lg. crack); #0; #0 (partial label)
147. 11 – Assorted long Engineer/mechanic turn-screw drivers (several smith made from old files). Makers include: “C.H. Co.”; Stanley; “Geo. Parr”; “Marples & Son; “T. Brown”
148. 4 – Brass tipped wooden levels, Vg.: “Disston & Morss, Keystone Tool Works” patent March 12, 1878, 26”, refinished; “Disston & Sons, Keystone Tool Works” 26” mahogany; Stanley R&L #30-28” adj.; Stanley “V-strike” #3-30” three-ply cherry wood in homemade tool box (owner tag, Thomas Clark)
149. 6 – Assorted Stanley bevel-squares, G-Vg: (various models & sizes)
150. Tray lot 4 - assorted tools, G-Vg: Stanley R&L Co. #135-10” handled transitional block w/ “Liberty Bell” cap & lever adjuster, Vg; Stanley R&L #127-15” transitional bench for plane w/ “Liberty Bell” cap & lever adjuster; “Disston & Morss” mahogany 20” level w/ brass corner tips, Vg; “Henry Disston & Sons” 18” cherry wood level, G+
151. 2 – Vises, G-G+: “Ryan’s Patent, Champion Grip Vise”, pat. Sept. 24, 1895, w/ lg. wing nut vise screw, Vg;; Clock maker’s bench vise, patented June 16th, 1865. The small bench vise has shielded threads & small anvil, G+
152. Keen Kutter #K-5 smooth bench jack plane, G+
153. 2 – Stanley edged tools, G-G+: #3 smooth bench jack, post 1938; #71 1/2 router, nickel-plated (some rust)
154. 8 – Assorted rosewood & brass handled try squares, various makers & sizes, F+-G+
155. 3 – Various small vises, G-Vg: “A.M. Co., Athol, Mass.” #1 small “hobby” clamp-on vise, Vg; “Stanley” #742-1 3/4” clamp-on “Hobby” vise w/ small horned anvil, Vg; Unknown maker, hand vise, G+
156. 2 – Wooden plank-style handled bench jointer planes, refinished Vg.: “Ogontz Tool Co.” #19-22” w/ rosewood button; “John Veit, Phila.” 24”
157. Tray lot assorted primitive tools, G-G+: 2 – early octagon poll, carpenter’s claw hammers (1 – “Phila. Cast Steel #1); 2 – wooden threaded-screw clamps
158. 4 – Assorted lathing hatchets, G-G+. Each is square polled with 2 – nail clips (at various locations). Makers include: Plumb; Germantown; (?)
159. 5 – Assorted shingling hatchets, G-Vg: Half hatchets: “Glassport, Pat. applied for” octagon poll; “True Temper” octagon poll; “Germantown” adze/round poll; “Shapleigh’s, Hammer Forged” octagon poll; Full hatchet: unknown maker, octagon poll
160. Awesome, Pennsylvania, handled four-frame “Pit” or “Fellow” saw, Vg. The 28” frame saw is white oak or “rock/chestnut” oak, mortise & tenon construction with pinned unions. It has an extended two post pull-handle. The rails & framing members are all chamfer edged, and have excellent aged patina. The saw blade has a hand wrought “ram’s horn” tension nut. 29” x 1 3/4” x 41” overall, Vg.
161. Unsigned, 18th century, Pennsylvania, socket handled “Twibil” (mortise axe), G+. Traditional Pennsylvania form framer’s mortising “Twibil” with long oval tapered socket, 1/2” socket chisel face & 2” vertical axe edge. Each edge is 9” from socket, and socket is crafted with heavy stock iron for heavy blows. The “Twibil” has an early hickory handle, G.

162. 18th century, Pennsylvania, walnut four-frame "Pit" saw. Designed for re-sawing of dimensional lumber. It is blind mortise & tenon constructed w/ each end having turned "Knob-shaped" grips. The blade is 3 3/4" depth for stability & is pin mounted into mounting assembly with "ram's horn" tension nuts. The saw is designed for re-saw of material less than 7" wide, Vg. Frame - 16 1/2" x 2" x 57" overall length.
163. Fine, Tiger-maple 14" panel-marking gauge w/ boxwood stop screw, Vg. The gauge is struck by maker/owner (?) "M. Link"
164. Unsigned, 18th century, Pennsylvania, socket handled "Twibil" (mortise axe), G+. Traditional Pennsylvania form framer's mortising "Twibil" with long oval tapered socket, 1/2" socket chisel face & 1 3/4" vertical axe edge. Each edge is 11 1/2" from socket, and socket is crafted with heavy stock iron for heavy blows. Each blade has a clipped accent near socket (possibly for hanging). The "Twibil" has an early hickory handle, G+
165. Fine, "J.S., 1841", Tiger-maple (or curly-maple) 18" panel marking gauge w/ hand wrought "lima-bean" stop-screw, Vg.
166. Assembled, wooden pump "hardware set". The set includes an unsigned, "diamond-faceted" pump-handle, and 2 – twist-braced spout supports
167. Unsigned, 18th century, socket handled "Twibil" (mortise axe), G+. Traditional American form framer's mortising "Twibil" with long tapered chamfer-top socket, 5/8" socket chisel face & 1 3/4" vertical axe edge. Each edge is 10" from socket, and socket is crafted with heavy stock iron for heavy blows. The "Twibil" has an old "make-do" hickory handle, F-G.
168. 3 – Harwood measuring devices, Vg: Mahogany, 29" straight-edge "scrivener's rule" marked, "W. Kane"; Mahogany, 29" straight-edge "scrivener's rule" marked, "W. Kane" (the two are possibly a cut-down 60" straight edge); "J.D. Twigg" 24:" mahogany wood bevel
169. 2 – Wooden "W. Kane" (owner marked) tools, G-Vg: 18" panel marking gauge; "John Veit, Phila." 21 3/4" plank-style handled jointer plane w/ mahogany sole infill plate. The plane appears to be cherry wood.
170. 6 - Wooden "W. Kane" (owner marked) molding planes, by various makers. 3 – side-bead; 1 – nosing (damaged); 2 – rabbet. Makers include: "Phoenix Company"; "Union Factory, H. Chapin"; "Sandusky Tool Co.
171. 2 – Tools, G+-Vg: Unsigned, maple handled "engineer's" turn-screw driver w/ 26 3/4" overall length, Vg; "Quaker City Saw Co." 26"-8pt. handsaws, cleaned
172. 4 – Assorted tools, G-Vg: Owner, "W. Kane" 7" cooper's "heading" drawknife w/ homemade blade guard; 10" wooden handled hack saw w/ rod back; "Disston & Sons" open-grip key-hole saw; "Disston & Sons, Phila." 14" steel back mitre saw, cleaned
173. 7 – Assorted wooden "hollow or round" molding planes, various makers & owner strikes, G-Vg.
174. 11 – Assorted wooden handled spoke shaves, various types & makers, G-G+
175. "Conrad & Wade (?)" with "Collins" overstrike, right-hand side broad axe w/ 14" edge & having shaped hickory off-set handle, G+
176. *Restorer lot: 2 – Stanley bench planes, F.-G: #105, Liberty Bell 14" bench jack plane (cracked handle). The plane is pressed-steel construction w/ brass cast "Liberty Bell" screw cap; Bailey #3 smooth jack, crack tote handle & some rust
177. 10 – Assorted wooden handled spoke shaves, various types & makers, G-G+
178. 5 – Assorted, unsigned "Dengelstock", field-cutter's field anvils, F+-Vg.
179. 5 – Assorted tools: "Elgin, Genuine Improved" 6 3/4" alligator jaw adjustable wrench, G; 3 – Assorted hand-vises, G-G+; Unsigned, small "hobby" bench vise.
180. Tray lot assorted tools & collectibles, F-G+: "Turntable Apple Peeler" hand crank peeler; Iron screw-clamp nut cracker; Jeweler's rivet hammer; T-handled tap-reamer; etc.
181. *Restorer lot: Tray lot assorted hand tools, F-G: Stanley: Bailey #5-C bench jack, #80 box scraper; #130 dbl.-end block plane; #95 butt marking gauge; "Millers Falls" 9" bench jack
182. 5 – Assorted, Stanley edged tools, G: 2 - #82 adjustable box scrapers; 2- #80 box scrapers; Bailey #122-8" transitional block plane w/ "Liberty Bell" screw-cap
183. Tray lot assorted tools & collectibles: 7 – assorted mini-ball casting molds; 2 – Bag safety-pins; "Aldine Hotel, Ashland, KY." Brass room tag; Assorted pin-backs & tokens
184. *Restorer Lot: 7 – Assorted block planes: 3 – Transitional (2 – Stanley Bailey (1 – Liberty Bell cap)); 4 – metal blocks, assorted makers (some rust)
185. 3 – Assorted hand planes, G-Vg: "Stanley R&L" #27 -15" transitional for plane w/ "Liberty Bell" cap; "Sargent VBM" #3408-8" transitional block plane; Stanley #220 iron block plane

186. Tray lot assorted tools & hardware, F.-G+: Stanley, R&L 18" mahogany level; T-handle reamer; 4 – assorted iron shutter dogs; Lg. bag lot assorted keys (several cabinet-type hollow stem); Bag assorted chest/cabinet locks; etc.
187. *Restorer lot: 7 – Assorted wooden molding planes, various types & makers (most simple-type)
188. Early model, Stanley #45 combination molding plane w/ embossed floral casting & retaining some lacquered black finish. The plane has rosewood grip & knob, G+
189. *Restorer lot: Tray lot assorted edged tools, F-G+: Stanley: #71 router, nickel-plated, missing depth gauge; #78 rabbet/fillister, missing fence & depth gauge; #55 hollow shave; "no-name" (#51) raise-handle shave; Stearns (?) spoke shave
190. Tray lot assorted hardware: 2 pr. Victorian "lattice-work" cast iron shelf brackets, Vg.; Victorian cast iron open-work "swing-arm" bracket; 19 – Assorted brass "skeleton-type" keys (1 – hollow key); Brass "Frain" (Lancaster) padlock key; "Phila." keyed deadbolt door-lock, Vg.
191. *Restorer lot: Matched pr. uncommon, unsigned wooden slide-arm panel tong & groove planes w/ iron wedges. Each plane has full rosewood sole & fence facing. Each has bone mounts at slide points, G-G+
192. Tray lot assorted kitchen primitives/tools: Unsigned, 6 3/4" cleaver; "Disston & Morss, Phila." small vegetable shave/slaw board, F-G. ; 2 – Sharpening steels; wooden tenderizer mallet; wooden pie plate spatula; turned stomper.
193. *Restorer lot: 8 – Assorted, simple wooden molding planes, various types & makers, G. (please view yourself)
194. *Restorer lot: "B. Sheneman, No. 733 Market St., Phila." handled screw arm plow plane (threads rough), modern wedge; 15 – assorted plow plane irons, G.
195. "Wm. Beatty & Sons, Chester, Pa." w/ steer strike (light strike) broad wedge-cut blocking/squaring axe w/ 11" edge & modern era handle, G
196. *Restorer lot: "Douglass" 3" socket handled pairing slick w/ turned walnut wood "knob-end" handle, G. (weak strike & some rust pitting)
197. Double-struck, broad Kent-style felling axe w/ modern oak handle, F+-G (some chipping from hardened butt-plate). The axe has "G. Young", embossed strike (*?), and 2nd strike "M. Kel" (*?)
198. "Wm. Beatty & Sons, Chester, Pa." w/ steer strike, Pennsylvania pattern broad axe w/ thick hardened butt-plate, G. The upper tip of the edge is rounded (possibly altered by user)
199. Left-hand side broad axe w/ 8" edge, modern off-set handle, refurbished F-G. The axe was over-struck during repair by "Hoyt" (possible Lewis Hoyt, Hoytdale, Beaver Co., Pa., circa mid-late 19th century). The axe appears to have had a "blow-out" to upper edge of the eye. It has a modern black painted surface that hides the repair.
200. Unsigned, left-hand side broad axe, with original off-set handle. The Pennsylvania pattern (Kent-type) side axe is double-lugged w/ 1 1/2" thick butt plate & 8 1/2" edge, G+.
201. "J. Rarrick" (?) (*location & maker unknown), Tanner's unhairing knife, G. 17 1/2" arched edge w/ oak grips
202. "James Warnock Co., Galt" (Galt, Ontario) 4" socket handle slick w/ turned walnut "ball-grip" handle, G+-Vg. The large slick has chamfered top with 12" blade length from bottom edge of the socket. The handle is probably a 1970's era crafted handle that is well fitted.
203. *Restorer lot: "Wm. Beatty & Son, Chester, Pa." w/ steer strike, right-hand side broad axe w/ 10 1/2" edge & old hickory off-set handle, F-G. (minor rust, but edge has small extensive chipping)
204. "S.A.G.", Continental-type right-hand "Goosewing" axe w/ tapered off-set "D-shaped" socket, 11 1/2" pointed tip edge, rectangular key, chip-deflector weld, & hardened butt-strike, G+ (modern "make-so" fitted handle
205. 4 – Edged tools, F+-G+: "Wm. Beatty & Son, Chester" 8" drawknife; "Wm. Greaves" 10" stop-chamfer drawknife; "Sargent-VBM" right-hand broad "lopping" hatchet; "Baker, Hand Made" right-hand broad "lopping" hatchet
206. 4 – Assorted primitive tools, G-Vg: "A. Haugh" (possibly Maryland); Unsigned, 2" firmer chisel; "C. Hammond, Phila." right-hand broad "lopping" hatchet; Odd, double-edge grubber/adze (?) w/ square eye
207. Wooden, Conestoga wagon "tar bucket" w/ wooden lid, G+ 5" dia. x 6 1/4" x 9 1/2"H.
208. 2 – Wooden "specialty" block planes, Vg. Sandusky Tool Co. #36-6 3/4" "toothing" (scraper) plane; Unsigned, adapted bottom circular/compass block plane. Common 8" coffin-shaped block plane with mounted hard maple circular sole
209. 3 – Various wooden block planes, G-Vg: "John Veit, Phila." 9 1/2"; Unsigned, 7 1/2" rounded sole. Blade is marked "Dwight's & Fre(??)". The plane has a pressure crack at wedge mount; Signed (?), 7" coffin shaped block w/ hardwood sole infill.

210. Stanley #71 router w/ patent date March 14, 1884, & lacquered black finish, Vg.
211. Tray lot assorted drilling devices, G-VG: "Millers Falls Mfg. Co." 8" brace; 5 – Early "center-spur" bits; Bag assorted gimlet & shell bits; Bag assorted spiral auger bits; 1 – counter-sink bit; Etc.
212. 3 – Stanley tools, F-G: #13 circular/compass plane w/ eye-screw adjuster stop-screws, owner marked "W. Kane"; early #9 1/2 block, "make-do" repairs & owner marked "W. Kane"; "Bailey's Patent, Aug. 31, 1858" #51 raise-handle spoke shave
213. Tray lot 13 – assorted chisels, G-Vg: 2 – socket handled firmer chisels (1 – corner chisel); 3 – tang handled firmer chisels; 6 – assorted tang handled carving chisels.
214. Unsigned, Continental (??) screw-arm plow plane with fence side knobs & interior stops. The plane has brass depth adjuster. The plane includes a canvas roll of 15 – plow plane irons, Vg. (several irons "Peugot & Jackson"
215. Tray lot assorted tools, G.-Vg: Oak case with 24 – assorted home-crafted "card-scrapers"; "E.G. Sims" 5 1/2" winged divider/compass; "William Friedruhs" 7 3/4" divider/compass; assorted calipers. & pencil mounts
216. Tray lot assorted primitives & tools: Oak joiner's mallet, Vg; Lg. mahogany handled marking awl; 4 – Assorted home-crafted marking/scratch gauges, & edge rabbet planes
217. Tray lot assorted tool references: H.B. (w/ dust cover) A Museum of Early American Tools by Eric Sloane, 1984 edition; S.B. The Antique Tool Collector's Guide… by R. Barlow; S.B. A Guide to American Wooden Planes and Their Makers, Pollak, 1991 edition; 2001, S.B. Stanley Tools pocket price guide; etc.
218. 2 – Stanley hand planes, Vg: #238 "light duty" weather-stripping plow plane, complete with fence & depth stop, Vg; R&L #120 block plane w/ "Star" embossed cap
219. 5 – Assorted socket handled firmer chisels, various makers G-Vg (2 – corner chisels)
220. 5 – "Buck Bros." tang handled gouge chisels, G+-Vg: fine graduated 4pc. bent-shank "dog's-leg" gouges
221. Tray lot assorted hand tools, G-Vg: Unknown maker, T-handle tap auger; "Mathews, Champion Holder" #6668-1 "specialty" hammer; "E. Cunningham" (Pittsburgh, Pa.) marking hammer; 2 – Flush-T bevels: "Craftsman"; "Eagle"; 2 – Stanley sliding-T bevels
222. Tray lot 26 – assorted plow plane irons, various sizes & makers, G+-Vg
223. 2 – Philadelphia, wooden handled complex molding planes, Vg.: "J.T. Jones, Phila." (John T. Jones, circa 1831-1846), 2 1/4" Grecian ovolo & bead; "John Bell, Phila." 2" Grecian ogee w/ bevel
224. 5 – Assorted early wrought iron claw hammers, various sizes & types (several hand wrought), F-G.
225. 5 – Assorted early wrought iron hammers, F-G.: Blacksmith's hot cutting chisel hammer; 4 – Assorted carpenter's claw hammers (3 – handled): "Sanderson's Patent 1845" round poll claw; 2 – octagon poll claws; unsigned, square poll claw
226. Continental, cooper's right-hand bearded stave axe w/ "chevron-type" shield strike. The side hatchet has flat back U-shape eye. G+
227. Tray lot assorted wrought iron tools, F-G.; Dbl.-faced "tomahawk" hatchet; Small round poll hatchet w/oval eye; Dbl.-leg caliper; "A. Hall" 13" stiff-joint caliper; "R-W." No. 1, nail pincers, G.
228. 3 – Various hand planes, G+-Vg: Craftsman #3C-BB-9" bench jack ; 2 – Stanley block planes, G+-Vg: #9 1/4 w/ original box; #220 w/ circa 1912-1920, V-strike
229. 5 – Assorted hollow-tip augers, (2 – adjustable), F-G.
230. 13 – Assorted, Stanley, carpenter's wood chisels, G-Vg: 2 – wooden "Everlast" socket handle; 2 – assembled graduated sets w/ black neoprene handles
231. 8 – Assorted tang handled gouge chisels (5-bent shank), G-Vg (most "Buck Bros.")
232. Tray lot assorted tools: Complete, 1/2" numbering punch-set, Vg; Complete 5/8" lettering punch set, Vg; 2 – wooden tang handled chisels, F-G; Stanley #12-S (742) 12"x8" framing square, Vg.
233. Tray lot assorted tools, G-Vg: Stanley: #59 doweling jig w/ graduated set of 5-guides; R&L #20-7 1/2" try square; (#2) 9" mitre-square w/ "Patented, April 16th 1872"; Unknown maker, 2 1/2"L. iron level; Brass-tipped cork-trimming knife; Brass 6oz. octagon plumb bob
234. Keuffel & Esser Co., New York, "Thatcher's Calculating Instrument" #412 roll-type multifunctional graduated rule calculating tool in original box-joint constructed mahogany wood box, Vg.
235. 3 – Assorted measuring devices, G-G+: "Keuffel & Esser Co." #132 pantograph tool in original box-joint constructed mahogany wood box; Lufkin #7141-3ft. "freight" rule w/ brass foot; Unknown maker, 3ft. 6-tier log board foot rule
236. 2 – Lg. stiff-joint outside calipers, G+: 1st Owner signed, "Thos. Kimes, 8-28-1918", 23"; Owner struck, "W.J.M" 26 1/2"

237. "Disston & Sons, Phila." marked "Special model" 26"-3pt. rip saw, refinished Vg.
238. "Walking-stick" Marking mallet, Vg. The walking-stick is "live-edged" shellacked hickory sapling with small "marking-hatchet" head/handle. The marking head has a "F.B." in a circle
239. 18th Century, initialed "I.L." (in heart) tool decorated right-hand "Goosewing" axe, G+. The Germanic traditional "Goosewing" side axe has a flat-back tapered "D-shaped" off-set socket, 13" pointed tipped edge, arch-top key & has hardened butt-strike. The axe has decorative "pine-tree" design punched extending from heel. It also has a diamond pattern tool decoration at center-point of the handle mount, unknown origin
240. "A. Mathiesson & Son, Glasgow" #2 small round-poll carpenter's adze, G+-Vg
241. "H.H. Stricker" (Henry H. Stricker, worked originally near Reinholds Station & later at Vinemont, Spring Twp., Berks Co.) felling axe, G+
242. Un-matched pair panel tongue & groove plane set: Unsigned, owner crafted Catawba wood screw-arm grooving plane. The uncommon hardwood is used on the plane body, handle & fence. The thread screw arms & knobs are cherry wood with rosewood stops; Unsigned, traditional form wedge-arm tongue plane (chipped ear of tote)
243. "H.H. Stricker" (Henry H. Stricker, worked originally near Reinholds Station & later at Vinemont, Spring Twp., Berks Co.) felling axe, G. (handle cracked & later re-constructed butt-plate)
244. 2 – Marking tools: 1st "S.S. Co." marking mallet, possibly for metal work; 2nd long handled marking gouge or tapping gouge, G. 37" overall length
245. Tray lot assorted tools, F-Vg: Stanley (?) duplex shave; 4 – Assorted wooden spoke shaves (1 – bone sole plate, 2 – brass sole plates); Stanley #25-6" sliding-T bevel square; 3 – wrought "bench-cleat" bench stops; "Brown & Prue (?)" framing square; etc.
246. "P.S. & W." 3" socket handle slick, G+-Vg. The slight curved or off-set slick has a vintage turned cherry wood "acorn-capped" handle
247. Unsigned, 3" socket handled paring slick w/ 19th century turned maple wood handle, Vg. (handle-end is possibly altered)
248. "Wm. Beatty & Sons, Chester, Pa." (weak strike) left-hand side broad axe w/ early hickory shaped off-set handle, 10 1/2" edge, G. The axe does have some pitting to the surface.
249. Unsigned, left-hand side broad axe w/ nickel plate finish (possibly Beatty that was paper labeled only), G+. The axe has well-fitted walnut wood handle. The axe has 12 1/2" edge w/ some noted minor chipping.
250. Unsigned, right-hand side broad axe w/ 12 1/4" edge, F-G. The axe head does have some deep pitting to the surface
251. Unsigned, Pennsylvania-type right-hand "Goosewing" side smoothing axe. The axe has a chamfered top tapered off-set socket, tapered butt-plate, & "rough-crafted" key. The axe has 11 5/8" edge, squared & clipped corner heel. It retains an early rough-hewn hickory handle. Appears to have an early weld repair near key.
252. Conestoga wagon wooden tar (grease) bucket w/ wooden fitted lid. The early bucket was lathe turned with hand worked angular mounts for strap hanging, The lid is chipped, but has hole drilled for a "greasing stick". Leather strap is damaged.
253. "D. Simmons, Cohoes, Cast Steel", left-hand side broad axe w/ shaped walnut off-set handle, G. 9" edge.
254. 7 – Assorted wooden joinery planes (tongue & groove), G-Vg. Makers include: Sargent; "Barry & Way, New York"; "Greenfield Tool Co."; "S. Dale, Buxton Pond"; "B. Huff, Maker" (Baltimore, circa 1849-1851); "Baldwin"; etc.
255. 3 – Wooden adjustable two-iron sash molding planes: "The Doscher Plane & Tool Co., Saugatuck, Conn." Screw adjusted w/ full boxing, Vg; *restorer piece - "J. & W. Webb, Pittsfield" (*** rated – John & William Webb, brothers that worked only a short time together in Pittsfield) wooden thread-arm, F. (parts missing); "J. Creagh" (Cincinnati, Ohio) wedge arm adjusted w/ secondary owner strike "J. Fry" on nose, G
256. 8 – Assorted wooden molding planes, G-Vg: "Sargent & Co." #707 1/2 sash coping; "A. Mathieson & Co. Glasgow" altered-cut quarter round; 6 – Assorted side-bead molding planes: "Marshall, Glasgow"; Greenfield Tool Co.; "M. Copeland"; etc.
257. 7 – Assorted wooden molding planes, F+-Vg: 3 – handled joinery planes: H. Chapin; Taber Plane Co.; "H. Browning, Rowe, Mass." (2 – missing irons: "A. Mathieson, Glasgow" fenced ogee; "TVW, New York" astragal bead; illegible signature, center-bead; "R.C.H." table hollow
258. "S.D.C." (unknown), bird's-eye maple screw-arm plow plane, G. (fence crack & some damage to threads)
259. *Restorer lot: - "Stewart Spiers, Ayr" #27 -8" rosewood infilled handled block w/ "Stewart Spiers" marked brass screw cap. G+ (handle crack) front rail marked "dovetailed" constructed body.

260. "L.L. Davis, Patent Sept. 17, 1867" 12" iron "lattice-work casting" inclinometer adjustable level, retains most of original Japanned surface & bronze trim paint, Vg
261. 3 – Assorted tools: Rare - "Decatur Coffin Co., Decatur, Ill. Pat. October 7, 1884" one-way spiral action screw-driver. This rare spiral screw-driver was designed & patented by Christopher H. Ohlsen.. The unique "Yankee-type" driver is designed for only driving of screws. Possibly originally retailed to undertakers to speed task of permanently mounting of a coffin lid. (cracked handle); Stanley: #113 circular/compass plane, P (cracked frame, missing original iron & lever cap); #49 bit gauge w/ original box (rough box), G;
262. 3 – Assorted backsaws, G-G+: "Wm. McNiece, Phila." 14" steel backed mitre saw, small eagle button (handle ear chip & owner strike); "Jackson & Co." 12" brass backed w/ open grip (drilled hanger-hole); "Jackson" 10" steel-back w/ "Eagle Saw" button on open grip handle, brass split-nut mounted (chipped ear on handle)
263. 3 – Various, edged tools: 1st "Rival" w/ dog strike, ship's carpenter's axe w/ extended rectangular poll & oval eye, Vg. (head only);2nd 1 1/2" socket handle firmer chisel w/. chamfer top, G+; 3rd Unsigned, 1 1/2" socket handle slick w/ modern turned walnut wood handle, G+
264. 3 – Steel backed mitre-saws, G-Vg: "J.G. Underwood, New York" 12" brass split-nuts (cracked handle); "Jackson" 14" w/ Eagle button, & brass split-nuts; "Henry Disston & Sons, Phila." 12"
265. 7 – Assorted bench & lathe chisels, G-Vg: 3pc. graduated set socket handled carpenter's wood chisels; 2 – "Marples" gouge chisels; etc.
266. 3 – Various edged tools: 1st Antique, unsigned cooper's small two-handled scorp-shave. The small scorp is tight-radius w/ 3" overall dia., Vg; 2nd New, unsigned 6" oak handled froe, Vg+; 3rd New, unsigned 6" oak handled drawknife w/ cedar blade guard, VG+
267. 9 – Assorted wooden molding planes, most simple form rounds & rabbet planes, P-G+. Makers include: "Edward Carter, Troy, NY."; "Bensen & Crannell, Albany"; "Union Factory, H. Chapin" dado; etc.
268. 4 – Assorted hand planes, G-Vg: 1st "Ward & Chaplin, Baltimore" 1 1/2" handled side-bead, (tote ear chip); "N. Camper, Baltimore" handled screw-arm panel grooving plane (tote ear chip); 3rd & 4th - assembled pair, tongue & groove plane set
269. Dbl.-struck, Lg. wooden handled panel/field raising plane w/ moving sole fence & side depth stop, G+ (missing wedge). The plane is originally struck by maker "Union Factory, H. Chapin" & secondly struck by retailer "G. Mayer, Lancaster (Pa.)". The plane is 5 1/2" overall wide x 14 1/2" L.
270. "J.B. Stohler" (John B. Stohler working later part 19th century in Schaefferstown, Lebanon Co., Pa.) X-branded felling axe, F. (lg. chip of hardened butt-plate) w/ modern "North Wayne Tool Co." hickory handle
271. 2 – Corrugated soled bench planes, G+-Vg: Record (?) #R-6 fore plane w/ replaced ""Lakeside" blade. The plane has rosewood handle & knob; "Keen Kutter" #K-5-C, jack plane w/ rosewood handle & knob, Vg.
272. 2 – Bench planes: Stanley Bailey "sweetheart" (circa 1925-1938) #3-C small bench jack, rosewood handled & high knob, G+-Vg (hairline crack to tote handle); "B. Plane Co., Pat'd 10/22/1889" (Birmingham Plane Co., Birmingham, Ct. This was a combined venture of Union Mfg. Co. & Derby Plane Mfg. ) #6 smooth fore plane w/ rosewood handle & knob, G.
273. "Sargent" #418-18" bench jointer plane w/ rosewood handle & high knob, Vg. The plane retains most of it's original black lacquered deck.
274. "Sargent & Co." #418-18" smooth bench jointer w/ rosewood handle & low knob, G+
275. 2 – "Sargent & Co." bench jack plane, G+-Vg. (1 – marked #414)
276. 4 – Assorted bench planes, G-Vg: "B. Plane Co., Pat'd 10/22/1889" (Birmingham Plane Co., Birmingham, Ct. This was a combined venture of Union Mfg. Co. & Derby Plane Mfg. ) 9 1/2" (#4) smooth jack; "Sargent" #409 smooth jack plane, (w/ mahogany replacement handle); Stanley #12-247 (H1247) block plane, Vg. (in original box); "Craftsman" #3704 block plane w/ original box, Vg
277. Tray lot: Stanley #993-8" right-angle brace, G.; 3 – S.B. tool references: 1990, re-print, Dictionary of Woodworking Tools, R.A. Salaman; 1999, American Wrench Makers, 1830-1915, Kenneth L. Cope; 2006, M-WTCA. re-print, The National Saw Company
278. Assembled grouping: Modern walnut wood dovetail constructed slide-lid box w/ raise panel lid (lid is cracked); "E. Preston & Sons" 14" brass faced rosewood level, G; "W. Vance" (script strike, Baltimore, Md.) 1 1/2" handled nosing plane, G+ (owner strike "J.H. Shack")
279. "Mockridge & Son, Newark, NJ.", assembled, 14pc. graduated set of hollow & round wooden molding planes, G+-Vg. (most have owner strikes)

280. 3 – Assorted wooden molding planes, G-Vg: Unsigned, cherry wood 2 3/4" round sole smoothing block w/ uncommon curved iron & wedge, G+-Vg; "John Bell, Phila." 1" reverse ogee molding, G+; "J. Colton, Phila." 1 3/4" Grecian ogee w/ bevel, two-iron molding w/ owner strikes of: "J.B. Young", & "N. Krauser", G+
281. 2 – Measuring devices, G-Vg: Stanley R&L #80-42" mahogany wood level w/ brass shielded sights (filled holes; "N.G. Hershey, Manheim, Pa." trade advertising square walking stick/yard stick
282. 2 – Stanley, wooden mason's levels, G.: #35-42" w/ hanging plumb-bob; R&L #45 1/2-48" "Combination" mason's level w/ two adjustable vertical vials & brass shielded horizontal vial, G+
283. "Dunlop & Madeira, Cast Steel, Warranted" #1 (James Dunlop & George Madeira, Chambersburg, Pa., circa 1830's) right-hand side broad axe w/ 12" edge, handle salvaged from another axe. The axe head has a noted stress-crack, cleaned G+
284. Signed (Beatty & Son, Chester. Only partially legible) 3" socket handled paring slick w/ modern era turned hickory wood handle, Vg. The slick has 11 1/2" shaft from edge to socket. The blade is off-set with a curved shaft.
285. "G.W. Bradley, Cast Steel" (Weston, CT.) right-hand side broad axe w/ 10 1/2" edge & fine shaped off-set hickory handle, Vg.
286. "J. Hamlin, Cast Steel, Warranted" (possibly – John Bradshaw Hamlin Sr., (1796-1880) a working blacksmith in Great Bend, Susquehanna Twp., Pa.) broad Kent-type axe w/ double-lugs & thick butt-plate, G (some stress cracks near socket pressure points
287. "M.C. Ogden," (Mortimer C. Ogden was a New York City hardware dealer. The axes was branded for the retailer by unknown maker) left-hand side broad axe w/ bent off-set handle, G
288. "Roberts & Co." (*?) right-hand side broad axe w/ 10 1/4" edge, G
289. Late era, right-hand "Goosewing" side smoothing axe, Vg. This unsigned "Goosewing" has excellent design for those users out there. It has a heavy gauge tapered off-set "U - shaped" socket, tapered hardened butt-plate, step-down molded mounting to a excellent beard axe face. The axe has a 13 1/2" pointed-tip edge & metal band mounted handle. Origin is unknown, but appears to be a great piece for use.
290. Unsigned, 3 3/4" socket handled paring slick w/ 1970's era turned cherry wood knob-grip handle, G+
291. "Wm. Brady, Cast Steel" (light strike) (William Brady, circa 1850-1880, Mt. Joy, Lancaster Co., Pa.), right-hand side broad axe w/ hickory shaped off-set handle. The double lugged broad axe head has 12" edge, thick butt-plate, & is owner initialed "H.I.", G+
292. 5 – Assorted measuring devices, G+-Vg: Stanley "sweetheart" #102-10" cherry wood level; 4 – Assorted large brass faced hardwood handled try-squares: "Johnson & Conaway, Phila." 15"; "Disston & Morss, Phila." 15"; Stanley "sweetheart" #20-18"; unknown maker, 16"
293. "Sargent VBM" #3426-26" transitional bench jointer, G-G+ (ear-chip to tote handle)
294. 5 – Assorted measuring devices, G-Vg.: Stanley R&L #00-22 cherry wood level, Vg; 4 – Assorted large brass faced hardwood handled try squares: "Slater & (?)" 16"; "Diamond, Sheffield" 15 1/4"; unknown, 12"; "Disston & Morss, Phila." 14"
295. 7 – Assorted Stanley bevel-squares, G-Vg: 2 - #18, Flush-T; 5 – assorted size #25 series Sliding-T
296. 6 – Assorted measuring devices, G-VG: Disston & Sons, 10"cherry wood level; 5 – Lg. brass faced hardwood handled try-squares. Makers include: (owner?) "R. Hunt"; "Henry Disston & Sons"; "Disston & Morss, Phila."; "Stanley" (V-strike)
297. 4 – Assorted mitre & try squares, F-G.
298. 5 – Assorted Stanley brass tipped wooden levels, G+-Vg: "sweetheart" #25-30" mahogany adjustable (part. label); R&L #4-30" cherry wood; R&L (arch strike) #3-28"; "sweetheart" #3-28"; R&L #3-30"
299. Home/Bench crafted American Chestnut or Chestnut Oak - 22 1/2" handled bench jointer w/ maple & walnut handle/totes, G+
300. 5 – Assorted wooden levels, G-G+. Makers includes: Stanley R&L (Arch strike) #1-24" mahogany; "Disston & Sons" #16-24" brass capped cherry wood; Stanley R&L #10-24" brass tipped cherry; "N. Lyon" 24" rosewood; Stanley R&L #1-24" mahogany
301. 3 – Various wooden molding planes, G-Vg: "J. Kellogg" 9" coffin-shaped block; "D. Malloch, Perth" 22" handled plank-style jointer; "Sandusky Tool Co., Ohio" 22" maple handled plank-style jointer (well made replacement handle)
302. 3 – Assorted wooden molding planes, G-Vg: "Hopkins" (New England) 1 1/2" Grecian ogee w/ bevel; "D. Barton, Rochester" 8/8" handled panel tongue; "D. Malloch, Perth" moving fillister (parts missing)

303. 7 – Assorted wooden marking gauges, various types & makers, F+-Vg.
304. 8 – Assorted wooden simple/fixed molding planes, various types, F+-G+. Makers include: “B. Morrill”; “W. Moss”; “H. Brown”; “J. Kellogg”; etc,
305. 2 – Stanley Bailey bench planes, G-Vg: #5 smooth jack; #6-C fore plane
306. 6 – Assorted marking/mortise gauges (most hardwood), various makers & types, G-Vg.
307. 11 – Assorted wooden fixed simple wooden molding planes, G-Vg: “Sandusky Tool Co.” side bead; 10 – Assorted hollow & round planes. Makers include: “W.H. Livingston”; “Fenton & Marsden”; “Fred New”; etc.
308. English, “Kay Carpenter’s Tool Set” – toy tool set, NIB. The box is water damaged, but tools nearly complete & still wired to the box.
309. 3 – Assorted Stanley bench planes: Bailey #6 smooth fore plane, replacement “Veritas” blade, G+; “Handyman” #H1204 smooth jack, G; “Handyman” #H1205 smooth jack, G
310. English, “Thos. R. Ellin, Footprint Works Ltd.” Combination tool set, appears complete, G+-Vg. The set is in a box-joint constructed softwood & plywood bench top hinged chest. Please see photos on-line
311. “Emmert Mfg. Co., Waynesboro. Pa.” combination/adjustable pattern maker vise, Vg. **Provenance – Ex-Hamilton Watch Factory, Lancaster, Pa. *Note – On-line bidders. This piece is extremely heavy & possibly hard to ship. Shipping costs will be expensive.
312. Canvas covered, Pattern maker’s hanging chest w/ hinged door. The interior is mahogany & designed to organize carving chisels. It has drawer-box with honing stones, F+-G+
313. 10pc. Graduated set “S.J. Addis, London, England” tang handled large radius carving gouges with similar mahogany stained & varnished handles, Vg.
314. 12pc. Graduated set – “Buck Bros.” tang handled carving gouges with similar mahogany stained & varnished handles, Vg.
315. 10 – Assembled graduated set – tang handled V-groove carving chisels (various makers), Vg. The handles are finished in similar mahogany finish
316. Assembled 12pcs – graduated set of carving gouges w/ similar mahogany finished handles (various makers), Vg.
317. 10 – Assorted tang handled carving chisels, (9 – Buck bros.), most paring chisels & V-groove chisels
318. 16pc. Graduated – “S.J. Addis, London, England” tang handled carving gouge chisels, Vg. All have similar mahogany finished handles.
319. 6 – Assorted paring & “specialty” tang handled carving chisels w/ similar mahogany finished handles, Vg. (most “S.J. Addis, London, England”)
320. “J. Beatty, Cast Steel” (John Beatty, circa 1830-1886, Chester, Pa.) 3” socket handle slick w/ 1970’s era turned walnut wood ball-topped handle, G+-Vg.
321. 8 – Assorted carving & firmer chisels (2 – socket handled), various makers, G+-Vg
322. Stanley “sweetheart” #45 combination molding plane w/ two racks of blades, VG. The plane is mostly complete, but missing 1 – long rod, otherwise mostly complete
323. *Restorer lot – Tray lot assorted tools, F+-G+: “Siegley” (Wilkes-Barre, Pa..?) #6-C bench fore plane (good restoration project); Assembled 12pc. set “James Swan Co.” auger bit set in oak hinged case; unsigned 1” socket handled corner chisel
324. 2 – Wooden tools, G+-Vg: “Gardner & Murdoch, Boston” (weak strike) 30” plank-style handle bench jointer, small chip to tote; Unsigned, 26” wedge arm trammel rail w/ drilled eye for hanging
325. *Restorer lot - Tray lot assorted wooden planes, F-G: matched pr. “H.L. James, Williamsburg, Mass.” (circa 1855-1870) wedge arm panel tongue & groove planes; Japanese, 10 3/4” drawn-type hardwood smoothing plane w/ blade marked “Yamashiro-no-kami”(regional maker in Yoita, Niigata Prefecture (now Nagaoka, Japan); Unknown maker, 16” fore plane (over-refinished); 2 – simple molding planes
326. *Restorer lot: 3 – Assorted edged tools: Unsigned, hand wrought “tomahawk” hatchet (bog iron pitting) w/ modern era replacement handle, F-G; “P.S. & W. Co.” (weak strike) 3” socket handle slick, missing handle, Vg.; Civil Conservation Corp., (1930’s era) cold-strike marked square-poll adze, missing handle. The side of adze is marked, “CCC, #SCS7, J.W.C.”. This camp was known as “Glenview Camp” at Glenrock, York Co., Pa. It was established on June 26, 1935. The camps main focus was as a “Soil Conservation Service”. The camp remained in operation until 1942.
327. *Restorer lot : 4 – Various edged tools, F.-G: Stanley: #12 1/2 adjustable scraper w/ rosewood sole plate & handles (no blade); #71 router (missing depth stop); #102 block; Sargent, block plane

328. Tray lot assorted tools: “Wm. Goldsmith, Phila.” screw-arm sash molding plane w/ rosewood threads & knobs, G+. Owner’s brand “B. Altemus”; Unsigned, wooden scraper/shave w/ brass sole-plate, Vg; Stanley Bailey (weak strike) 8 1/2” transitional handled block, G.; “Hotchkiss, #1, Pat. 1896,” embossed cast iron stapler, G.
329. *Restorer lot: - Two various tools: Unsigned, hand wrought Cooper’s round-adze w/ hardened steel edge & square poll (modern oak handle); Unknown maker, marked “Patent Applied For” cast iron mitre clamp with thread-screw operation , G.
330. *Restorer lot: 4 – Wooden molding planes (as found, plenty of dirt), G. Makers include: “E.W. Carpenter, Lancaster”; “Curris, Glasgow”; “C.C. Dresser” (Goshen, Mass. circa. 1854-1856)
331. * Restorer lot: Tray lot assorted tools: Small wrought iron bar & hook trammel, G. 3 – wooden threading blocks, F-G; Unknown maker, screw-arm sash molding (rot damage to nose); 4 – assorted side-bead molding planes, G.
332. 2 – Carpenter’s adze: “W. Butcher” square poll adze, F.-G. (surface pitting & replacement handle); “C.C.” (*?) non-polled adze, G+
333. “C. Silvius, Cast Steel” (Conrad Silvius, working Lancaster City, Pa., circa 1850) right-hand Cooper’s bench axe w/ off-set center mounted socket w/ later era hickory handle. The axes eye is D-shaped., G+
334. “Dunlop & Madeira, Cast Steel, Warranted” (Light strike) (James Dunlop & George Madeira, Chambersburg, Pa., circa 1830’s) right-hand Kent-type blocking axe, later era handle, G+
335. “L. Stoudt” (Lucian Stoudt, Alsace Twp. Berks Co. He had a storied history with enlistment in 1873 in the army. He reportedly served some time in Salt Lake, Utah, and supposedly served in the Black Hills in “Custer’s Army”. He was not at the Battle of Little Big Horn. However, he later was hired by Barnum’s Traveling Circus. Eventually making his way back to Seidel’s Axe Works. The 1920, Census had him listed at 58yrs still listed his occupation as a Blacksmith.) Single poll felling axe, VG.
336. Dbl.-struck - “S. Burnham” (attributed to Milford, New Hampshire) left-hand side broad axe w/ old hickory handle, G+-Vg
337. Embossed signed (??) (Possibly Kobel/Rorer/Nobel) right-hand “Slipper” side smoothing axe. The Continental-type side smoothing axe has 16” edge with pointed toe & rounded heel. The mount is set at rear center mount. It has raised bead at weld point & “beehive – shaped” eye. The axe has flat-back butt-plate & has old hickory off-set shaped handle. Vg. The strike is difficult to read properly.
338. “W. Beatty & Son, Cast Steel” (William Beatty & Son John Beatty, circa 1836-1850, Phila.) 3” socket handled slick w/ old “make-do” handle, G+ (2 – owner strikes “J.C.”)
339. “D. Hagen” (Davis Hagen, Mt. Nebo, Lancaster Co., circa 1830) heavy Kent-type broad squaring axe w/ hickory handle, G+
340. 2 – Edged tools that are refinished, G+-Vg: “Beatty, Cast Steel, Chester, Pa.” (weak strike) dbl.-lugged (Norfolk-type) felling axe; Signed (??) square poll carpenter’s adze w/ owner branded “H. Clotworthy” handle.
341. 2 – Edged tools that are refinished G+-VG: “H.C. Harrold” (Harrold Tool & Forge Co., Columbiana, Ohio, early-mid 20th century) single-bit camp axe; Signed, (??) square poll adze w/ old hickory handle
342. Tray lot 3 – assorted refinished bench planes, Vg: “Keen Kutter” #36-9” transitional handled block; “Record, England” #04 1/2 smooth jack; Stanley “Two-Tone” 9” bench jack w/ 2” cutter
343. 2 – Bench jointer planes, cleaned-restored, G-Vg: “Craftsman” 18”-C; Stanley Bailey #6-C fore w/ partial label on original rosewood handle (chipped ear on tote handle)
344. 2 – Stanley Bailey bench planes, (post WWII) Vg: #4 smooth jack; #5 smooth jack
345. 3 – Assorted bench planes, G-Vg: Millers Falls: #814-14” fore plane, NIB; #8-C bench jack; “Sargent” #411 smooth bench jack
346. 5 – Assorted hand axes & shingling hatchets, cleaned, G+-Vg: “Sandvik, Sweden” #0.6 -1 1/4, camp axe; Plumb, “Boy Scout” logo, camp axe; 2 – Plumb, octagon poll half-hatchets; “Berylco” #H74, beryllium (anti-spark) half-hatchet
347. 3 – Stanley Bailey bench planes (post WWII), cleaned Vg.: #3 smooth jack; 2 - #4 smooth jack
348. 3 – Assorted bench planes, cleaned, G+-Vg: “Union” #5-C bench jack, flaw to right rail; “Sargent” #408 smooth jack, Stanley Bailey #5 smooth bench jack, post WWII
349. 2 – Vintage, Stanley Bailey bench planes, Vg: “Sweetheart” #3 smooth jack w/ rosewood tote & knob (partial label); “V-strike” (circa 1912-20) #3 smooth bench jack, rosewood tote & knob
350. 7 – Assorted bench & firmer chisels, G-Vg (2 – socket handle)

351. Tray lot assorted tools, cleaned, F-G: “J. Beatty, Cast Steel” 6” cleaver; 11 – assorted “Gimlet” drills (10 – wooden handled)
352. 3 – Assorted tools, cleaned G+-Vg: “Record, England” #071 router, complete; “AMT” (#100) squirrel-tail block plane; “Bonney’s” adjustable hollow auger
353. 3 – Various bench jack planes, Vg: “Craftsman” #3CBB jack w/ full label; “Sargent & Co.” 9 3/4” overall length smooth jack w/ embossed “S” lever cap; Stanley Bailey #4smooth jack w/ V-strike (circa 1912-20), replacement handle
354. 4 – Assorted planes, G+-Vg: Stanley Bailey: #3 smooth jack, post WWII era; #4 smooth, partial label; Fulton, 7 1/4” block; Sears (England) #187.37167 block
355. Tray lot assorted combination squares & assorted parts (look at photo)
356. Tray lot assorted drilling & screwing devices, G-Vg: Millers Falls (?) adj. hollow auger; North Bros. “Yankee” #41 push drill; 2 – Spiral screwdrivers; Stanley “Handyman” #H1221 egg-beater hand drill; Stanley #1220 egg-beater hand drill
357. 3 – Assorted edged tools, G-Vg: Stanley “Victor” #1104 smooth bench jack; “E.C. Stearns & Co.” (#80) box scraper (missing 1 – screw); Stanley #71 1/2 router, cleaned & restored
358. Tray lot assorted measuring devices: Unsigned: brass steel-tipped 80z. plumb bob; iron, 8oz. plumb bob; Machinist made 12oz. plumb bob; Sargent 8oz. octagon plumb bob; Stanley: #136R-4” caliper rule; #36 1/2-12” caliper folding rule; #63-2ft. folding rule; etc.
359. 3 – Assorted bench jack planes, G+-Vg: Millers Falls: #9 smooth; #8 smooth; “Frankenstein” #3 smooth jack (Union & Stanley parts)
360. 6 – Assorted carpenters hatchets, cleaned, G.: “American Axe, Glassport, Pa.” claw-face full hatchet: Unsigned, octagon poll full hatchet; 4 – octagon poll half hatchets. Makers: Collins; “Geo. Selser, Phila.”; “Germantown”
361. 3 – Assorted routers, cleaned G.: 2 – Stanley #71; 1 – “Record, England” #071
362. “Douglass Mfg. Co.” 3 1/2 socket handle slick w/ modern oak turned knob-top handle. The slick has a chamfered top 11 1/2” long blade from edge to the socket, G+
363. Unknown maker, 4”: firmer socket-handle slick w/ early iron ferruled hickory short handle (for use with mallet). The slick is oddly marked, “151 Lewis St., Boston – New York”
364. Tray lot assorted measuring devices: F-G.: Stanley: #36-6” iron level; #36-12” iron level, missing 1 – vial; Starrett 9” iron level; Millers Falls machine-mount level; unknown maker, 12” try square; etc.
365. Tray lot assorted: “D. Darlington” (Brooklyn, NY.) 10” backsaw, G+-Vg; Small-top anvil (threads damaged), P.; H.B. reference – The Stanley Plane a History and Descriptive Inventory, Sellens, 1981 edt.
366. 3 – H.B. Antique references w/ dust jackets: Dictionary of Tools used in Woodworking…, R.A. Salaman, 1980 print; American Woodworking Tools, Kebabian & Witney, 1978; American Antique Toys, Bareholtz/McClintock
367. 3 – Assorted tools, G-Vg: Cherry wood 18” panel marking gauge; 2 – Socket handle firmer chisels, G+-Vg: “W. Beatty & Son, Cast Steel” 1 1/4”; “E. Atreem” 2”
368. “Sargent VBM” #3426-26” transitional bench jointer plane, G+ (minor cracks to handle)
369. Tray lot “grab bag” of assorted tools: 7 – Folding rules, P-F.; Unsigned, “batwing” handled spoke shave, G; 6 – Assorted wooden joinery molding planes: 2 – Sandusky, combination T&G w/ slide-down fence; “Union Factory, H. Chapin” fenced groover; etc.
370. 12 – Assorted wooden molding planes, various makers (9 – side bead), G-Vg
371. International Register Co. “International Cutawl” model “K-9” machine, serial # 6030, with original case, paperwork & accs. G., box has some water damage (circa 1930’s). This device was for combined use as a light-gauge chisel tool & scroll saw. It could be used with light gauge metal, fiber-board or soft grade leather or wood.
372. “Keuffel & Esser” 11” surveyor’s “Wye” level, brass frame w/ original mahogany case, F-F+
373. 2 – Wooden screw-arm handled plow plane, F-G+: “H.L. James, Williamsburgh, Mass.” (1 – arm mount cracked); “E.C. Ring, Ringville, M.S.(Ethan Ring, circa 1843-1855) (1 – knob cracked)
374. “John Denison” wooden non-handled screw-arm plow plane, w/ owner brand, “S.H. Derrick” (modern replaced wedge)
375. 2 – Cooper’s wooden planes, F-G+: “L. & I.J. White, Buffalo, NY.” adjustable croze plane (missing cutters); Owner bench-crafted “Chiv” plane, mixed hardwoods (some bug damage noted)
376. 5 – Assorted wooden molding planes, F-Vg: “John Veit, Phila.” 16” fore (lg. crack); “John Veit, Phila.” 8” block; “Ogontz Tool Co.” #13-16” jointer (nose crack); 2 – Unsigned, moving sole fillister planes;

377. 2 - Hatchets: Unsigned, tomahawk (throwing hatchet) w/ vintage "quilted" maple handle, G. Note – the hatchet does not appear to have a hardened steel edge; Miniature "round head" cruise/marking hatchet. The head has an oval eye, and rounded butt,
378. 3 – Assorted measuring devices, G-Vg: Primitive, hickory "lantern-top" string winder w/ steam bent mortise & tenon constructed swivel head on simple whittled handle, Vg; Primitive, "make-do" oval "paddle-type" string winder w/ walnut wood handle, G; "Keen Kutter" 8" hardwood & brass mortise gauge, Vg.
379. Tray lot 3 – assorted Cooper's edged tools, F+-G+: 8" Curved froe w/ hickory handle in round eye; Unsigned, 4 3/4" single handled scorp (cracked handle); Hand wrought round adze w/ 1 3/4" edge, relic pitting, G
380. 3 – Primitive, line winders, F-G: 1 – "lantern-top" string winder w/ steam bent mortise & tenon constructed swivel head on modern white painted handle (some cracking); 2 – "Paddle-type" swivel-top winders
381. "Peck, Stowe & Wilcox Co., East Berlin, Ct." #5- 6 1/2" Tinsmith's bench-shears. G. 28" overall length, G
382. Primitive, hand-wrought 6-tine "Eel Gig". The 5" wide head is on long stem w/ socket handle mount. The gig head is mounted on long hickory round worked handle, G+. Each tine is barbed tipped, 89" overall length.
383. Massive, 63"long Cooper's stave jointer w/ late era miss-mount handle placed into frame-prop stand hole, F+-G. The plank-style plane is 3 1/2" x 4" x 63" long. (some bug damage is noted)
384. Unknown maker, combination bench-top anvil/vise w/ two pipe jaws. The horned anvil is hollow cast , F-G (weld-repair noted to underside thread socket plate). 15 1/2" L x 7" x 5 1/2"H.
385. 18th Century, hand wrought broad axe. The axe is "bog" iron w/ primitive center-weld mount & having 8 1/2" edge. The hickory handle has bug holes. G.
386. 2 – Primitive wrought iron "woodland" tools: socket handle barking "spud" w/ primitive "make-do" handle, G. The "lima-bean" half-round edge is mounted to octagon tapered arched stem.; 10" socket handle cleaver/froe. The non-typical froe has socket mount that more typical of a cleaver. The handle is rough hewn hickory & fitted well to socket.
387. Unsigned, Filipino-type machete w/ leather sheath, G+. The machete has a hardwood handle w/ iron ferrule. The saber-shaped blade is 17"L.
388. 2 – Wrought iron primitive-tools, G-Vg: Spike tipped gaffing hook w/ hickory handle; 2nd Hand wrought combination pry-bar wrecking bar w/ nail claw, G.
389. Unknown maker, strap handled "boarding hatchet" (?). Possibly designed as grocer's axe, ice or mountaineering axe, it is designed similar to a boarding axe with fanned blade & a secondary "oyster-knife" shaped tail. The non-traditional tool is somewhat light, and definitely is not a trench axe or fireman's hatchet, G. 6" x 28"L handle
390. 4 – Assorted edged tools, G-Vg: Metal Products Corp., "Par-Plus" 13 1/2" bench jack; 2 – (Metal Product Corp.) unsigned (#4) bench jacks; "Murray-Black Co." #22 wheel-trimmer/cutter
391. * Restorer lot: 4 – Assorted planes, F-Vg: Stanley Bailey #3 (??) smooth bench jack w/ #40-type handle. The blade is V-strike; Stanley Handyman #H1205 bench jack, damaged tote-handle, "Shelton" 6 1/4" press gun-metal block; "Union" 6" block w/ knuckle-joint cap
392. Tray lot assorted tools, F-Vg: "Great Neck" 10" ratchet brace; 4 – Assorted marking gauges, various makers
393. *Restorer lot: 6 – Assorted molding planes, F-G: "P. Brooks" 9" block plane; "Owasco Tool Co." fenced coping plane; "I.T. Loomis", side bead; "Kennedy, Hartford" metal soled round plane; 2 – Stanley transitional block planes
394. "C. Silvius" (Conrad Silvius, working circa 1850, in Lancaster City) broad squaring axe. Doubled-lug Kent-type axe w/ thick splayed butte plate, hickory handle, G. (some edge chips)
395. "Maynard" (attributed to Shelburne Falls, Mass.) double-cheeked Shipwright's axe, G. The axe is signed on both side, dbl.-lugged, & chamfered topped w/ hickory handle
396. "Wm. Beatty & Son, Chester, Pa." (light strike), right-hand side broad axe, G+-Vg. The side axe has a 11 1/4" edge & walnut wood shaped off-set handle.
397. Germanic style, right-hand "Goosewing" axe w/ 2 – "Goat head" maker's strikes, G. The "Goosewing" axe has 10 1/2" edge, shallow blade, and "deflector" weld, oversized arched key, tapered off-set socket & tapered butt plate. It has a well fitted hickory handle
398. Unsigned, right-hand side broad axe w/ extended poll. The axe has 10 1/4" edge, center-set mount & arched double-lugged. F.-G.
399. "J. Beatty, Cast Steel" (John Beatty, circa 1830-1886, Chester, Pa.) left-hand side broad axe, some added red paint, G-G+. The axe is signed back face. It has 11 3/4" edge, double-lugged & heavy butt plate w/ well fitted hickory shaped off-set handle.

400. 11 – Assorted Neoprene handled carpenter's wood chisels (most Stanley) G+-Vg.
401. Fine, Stanley "sweetheart" #131 two-way block plane, Vg.
402. "Hartford Tool Co." 9"-C, bench jack plane, refinished Vg.
403. 2 – Various scraper planes, G-Vg: 1st E.C. Stearns & Co., "Merit Tools" (trademark label) (#80) cabinet scraper; 2nd Unknown maker, (#12) adjustable scraper w/ "make-do" replacement blade crafted from an old handsaw
404. 4 – Assorted lg. firmer chisels, refinished Vg: 7/8" socket handle corner; "Pexto" 2 1/2"; "P.S. & W." 1"; "W. Butcher" 2" tang handle
405. Stanley (?) #12 adjustable veneer scraper, refinished Vg.
406. 3 – Assorted bench jack planes, refinished G+-Vg: "Hercules" (#4) smooth jack, repaired tote; Stanley Bailey #4 smooth jack, repaired tote; Stanley Bailey #4, WWII era w/ Teflon adjuster knob
407. 5 – Assorted shaves, F+-G: Stanley: "sweetheart" #151 adjustable raise handle; "sweetheart"; 3 – various curved "heel shaves"
408. 3 – Various bench jack planes, refinished, G+-Vg: "Sargent & Co." #409; Stanley Bailey: #3 smooth jack, R&L strike circa 1910-1912; "sweetheart" #3 smooth jack
409. Tray lot 6 – Wooden marking & mortise gauges, G-Vg: Unsigned, oval head rosewood & brass mortise gauge; Unsigned rosewood & brass mortise gauge; Owner marked "H. Lamb" boxwood & brass mortise gauge; Unsigned, wedge-stop double arm mortise gauge; 2 – common marking gauges
410. 4 – Brass tipped cherry wooden levels, refinished G+-Vg: Stanley: R&L #30-26" adjustable w/ V-strike; "Imperfect" (factory second) "sweetheart" #3-28"; "sweetheart" #30-28" adjustable; "Sweetheart" #30-30" adjustable
411. Tray lot assorted drilling devices, G-VG: Stanley: #02-923-10" ratchet brace, Vg; "Handyman" #H125-10" brace; Millers Falls angle brace attachment; North Bros., Phila., "Yankee" #130A spiral screwdriver
412. 4 – Stanley #80 box scrapers, G-G+
413. 9 – Assorted firmer & bench chisels, various makers, refinished, G-Vg (7 – socket handled)
414. 3 – "Keen Kutter" folding pocket knives, G-Vg: 1st Rosewood handled, single blade; 2nd metal handled "Best English Steel Fully Warranted"; 3rd Green & red marbleized handle w/ 2 – blades
415. Tray lot assorted mostly "Keen Kutter" trademarked items, G-Vg: "bell-shaped" food chopper/dough cutter; Cork screw; Small tack puller; 2 – Safety razors; pr. Barber's shears; Counter-sink auger bit.
416. 4 – Various hatchets, refinished F-G+: "Westline" right-hand broad hewing hand axe; "Millers Falls" octagon poll lathing hatchet; 2 – Shingling half hatchets: "Germantown" round-poll; Signed (?) octagon poll
417. 3 – Various bench jack planes, refinished G-Vg: Unsigned, Millers Falls (?) 9 1/4" smooth jack; "Frankenstein" 9 1/4" smooth jack w/ "Lakeside" blade & "Craftsman" lever-cap; Stanley "Victor" #1104 smooth jack
418. 3 – Various tools, refinished G-Vg: Signed (??) dbl.-edged brick/stone pick; Unsigned, (Western??) leather-grip camp hatchet; Unsigned, (Bridgeport Hardware??) solid iron handled camp hatchet
419. Tray lot assorted screwdrivers & other small hand tools, F+-G.
420. 4 – Assorted hand drills, G-Vg: Stanley: "100 Years Plus" #610; "Bell Systems" (#610); #616X ; "Handyman" #H1220-A
421. Tray lot 10- Assorted block planes, F+-Vg: Stanley: #110; #103; #9 1/2; 2 – squirrel-tail blocks (1 – AMT); Aluminum 4 1/2" block; Craftsman (#9 1/2); etc.
422. 4 – Primitive edged tools, F-G: Unsigned,14" round-eye froe; "P" "trade axe" Tomahawk w/ rough hewn handle, Unsigned, Tomahawk hatchet w/ triangular eye w/ rough hewn handle; Full/broad hand axe
423. 4 – Assorted primitive edged tools, F-G.: Unsigned, orchard-keeper's grafting froe w/ 3 3/4" cleaving edge; Socket handled combination billhook/machetes; Off-center 4" curved shave w/ off-set handles; Hand wrought 1 3/4" "peg"/handle-maker's shave drawknife
424. Tray lot assorted primitives/tools, F-G: 5 1/2" two-handled scorp; Unsigned, two-handled rocker-chopping knife; Wrought iron T-handled 7 1/4" cleaver/chopper; Wrought iron lg. saw-setting tool; T-handled reamer; etc.
425. 4 – Lg. drawknives, G-Vg: "L.& I.J. White, Buffalo" 14" mast or cooper's heading shave; "Holland" (attributed to Joseph or John Holland that worked in York Boro from circa 1830-1848) 12 1/2" stop-chamfer cooper's heading shave; "Brady, Mt. Joy" 9 1/2" arched pillar/mast shave; Unsigned, wrought iron, unhairing knife.
426. 4 – Assorted cooper's tools, G-Vg: 2 - Unsigned 6 1/2" curved/hollow shave; "D.R. Barton, Rochester" chamfer knife; Unsigned, screw-tip T-handled bung auger

427. Tray lot assorted primitive tools, most measuring devices, F-Vg: wrought iron stake-type line winder (survey/field layout); Unsigned, 24" stiff-joint outside caliper; Walnut wood 8" bevel-square; Stanley "sweetheart" #104-18" level, drilled hanger hole; Spike-tipped hide-stretcher
428. "Union" #33-28" transitional bench jointer plane, refinished G+-Vg (hole drilled in nose for eye-screw hanger)
429. 8 – Assorted wooden spoke shaves, various sizes & makers, G+-Vg
430. *Restorer Unsigned, 31" rosewood adjustable "spirit" level, G.-Vg
431. Tray lot assorted tools, G-Vg: Tyzak, "Tutor" 8" brass backsaw w/ open-grip; "Groves & Sons" 11" steel backsaw w/ brass split-nuts on open grip handle; "Woodstock" – Slick-Plane; Unsigned, 5 1/2" horned block plane; etc.
432. 4 – Modern edged tools: Kunz (?) (#151) spokeshave, Vg.; Stanley #151 spokeshave, Vg. w/ original plastic display; Stanley #12-951 spokeshave, Vg. w/ original plastic display; Stanley #5 1/4 bench jack, missing blade.
433. 4 – Assorted transitional bench planes, G-Vg: Sargent & Co. #3415-15" bench fore, refinished, G.; Stanley R&L #135-10" raise handled block w/Liberty Bell cap; 2 – Stanley #122 handless block planes w/ Liberty Bell caps
434. 4 – Assorted tools: 2 – Steel backsaws, G+-Vg: E.C. Atkins & Co., 10" w/ closed grip handle; "J. Taylor & Son, Sheffield, 13 3/4" w/ 3 – brass buttons; Signed (?) 5 1/4" cooper's hollow shave; "A.H. Reid, Phila." spiral driver w/ rosewood knurl
435. *Restorer lot: 4 – Assorted edged tools, F-G: "Village Blacksmith" 8" cleaver, cracked handle; "William Friedrichs" #7 1/2 – 7 3/4" cleaver; "G.B. Ricker, Cherry Field" 3 1/2" socket handled slick (no handle & deep rust pitting); Unsigned, 2" socket handle wood chisel w/ long modern maple handle
436. 4 – Assorted wooden cooper's tools, G.-Vg: 2 – Primitive crafted wheel travelers; Croze plane w/ burled walnut wood plate-fence; Chiv (round) plane w/ oak wood plate-fence (missing iron)
437. 4 – Assorted Stanley bench planes, F.-Vg: Bailey (made in England) #6- smooth fore plane, maroon & yellow tones; #G12-205 (made in England) 14" smooth jack plane, Vg; "Handyman" #H1247 block plane; #120 Block plane, repaired cap
438. 4 – Assorted tools, Vg: Unsigned, French pattern shoe hammer, refinished w/ oak handle; FMX jeweler's rivet hammer w/ oak handle; "SMV Tools" 14oz. lathing hatchet; Plumb 8oz. ball-peen, Vg.
439. 5 – Assorted hand planes, G+-Vg: Stanley: Bailey #4 smooth jack, maroon bed; #G12-220 Block; #220 Block; Sears – #107-37033-9" smooth jack; AMT (??) 4" bullnose rabbet
440. *Restorer lot: 6 – Assorted hand planes, F-Vg: "Hercules" 9" smooth jack; "No Name" 8 1/4" smooth jack; Stanley: Bailey #4 smooth jack; #79 two-way side rabbet (missing parts); #192 Improved rabbet; Shelton pressed-steel block plane
441. Tray lot 5 – various handsaws, G-Vg: "Garrett Wade Co., Japan" 12" steel backsaw; Unsigned, 14" steel backsaw; Unknown modern, 10" two-way offset "flush cut" backsaw; Craftsman 10" steel backsaw w/ turned handle; 6" keyhole saw, open-grip w/ brass split-nut
442. 4 – Various bench planes, Vg.: Ohio Tool Co. #4 smooth jack; Craftsman #619.3742 smooth jack; Buck Bros. #4 smooth jack; Stanley "Handyman" #H1205 smooth jack
443. Tray lot assorted tools & primitives: Pr. cherry wood "India Clubs", circa 1900, strength training exercise clubs, 3" dia. x 20 1/8"H., Vg. These "India Clubs" were often sold with booklets of methods of training to increase arm strength; Maple turned "Sailor's" rope making fid, VG; Unknown maker, iron "Lineman's" combination line-tool with nail claw, G; Wooden "Carriage-maker's" router w/ adjustable fence, G+;
444. Tray lot assorted wrenches, F-G+: Lowentraut's Patent "20th Century" adjustable brace-wrench, complete; "Hayes" #A116 combination wrench; Unknown maker, combination wrench/ hand crank (possibly tractor or Engine crank)
445. *Restorer lot – 9 – Assorted try/mitre/specialty squares, F-G: "Topp's Framing Tool", patent Nov. 1, 1892; 8" combination square/level; 12" mitre square; etc.
446. *Restorer lot: 3 – Assorted "specialty" planes, F-G.: Evans Patent, circular plane, missing original screw-cap (w/ "make-do" wedge); Stanley: #12 1/2 adjustable veneer scraper, missing blade & needs replacement rosewood sole plate; Stanley #12 1/2 adjustable veneer scraper, incorrect bade
447. Tray lot assorted hammers, F.-Vg: "Mephisto" 16oz. claw hammer w/ brass rod handle; Unknown maker, 12oz. claw w/ side nail-clip holder; "Solid Cast Steel" dbl.-faces sheet metal hammer; "Bulldog Brand" small hide maul; etc.

448. 3 – Various edged tools, G-Vg: “Village Blacksmith, Watertown, Wisconsin” 8” solid handled cleaver; “James Marsh” 11” stop chamfer drawknife; “D.R. Barton” 8” sag-back drawknife
449. “Case” #3138CV “Sod Buster” folding knife, Vg.
450. Tray lot assorted measuring devices, F-Vg.; 2 – Brass plumb-bobs (6oz. & 8oz.); 19 – Assorted cloth & steel tape measures (several Lufkin)
451. Tray lot assorted tools, F+-Vg: Stanley: #65 low angle block plane; #120 block plane; “sweetheart” #70 adj. box scraper; “Yankee” #2590 screwdriver; Iron handled shave; “Rex” #27, patent Oct. 9, 1900, riveter
452. Rare maker’s mark, “E.H. Weidman” (attributed to Lancaster Co. or possibly Lebanon Co.) dbl.-bit or “cross-poll” posthole axe, G.
453. 2 – Axes, F-G:: “Truper, Mexico” felling axe w/ hickory handle; “Mann” (poor strike) shipwright’s extended poll axe,
454. 18th Century, unsigned right-hand “Goosewing” axe w/ 12” edge, tapered off-set socket, tapered butt plate & raised-bead weld. American form socket w/ chamfered top. The iron is poor quality bog iron w/ pitting. The edge has central crack & should not be used without re-edging, P-F.
455. Unsigned, 2 1/2” chamfer-top socket handle firmer chisel, G. modern brass feruled oak turned handle, G-G+
456. Continental-type right-hand “Goosewing” axe, F. Embossed initialed, “C.M.” & C.E.”. The “Goosewing” axe has 12 1/4” edge, upper-set mount, rounded heel beard, raised beaded weld. It has tapered off-set socket. & flat-back socket. Axe has stress crack at beginning edge of beard.
457. 2 -Axe, G-G+: “Beatty & Son, Chester, Pa.” right-hand full hewing axe/hatchet w/ hickory handle; Odd, hand wrought “hedging” axe w/ center-set narrow blade & square poll, unknown origin
458. Tray lot 3 – assorted edged tools: “Union” #411 circular/compass plane, F+-G; Wooden, coachbuilder’s “jigger” side router w/ left & right hawk-beak edge on brass housing on 17 1/2” L handle, Vg; Owner crafted, 2” wide center sash fillister shave/scraper, G.
459. Tray 6 – assorted block planes, G-Vg: “Austrian” 8 1/4” wooden horned block plane (crack front of horn); Stanley: “Two-Tone” 6 1/2”; “sweetheart” #220; “England” 7”; “Keen Kutter” # 9 1/2 w. adjustable throat plate; “Craftsman” #187.37052
460. “Henry Disston & Sons” 14” reversible backsaw w/ mahogany handle, G+
461. 5 – Assorted wooden panel joinery planes, G-Vg: “Denison” 7/8” grooving w/ copper coated hardware; Signed (?) handled halving plane; 2 – Handled panel grooving planes (missing irons); “J. Kellogg” handled tongue plane (missing iron)
462. 8 – Assorted wooden spoke shaves, scrapers, 1 – scratch router, 1 – Curved heel shave (most unsigned)
463. 6 – Assorted wooden molding planes, G-Vg: 3 – Rabbet planes: “J. Denison”; “M. Copeland & Co.”; “J. Davis”; 3 – Block planes: (owner) “H. Kraft” circular; “J. Kellogg” 8” coffin-shape; Unsigned, 8” hardwood
464. *Restorer lot: 24 – various tang handled firmer & bench chisels, P-G+ (several handless or new handles needed) several gouges
465. 5 – Assorted complex & fixed-cut wooden molding planes, F-G.: “Union Factory, H. Chapin” dado; Unsigned, 1 3/4” hollow block “oar makers’ plane; Overstrike, Grecian ogee; “Benson & Munsell, Albany”, Grecian ogee; “P. Chapin, Baltimore” ovolo
466. *Restorer lot: 14 – Assorted socket handled firmer & bench chisels, F-G. Makers include: “Witherby”; “Winsted Edge Tool Co.”; “Buck Bros.”; etc.
467. *Restorer lot: 2– Wooden plow planes, F.G: “Sargent & Co.” #738 handled screw-arm with rosewood threads, stops, & stops (damaged threads); “Eagle Factory, N. Chapin” slide-arm w/ wooden stop-screws, cracked & repaired fence
468. 8 – Assorted wooden joinery & simple molding planes, P-G (some missing blades). Makers include: “Z.J. M’Master & Co., Auburn”; “Gabriel”; “Greenfield Tool Co.” “Phoenix Company”; “Bensen & Crannell”
469. 9 – Assorted wooden simple & fixed molding planes, F-G: owner marked, 8” bock; 5 – Hollow or round: “J. Dennison”; “Humphrey”; Unsigned astragal bead; “Way & Sherman, N. York” side bead; two-iron sash molding needs restoration
470. 8 – Assorted wooden simple & fixed blade molding planes, various cuts, F-Vg. Makers include: “Union Factory, H. Chapin”; “O. Cabell”; “Phoenix Company”; “Hartford”; “I. Fuller”; etc.
471. 3 – Wooden complex molding planes, G-Vg.: Unsigned, 1” quirk ogee; “Kempton, 3rd” 1 1/2” quarter round; “Mockridge & Francis, Newark” 1 3/4” Grecian ogee w/ bevel

472. 2 – Various bench planes, G+-Vg: Stanley Bailey #4 smooth bench jack, post WWII, partial label; Sargent VBM #710 smooth jack
473. 2 – Various bench planes, Vg: Stanley Bailey #5 smooth jack, post 1938 strike; Craftsman #187..37054 14"-C bench jack
474. Stanley Bailey #8-C bench jointer plane, post 1938 strike, Vg.
475. Stanley Bailey #7-C bench jointer plane, cleaned, G-G+.
476. Stanley Bailey #7 smooth bench jointer plane, WWII era w/ black Teflon adjuster knob, cleaned, G.
477. 3 – Assorted metal joinery planes, G-Vg: Stanley, #190 improved rabbet; "Alumo" #1-A aluminum "raise – fence" handled T&G plane; "Record, England" router (no blade)
478. 3 – Various Stanley hand planes, cleaned-refinished, G+-Vg: #71 router (missing cutter); #110 block plane w/ nearly complete label, Vg; "R&L" #130 two-way block w/ "Star" cap, bed re-painted
479. Tray lot assorted hand tools, cleaned/refinished, F-G: Unsigned, 6" steel back/hack saw w/ tuned handle (cracked handle); "A. Stillman's Patent" saw set; 2 – Awls; 3 – Flat-head screwdrivers; "Acier Fond" angled carving chisel
480. 3 – Various, Millers Falls hand planes, cleaned-refinished, G-G+: #67 router (missing depth gauge & blade); #97 lever-adj. block; #17 adjustable throat block
481. 4 – Various, Stanley hand planes, cleaned-refinished, G-Vg: #71 router w/ blade (missing depth gauge); #60 low angle block w/ extended adjuster; #130 double-end block, circa 1912-20, V-strike; #102 block
482. 2 – Hatchets, G-G+: Embossed, "Keen Kutter" 20oz. octagon poll half hatchet; "Plumb" cedar-camp axe
483. 3 – Assorted tools, cleaned, F+-G+: Fulton Tool Co., "Superior Tools" #4 right-hand polled lopping axe; Signed, (?) squared polled full hand axe, "V&B" (weak strike) brick hammer
484. 7 –Assorted tang handled bench chisels (most W. Butcher") - 4 – gouge chisels, F+-Vg;
485. 6 – Assorted wooden marking gauges, cleaned/or/restored G-Vg: 2 – Rosewood & brass (#77) mortise; Stanley "sweetheart" #61; "Fulton" (#61); etc.
486. 5 – Assorted millstone picks, P-F+ (some possibly signed), all in need of handles & extensive cleaning or restoration
487. Tray lot assorted primitives & tools: Continental, 2 1/2" mortise chisel axe (no handle), extensive pitting & rust, P-F: ; Bonney (?) mechanics' "Off-an-on Tire Tool" F-G;; "St. Ann's Auxiliary & Knights of St. John", Lancaster, Pa. press-seal, Vg.
488. Tray lot assorted drilling devices, F-G: "John Fray's & Co" 7" brace; unknown maker, angle attachment; "Goodell-Pratt Tool Co." chain drill; "Russell Jennings Co." 13pc. auger bit set in 3-tier oak case (complete); Stanley-Jennings #100 – 13pc. auger bit set in 3-tier box
489. Uncommon, Stanley R&L #74 heavy flooring plane w/ 41"L wooden handle, as found F-G.(handle does not have original clamp-type hand grips)
490. 54" Two-man crosscut saw w/ hand painted owner named wooden cover "John Kinsey, May 15, 1896", F-G
491. 3 – Lg. handled molding planes, F+-G+: Matched pr. "Joseph Woodwell & Co., Pittsburgh, " (rare strike, but owner partial overstrike) screw arm panel tongue & groove plane set, some cracking , owner – "F. Marker" ; Unsigned, field-panel raise molding plane, cracked handle
492. 10 – Assorted wooden hollow or round molding planes, G-Vg: Makers include: "Edward Carter, Troy, NY."; "R. Harron, New York"; "G.S. Rowell, Troy, NY."; "S.E. Farrand"; "Joseph Marples"; "T.Miller"; "Higgs"; "J. Curtis"; etc.
493. 4 – Assorted hammers, F-G.: Unsigned, copper's round adze; Metal-working ball-peen (double-ender); Strap-handle claw hammer, unsigned; Early, wrought iron octagon poll "long" claw hammer (replaced handle)
494. Tray lot 6 – assorted marking gauges, G-VG: Stanley #89 clapboard siding gauge; 4 – Rosewood/mahogany & brass mortise gauges, (1 – "O.G. Stewars, Cincinnati" ); Rosewood-oval head marking gauge
495. Tray lot assorted measuring devices, F-Vg: "D. Simpson" 12" rosewood torpedo level; 7 – Assorted 2ft. wooden folding rules, various makers; 6FT., "Master Slide-rule" (some damage); Lufkin #966-6ft. "two-way" zig-zag rule; Stanley #106-6ft. zig-zag rule; Stanley #106-6ft. zig-zag rule
496. 4 – Wooden measuring devices, G-Vg: Dbl.-arm wedge-stop mortise gauge w/ molded fence; 3 – Various wheel travelers (2 – Antique)
497. 8 – Assorted try squares, various size & makers, G-G+ (1 – mitre square)
498. "Osaka, Japan" 5" brass nautical compass with gimbaled frame, missing case & minor parts, F-G.
499. WWII era, "Robeson-Shuredge, U.S. Navy" sheath fighting knife w/ leather sheath

**Catalogue Reference codes:**

| | | |
|---|---|---|
| E | Excellent condition | Nearly new condition with original finish and no noted damage. |
| VG | Very Good condition | Small cracks in wooden parts, no repairs. Has minor loss to original finish. Ideal for collector's or display purpose. |
| G | Good condition | Minor cracks in wood parts, repairs may be needed for use, has substantial paint or finish loss. Minor rust damage on iron planes & tools. Ideal for users or those wishing to refurbish for collection. |
| F | Fair condition | Substantial cracks to wooden or metal parts. Most parts still intact, but may have had substantial repair or replaced parts. Major rust damage. Needs attention or repair prior to use. Good for parts. |
| P | Poor condition | Major damage or altered pieces. Has deep pitted rusting to iron & metal pieces. Good for parts use only, or major repair work. |

**Cataloguer's note:** This list is a guide that contains our description of each piece. We used several tool references, guides and years of experience handling these tools to create these descriptions. However, many pieces are hand wrought for a particular purpose and no reference to their use exists.

**"**Rarity" is a very difficult to attribute or determine, but we considered how often these pieces have come across our auction block in the past several years to make that distinction. This may not always be in agreement with all price or collector guides.

The conditional reference was done in a fashion that we felt described the quality or condition of each piece. Please refer to the chart above.

**Absentee bids:** We strongly recommend that anyone wishing to place an absentee bid *examine the item in person first.* If you choose to place an absentee bid based on the description in the catalog alone, without examining the item personally, you do so at your own risk. The tools are described in an as found condition. You are the final judge. NO RETURNS WILL BE ACCEPTED.

**Shipping for on-line bidding: We do not handle shipping in house. A private local shipping firm handles all items that are requested for shipping. The cost of shipping is paid by purchaser. We have no part in what that cost is. Either pay the cost of shipping or plan on picking item up at our Auction Center. Note -we will not look for another shipper for you.** This note is included due to those clients that have shown disrespect to our office staff after past tool auctions. We have no intention of changing our policy for shipping for any on-line client. You pay us for your purchase & pay the shipping firm for shipping, or pay us & pick-up your purchase. We do not want to re-sell any items on another auction due to you not wishing to pay shipping. Any further question on this matter, you should call prior to purchasing items. *Tom Horst*
